Describe any and all tenants and any/all end users:** (This information is critical in determining project eligibility): This Alstom investment in the design/build of a new 135,000 sq ft facility. This project will also include the: design, procurement and integration of the industrial equipment and means (fusion, and arc welding, material handling equipment, work station set-up). This project will yield the capabilities for Alstom to manufacture passenger railcar stainless steel carbody shells for integration/transformation into completed rail passenger cars purchased by Passenger Rail Transportation Operating Authorities/Agencies primarily in the USA and possibly Canada. Total Capital Investment is forecast at \$34.6, detailed below to be spent over a 21- month period beginning April 2021. Alstom will be the only tenant/end user of this new Carbody Shell Facility.

**Describe the reasons why the Agency's Financial Assistance is necessary, and the effect the Project will have on the Applicant's business or operations. Focus on competitiveness issues, project shortfalls, etc... Your eligibility determination will be based in part on your answer (attach additional pages if necessary):** Based on Alstom and CHIDA interactions in 2020, regarding this new industrial project to design & build a new 135,000 sq ft Carbody Shell Manufacturing Facility, sales tax exemption and level of PILOT assessment for the new development construction and operation were reviewed. Based this input, Alstom created an operational and financial business plan incorporating these assumptions into its financial planning models. Attainment of these CHIDA outlined financial cost reduction opportunities are key elements in Alstom's planning and result in a more competitive 'factory rate' for current & future opportunities. Early in 2020, Alstom was evaluating a location for this new CBS facility in the Buffalo, NY area – CHIDA's proposals/indications were components of Alstom's financial evaluation that favored Hornell, NY as the site for the new 135,000 sq ft CBS facility.

Please confirm by checking the box, below, if there is likelihood that the Project would not be undertaken but for the Financial Assistance provided by the Agency?

Yes or  No

If the Project could be undertaken without Financial Assistance provided by the Agency, then provide a statement in the space provided below indicating why the Project should be undertaken by the Agency: Alstom’s business case analysis in 2020, when Alstom was evaluating Hornell, NY versus an alternate location for the facility in Buffalo, NY, was based on input from Hornell IDA that was a component of the financial & operating parameters evaluated that resulted in a favorable decision for the Hornell Site. The project will create 258 new jobs, retain an additional 390 jobs at Alstom’s Hornell operations. Although difficult to quantify, there will be a positive job growth impact for other area & New York State businesses directly associated in supporting Alstom’s new facility operation, along with job growth in the area

If the Applicant is unable to obtain Financial Assistance for the Project, what will be the impact on the Applicant and City?

Impact on Alstom’s current financial outcome for the new project that was based on obtaining Financial assistance for sales tax exemption and PILOT opportunity as discussed with CHIDA in 2020 and incorporated into Alstom’s financial planning. Additionally, possible impact to Alstom’s future market-place competitiveness due to absorbing unplanned sales tax and PILOT costs.
