Dr. Mike is awesome. I had a hard day with my 14 year old pup. She has a tumor that has grown rapidly and filled with fluid. He was very comforting and did her exam on the floor where she was comfortable. He did not pressure me to spend money on unnecessary things and assured me that I was making the right decisions when it comes to her end of life care. That was invaluable. He even asked about my other dog he treated months ago. He is passionate about what he does and is very personable and easy to talk to. He also took his time to explain everything and answer any questions I had. I never felt rushed or like he was trying to move on to the next. Dr. Kahlil is also wonderful.

Dr. Khalil was very kind and informative. I took my Chihuahua for a visit over the weekend and they made sure she was thoroughly cared for. They provided a care plan for her and sent me home with lots of information to do my own research instead of just forcing me to do what they think is best on the spot. I feel like I was also reasonably charged, especially considering it was a walk-in visit on a Saturday. Highly recommend and will be using them for all future vet needs.

Loved everything about this place! The Dr's and staff are friendly, compassionate, and take great care in making sure everything is understood. No treatment was ever recommended that wasn't necessary or they wouldn't do for their own pets! Definitely recommend!

Excellent service. Took an abandoned cat to get him checked. Decided to adopt him. Got his Rabie shot, exam, heartworm & leukemia tests, and Revolution flea treatment. Very good prices.

On January 9th. The day after my 52 birthday I had to do the respectful and honorable job of helping my long time friend and lover(because she was my love) too a peaceful night. I called everyone and no one could help. Either they were full or closed to early for her daddy to be there. Then I called this wonderful place she was friendly and helpful called me back to keep me up to date on time. When we arrived they were quick to give us a place to say goodbye. It was beautiful and peaceful have love and understanding. I am truly grateful to them.

Dr. Khalil was informative and gave my two dogs excellent care. I loved the office staff. This is a walk in clinic so there may be a wait but is well worth it. I receive a call the day after the visit to check on my pets and see if I have any questions. Dr. Khalil also gave me training tips for the puppy. Price is competitive and would totally recommend this office.

Sam & Dr Mike are GREAT!! My cat Zeke was unable to pee. Started vomiting Sat nite. Sun AM, took him to Normandy Animal Hospital. They got him right in. Bloodwork & exam showed kidney stone in bladder. He is on IV & cath. They let us go back & see him & love on him. They're awesome! Dr Mike & Sam have called me several times as well. Zeke comes home tomorrow!!!

My cat loves it here I wouldn't wanna change her doctors now. Sam her nurse is very sweet I don't like giving my cat pills she was very helpful. They always call the next day to check on her after any vaccines while she went thru her kitten and adult shots. Very nice people very worth it 🐾

Not overpriced like most other local vets are for health certificates. Dr. Khalil is knowledgable and took time with us and our puppies to ensure they were all in good health before going to their new homes. They are also open on Sunday which is great!
