

Local Agencies Using GTFS Builder for Online Trip Planning

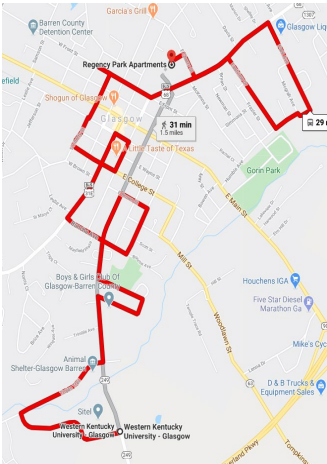

<http://nationalrtap.org/Web-Apps/GTFS-BUILDER>

Tyler Graham, Regional
Transportation Planner
**Barren River Area
Development District**
Bowling Green,
Kentucky

“We were able to deploy online trip planning for Glasgow Transit in less than 90 days using GTFS Builder. Trip planning information displays in a riders' native language, which supports agencies in travel training and meeting Title VI mandates.”

Trip Plan for Glasgow Transit

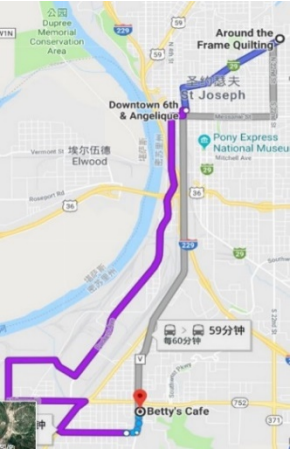

Mary Gaston, General
Manager
St. Joseph Transit
St. Joseph, Missouri

(11 routes)

“If I had an hour or two where I had some free time, I would just kind of peck away at all those worksheets . . . a nice benefit is the ability of people who don't speak English to get some help with trip planning.”

Trip Plan in Chinese for St. Joe, MO

Michael Lachman,
Transportation Services
Manager
**HAPCAP - Athens
Transit**
Athens, Ohio

(9 routes)

“Having a tool like GTFS Builder is really light years ahead of what it used to be at one time in terms of how fast you can put everything together. Our university students really can't imagine transit without it, so I think it's very important for us in terms of attracting that particular demographic.”

Trip Plan in Spanish Athens, OH

Jaime McKay,
Former Manager of
Direct Services **Center
for Mobility Equity**
Maryland

**(18 agencies statewide
initiative)**

In the past we used proprietary database software that was very challenging, very murky, and hard to update. GTFS Builder is a great opportunity to make this more user-friendly, more readily updatable and it would enable us to show how to create a GTFS to more of the staff.
