

# THE **DIGITAL ERA** OF **DEPOSITIONS**

Remote depositions are no longer a pandemic workaround, but the new standard of modern litigation. Yet, for many attorneys and court reporters, consumer-grade video tools create more headaches than solutions.

## *Smarter Tools for Stronger Outcomes*

Remote depositions are no longer a pandemic workaround, but the new standard of modern litigation. Yet, for many attorneys and court reporters, consumer-grade video tools create more headaches than solutions. Poor audio, clumsy exhibit sharing, and security risks can compromise accuracy, waste valuable billable hours, and erode client confidence.

IST eliminates these barriers with a purpose-built digital deposition platform designed specifically for the legal industry. By combining courtroom-level security, crystal-clear multi-channel audio, and seamless exhibit management, IST equips legal teams to deliver faster, more accurate, and more cost-effective results. Clients who switch to IST have reported up to **53% lower invoice totals** and annual savings exceeding **\$70,000** without sacrificing accuracy or speed.

## *Adapting to the Demand for Digital*

Attorneys know every deposition carries weight. A missed word, a muddled recording, or a delayed transcript can shift the balance of a case. As litigation moves increasingly online, the risks of using generic video platforms are becoming clear:

- **Blended audio** makes key testimony indistinguishable.
- **Unreliable exhibit sharing** disrupts proceedings and causes costly delays.
- **Lack of legal-grade security** jeopardizes sensitive testimony.

These aren't just technical inconveniences, but threats to courtroom success. And with stenographer shortages and an aging reporting workforce compounding the pressure, attorneys need more than a stopgap solution. They need a platform built for the realities of today's legal environment.

IST delivers exactly that.

## *Taking the Leap with IST*

IST's deposition technology is engineered for one purpose: to give attorneys, witnesses, and court reporters a seamless experience that reduces stress and risk. Our platform provides:

- **Multi-channel audio recording:** Separate tracks prevent overlapping voices

from blending, ensuring nothing is lost.

- **Enhanced audio quality:** Crystal-clear sound makes transcripts faster and more accurate.
- **Secure exhibit management:** Attorneys control what participants see, eliminating the confusion of screen-share methods.
- **Courtroom-grade security:** Encryption and compliance standards safeguard sensitive testimony.
- **Intuitive setup and use:** Designed for busy legal teams, not IT specialists.

Unlike consumer-grade platforms, IST was built for depositions, hearings, and arbitrations. Every feature is designed to protect accuracy, preserve efficiency, and instill confidence.

## *IST's Impact in the Courtroom*

When law firms integrate IST into their deposition process, the results speak for themselves:

- **High-quality, certified transcripts:** Accuracy verified by Certified Electronic Reporters.
- **Proven cost savings:** Up to \$3,498 saved in a single-day deposition, with projected annual savings of more than \$70,000.
- **Reduced invoices:** Clients report reductions of up to 53%, without compromising speed or accuracy.
- **Dedicated support:** Active, ongoing assistance ensures proceedings run smoothly from start to finish.

These outcomes are more than efficiencies, and they are decisive advantages in litigation strategy. Firms that partner with IST position themselves to deliver stronger, faster, and more cost-effective results for their clients.

## *The Future of Court Reporting*

Court reporting is at a turning point. Remote and hybrid proceedings are here to stay, and client expectations are higher than ever. The firms that succeed will be those that embrace modern, purpose-built technology instead of relying on outdated tools.

IST is a trusted partner in this evolution. Our technology not only addresses today's challenges but also prepares firms for tomorrow's courtroom demands. By equipping legal teams with tools that prioritize accuracy, security, and cost efficiency, IST ensures attorneys can focus on what matters most: **winning cases**.

Don't leave your depositions to chance or to consumer tools never designed for the courtroom. Discover how IST can cut costs, eliminate risk, and empower your litigation strategy. ■
