who we are.

With over 30 years of experience in the Building and Facilities Service Industry, primarily at a national level, we've decided it's time to leverage our expertise and build a service team that sets the standard in service delivery and technological innovation across South East Queensland and beyond.

Commercial Asset Maintenance was established to provide comprehensive Cleaning and Handyman services to the Commercial Facilities Management and Strata sectors.

We take great pride in our commitment to professionalism, demonstrated through clear communication, advanced technology and a deep understanding of our clients' needs, ensuring consistent and reliable service delivery.

our Footprint

Our Head Office in Coolum Beach on the Sunshine Coast provides a highly responsive support system to over 80 directly employed staff across regional and metropolitan areas throughout QLD, NSW & WA.

The exponential growth of our business and significant investment into our resources has afforded us the capability to provide integrated services across all metro and regional areas throughout Australia, and the ability to provide our clients with a highly responsive and uncompromised service delivery.

With *safety* at the forefront.

Our systems and processes pertaining to Quality, Safety and Environmental Management forms part of our overall Integrated management system [IMS].

We have developed and implemented procedures to ensure the safety of our staff, contractors, visitors, the public, and good care of the environment.

- Implementation of Safe Work Method Statements
- Waste management
- Chemicals management
- Energy and water management
- Air pollution management
- Management of suppliers
- Incident management

STRATEGIC ALLIANCES TO ENSURE BEST PRACTICE SAFETY & COMPLIANCE

WORXSafety
MANAGEMENT SOFTWARE

Our strategic alliance with WORXSafety is built on the premise of nurturing a culture of safety and meeting specific standards by attaching practical activities to our safety strategy.

Together, we ensure a proactive, transparent and collaborative approach to risk, which is critical to workplace safety in common and high-risk areas.

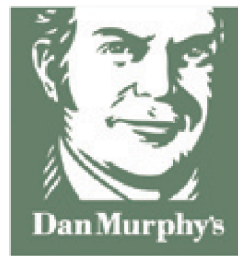

We prioritise safety activity management such as audits, inspections, maintenance, hazards, and tasks across all sites, zones, and teams which will increase visibility of risks and ensure compliance requirements are met in real-time.
