

CITY OF HORNELL INDUSTRIAL DEVELOPMENT AGENCY UNIFORM TAX EXEMPTION POLICY AND GUIDELINES

The general policy of the City of Hornell Industrial Development Agency ("Agency") is to grant applicant's real property tax abatements and exemptions from sales, use and mortgage-recording taxes as described below. The Agency may grant enhanced benefits on a case- by-case basis for a project expected to have a significant economic impact on the City of Hornell as determined by the Agency's Board of Directors.

A. REAL PROPERTY TAXES

The Agency maintains a policy for the provision of real property tax abatements for qualified projects. The abatement provided applies to value added by construction or renovation and the existing parcel involved. The period of the exemption will not exceed the period of the respective financing or lease and under no circumstances will the period of the exemption exceed twenty (20) years. The Agency's policy results in a graduated schedule of abatement applicable to County, Municipal and School taxes. Each schedule will result in increasing percentages of taxes due with a maximum initial abatement of one hundred percent (100%). Eligible projects include industrial projects (i.e. manufacturing, remanufacturing, assembly, processing product research and development, etc.) and non-industrial projects (i.e. warehouse, wholesale/distribution, qualified retail, office, hotel, etc.).

Any deviations from the standard policy will be made only with the specific approval of the Agency's Board of Directors based on the factors listed in paragraph E and those described in the New York State General Municipal Law Section 874 (4)(a).

Additionally, the Agency shall notify the affected local taxing jurisdictions of the proposed deviation from such policy and the reasons therefore.

Since payments are based upon the assessed value of the project, there is no need for real property appraisals to be performed at part of an application for tax exemption. The project applicant has the right to challenge any applicable assessments.

B. PAYMENT IN LIEU OF TAXES

Each project receiving an abatement will be subject to a Payment in Lieu of Tax Agreement ("PILOT Agreement") in a form acceptable to the Agency. The Agency will consider project factors, similar to those described in paragraph E herein, when determining the amounts to be paid under PILOT Agreements. A copy of the PILOT Agreement will be forwarded to each of the affected taxing jurisdictions within fifteen (15) days of execution. Unless otherwise agreed by the Agency, with input from the affected taxing jurisdictions, such payments shall be allocated among the affected taxing jurisdictions in proportion to the amount of real property tax and other taxes which would have been received by each affected taxing jurisdiction had the project not been tax exempt due to the status of the Agency involved I the project.

C. SALES & USE TAX EXEMPTIONS

1) Purchases of construction materials and equipment rentals and purchases of project related equipment and furnishings are made as agent for the Agency, and are therefore afforded full exemption from local and New York State Sales and Use Taxes until the project is completed (i.e., certificate of occupancy). Operating and maintenance expenses of projects are not incurred as agent of the Agency, and no sales tax exemption is provided thereof.

2) All project applicants must agree in writing to file with the New York State Department of taxation, in form and at times required, an annual statement of the value of all sales and use taxes exemptions claimed in connection with the facility in full compliance with section 874 (8) of the General Municipal Law.

D. MORTGAGE RECORDING TAX EXEMPTIONS

1) The Agency's Policy is to permit mortgage-recording tax exemptions on all financing enhancing the value of a project to the full extent permitted by New York State Law.

2) The Agency may, in its sole discretion, permit mortgage recording tax exemptions on non-project related financing, (e.g., Second mortgages on the project to secure subordinated indebtedness of the project applicant). In determining whether to permit such exemptions on non-project related financing, the Agency shall consider such factors, as it deems appropriate, including but not limited to the use of the property, the degree of investment, the degree and nature of the employment and the economic condition of the areas in which the facility is located.

E. DEVIATIONS

In addition to or in lieu of the foregoing the Agency may determine, on a case-by-case basis, to deviate from the guidelines described above or provide enhanced benefits for a project expected to have significant impact in the locality where the project will be located.
