### Self Discovery

Getting to know you and your interests are an important step of the process. This allows us to effectively guide you to make the right match to a place you can call home and be happy.

1

### Academic Blueprint

To effectively guide students to their intended path of education and career goals; course sequencing, selection and rigor are an imperative piece to optimizing the college application process. The most important factor in admission decisions after GPA is the strength of a student's curriculum.

2

### Testing Strategy

ACT or SAT? That is the question... The first step to successful standardized testing is creating a plan of which test to take and when. By identifying this path early, you can avoid wasting time and money moving in the wrong direction. Knowledge Worx will help identify test strategies that are real and help improve overall scores on proven standardized test-taking methodologies.

3

### Extracurriculars

Most college applications ask about your activities. That's because what you do in your free time reveals a lot about you; in ways that grades and test scores can not.

4

### College List Design

We will create a balanced college list based on academic, social, emotional and financial fit; all the while taking into consideration your desired important criteria in a college experience.

5

### Essays

The college essay is your chance to reveal the person behind the GPA and test scores. You want to tell a compelling story that reveals something about your character.

6

### Supplemental Materials

Organize materials for application submission; transcript, resume, LOR's, supplemental essays, portfolios and any other requirements.

7

### Apply

When the deadlines arrive you will be ready to submit all of the materials needed with the confidence you are presenting the colleges with evidence to admit you and offer you merit aid!
