PUBLIC HEALTH

NON INSURED HEALTH BENEFIT NAVIGATOR (NIHB)

Highlights:

- June 23 – NIHB Navigator **commenced employment and orientation.**
- Community engagement session planning remains a priority.
- Community engagement sessions initiated to introduce the NIHB Navigator role and identify community priorities.
- June 30 – **Community Engagement sessions were held with Couchiching First Nation and Mitaanjigamiing First Nation.**
- Common themes identified included medical travel approval delays, dental predetermination challenges, reimbursement concerns, and opportunities to reduce administrative burden through standardized processes and educational resources.
- Planning initiated for the **development of community engagement materials**, including intake forms, client checklists, newsletters and educational posters.
- This quarter focused on orientation, establishing relationships with communities and identifying community priorities for the new NIHB Navigator program.
- The NIHB Navigator **will continue to build relationships through ongoing engagement sessions and collaboration with local health teams.** Support will be provided, upon request, to clients and community staff experiencing complex NIHB issues, including medical travel, dental benefits, medical supplies and equipment, pharmacy benefits, reimbursement concerns and other benefit navigator challenges.

ENVIRONMENTAL PUBLIC HEALTH

Highlights

- **Sampled five community sewage lagoons** prior to seasonal discharge, helping communities safely release lagoon contents while protecting surrounding water bodies from environmental confirmation.
- **Delivered 103 environmental public health consultations and completed 83 community visits**, providing ongoing technical support, education and guidance.
- Following the commissioning of the new water treatment plant in Manidoo Baa Witi Gong First Nation, our team was **pleased to recommend the lifting of the community's long-term Boil Water Advisory.** Chemical and microbiological testing confirmed the treated drinking water met all applicable regulatory safety standards, restoring access to safe drinking water for the community.
- Responded to a wastewater infrastructure emergency following the failure of a low-lift sewage station. The Environmental Public Health team conducted environmental and drinking water sampling, assessed potential public health risk, provided health education to the community, advised against recreational use of the affected area, participated in emergency response meetings with key partners and continued to advocate for emergency infrastructure funding. Ongoing monitoring confirmed the community's drinking water remained safe throughout the incident.

Client Encounters

Cumulative statistics April 1, 2026 - June 30, 2026

530 Encounters

3 Boil Water Advisories Issued	**70** Quarterly Chemistry Water Samples
3 Boil Water Advisories Lifted	**27** Additional Water Samples
25 Inspections (premises, housing, and septic installations)	**32** Lead in Drinking Water Samples
8 Investigation of animal bite exposure to ensrre no risk of rabies transmission	**20** Comprehenisve Annual Sampling
103 Community Consultations	**109** Food, Health and Important Consumer Recall Notices/Warnings
130 Bacteriology Analysis Samples	

COMMUNITY HEALTH

Highlights

- Health promotion and education were a significant focus during the first quarter, with Community Health Nurses actively engaging community members through culturally relevant and evidence informed education sessions. **These sessions emphasized disease prevention, healthy lifestyle choices, harm reduction, sexual health, chronic disease prevention and women's health.**
- Through collaboration with internal programs and external healthcare partners, Community Health Nurses strengthened community capacity, promoted preventative health practices and empowered individuals and families to make informed decisions about their health. **These health promotion activities continue to play an important role in reducing health risks, increasing awareness of available services and encouraging community members to take an active role in maintaining their overall health and wellbeing.**

902 Encounters

326 Individual Clients

HOME & COMMUNITY CARE

HOME & COMMNITY CARE (HCC)

Highlights:

- The HCC program has **implemented a Skin Health nursing position to accentuate our current wound care supports** – by implementing this position the program is better able to streamline client's wound care services, ensure best practices are being leveraged and enable education to be provided both at the client and community level to improve knowledge and support client empowerment.
- In collaboration with the Footcare and Diabetes team **work is ongoing to strengthen pathways with Gizhewaadiziwin Health Access Centre as part of our lower limb preservation program** to streamline client access to primary care for concerns related to lower limb wounds and amputation risk.
- The palliative care clinical coach supported the planning of the Hospice Palliative Care Ontario conference held in June.
- HCC team has begun the introductory work for upcoming accreditation as this program will be part of the review for 2027.

DIABETES & FOOT CARE

Highlights:

- Successfully **increased to weekly diabetic foot care services across all 10 First Nation communities.**
- **Expanded our program to include a lower limb preservation nurse** offering timely assessments and follow-up of high-risk clients and education services.
- Strengthened relationships with Community Health Representatives and local health team to improve referrals and continuity of care.
- **Developed standardized referral pathways and clinical documentation tools** in partnership with Gizhewaadiziwin Health Access Centre to improve access and consistency in care.
- Delivered diabetes self-management education, including blood glucose monitoring, healthy foot care practices, risk reduction strategies, and prevention of diabetes-related complications.
- Participated in interdisciplinary case conferences supporting complex diabetic foot and wound care clients.
- Completed professional development related to diabetic foot assessments, wound management, custom silicone orthosis, fungal nail treatment, offloading, and lower limb preservation.
- Supported implementation of evidence-informed diabetic foot screening practices
- **Collaborated with community health staff to reinforce diabetes self-management goals and encourage ongoing engagement with primary care services.**

99 Diabetes Clients

MATERNAL CHILD HEALTH

CHILDREN'S ORAL HEALTH INITIATIVE

Highlights:

- In April, **the COHI team celebrated Oral Health Month and National Dental Hygienists Week™ with a "Tooth Fairy Trivia" social media campaign.** The campaign encouraged participants to test their oral health knowledge while reinforcing the importance of preventive dental care. Chi Miigwech to everyone who participated and helped make the campaign a success. The celebration wrapped up with a raffle for an oral health-themed gift basket, based on engagement with our daily posts.
- The team **began preparing for it's Summer Screenings & Cleanings program, which will be offered in July and August** for children in the 10 First Nations communities served by COHI. As part of ongoing program enhancements, the team purchased a Cavitron ultrasonic scaling unit. This new equipment will improve the efficiency of dental cleanings and enhance the quality of preventive oral health services provided during community clinics. The Summer Screenings & Cleanings program continues to provide children with increased access to preventive oral health services.

Client Encounters

178 Individual Clients

MATERNAL CHILD HEALTH

Highlights:

- The Anishinaabe Midwife **supported 3 prenatal clients** during this reporting period.
- On May 20 we **brought together Elders to provide an update on the progress of the Maternal Child Health and Indigenous Midwifery Program** and to share the broader planning and development work that has been underway. A key focus of the meeting was to **initiate the establishment of a dedicated Grandmothers' Table/Advisory** to guide planning, ensuring that services and spaces are grounded in Anishinaabe knowledge, values, and community priorities.
- We **welcomed a Registered Midwife and Milk Medicine Coordinator** to our team who will be instrumental in continued program development as we prepare for initiation of enhanced maternal child health services.

CHILD'S FIRST INITIATIVE

Highlights:

- Case Management **supported schools and families in finalizing IEP plans and reports for upcoming school year.**
- **Facilitated Spring Assessment Clinic** providing critical assessments for children within eight of the 10 First Nations.
- Supported Community Care Prevention teams and health professionals.
- Offered Early years playgroups in all 10 communities.
- **Facilitated professional development on gender-affirming practices** offered by Rainbow Health to internal team members and external community partners.
- **Supported regional 2SLGBTQIA+ youth and families** through the distribution of educational Pride resource kits to community care programs and the Federal schools.

MENTAL HEALTH SERVICES

MENTAL HEALTH COUNSELLING & THERAPY

Highlights:

- With recent **onboarding of a new Mental Health Counsellor** (term) we have been able to start to alleviate our waitlist times.
- The Mental Wellness team also **increased their staffing capacity,** which helped to alleviate the Mental Health Services team from responding to as many crisis response calls and situations.
- A total of **26 days were spent covering either the direct line or responding to crisis in community** to support and collaborate with the Social Emergencies team for crisis response.

CULTURAL COMMUNITY SUPPORT

Highlights:

- The first quarter of the new fiscal year has had very well attended cultural programming with a total of **535 people attending Sweatlodge ceremonies.**
- A total of **2,101 individuals either listened to our Agency Drum at events, powwows, and workshops or attended other ceremonies** hosted by us or in collaboration with other external organizations.

Client Encounters

Cumulative statistics April 1, 2026 - June 30, 2026

- **2101** Face to Face (Direct & Indirect)
- **535** Sweatlodge Ceremony Attendance
- **36** Phone

2672 Encounters

63 Individual Clients

CLINICAL CASE MANAGER

Highlights:

- The Clinical Case Manager has been able to connect with community members, community workers, and external organizations by attending multiple community events and joining committees. Our Clinical Case Manager is a **part of the Homelessness Committee, Encampment Committee, and Rainy River and Communities Substance Use and Mental Health Committee** and is working along with external organizations to maintain working relationships and positive relationships with clients.
- The Clinical Case Manager is also internally involved in the Safe Travel Working Group and Quality Improvement.
- During this quarter, the Clinical Case Manager has been able to **complete trainings which include DBT Managing Extreme Emotions, DBT Skills for Anxiety, and DBT Front Line Mental Health Workers.** The Clinical Case Manager has also **completed ASIST** training and has had the opportunity to attend Dr. Haggarty and Dr. Nix case consults and education sessions.
- The Clinical Case Manager has also **attended multiple community events** such as health fairs and booth set up in surrounding communities such as Gakijiwanong First Nation, Chima'aganing First Nation, Musk-kosiminiziibing First Nation, Anishinaabeg of Naongashiing First Nation, and Couchiching First Nation.
- The Clinical Case Manager was part of **organizing booths with external organizations for the Men's Mental Health Basketball Tournament** and helped with organizing the Mental Health Awareness walk.
- The Clinical Case Manager has been **involved with outreach work through the Encampment Committee** and has been able to connect with people who are experiencing homelessness and provide harm reduction tools and information as well as essentials needed by the individuals. Outreach work works well for the Clinical Case Manager to connect with individuals who may be requiring referrals elsewhere and case management support services.

SOCIAL EMERGENCIES

SOCIAL EMERGENCIES COORDINATOR

Highlights:

- The Program **provided support to 2 communities that were evacuated due to wildfires.** SEC was able to host morning and evening meetings with all relevant partners including both provincial and federal (OPP, Treaty #3, Indigenous Services Canada, Ministry of Natural Resources, Advisory Services, Community Leadership, administration etc for Naicatchewenin First Nation. The community later honoured all staff that supported the evacuation efforts.
- The program also **assisted stranded community members of Gakijiwanong First Nation on the highway** with no gas at 2:00am as they were evacuating. The community had lost all power and the generator for fuel had been impacted.

MENTAL WELLNESS TRAINING & DEVELOPMENT COORDINATOR

Highlights:

- Mental Wellness Training & Development Coordinator along with Corporate Trainer **ran our first successful ASIST Workshop.** We were honored to successfully deliver the 2 day ASIST Workshop. We had a supportive and engaged group of participants who created a safe environment for meaningful discussion & learning. The workshop was very well received. The participants shared positive feedback about the tools they received to increase confidence in recognizing suicide risk and providing life-saving support. It was a powerful experience that gave participants the ability to intervene with compassion and care to support our communities and reinforcing our commitment to build safer, more connected communities.

HIGHLIGHTS & ENCOUNTERS

MOBILE CRISIS RESPONSE

Highlights:

This fiscal, the Mobile Crisis Response Program participated in a number of community engagement activities:

- Attended Stronger Together hosted by Community Living Fort Frances and Rainy River District School Board
- Weechi-It-Te-Win Family Services Spring Feast
- Anishinaabeg of Naongashiing First Nation Health Fair
- Chiefs Assembly

MCRT Olivia M with keynote speaker Michael Jacques

MENTAL WELLNESS PROGRAM

Highlights:

- **Partnered to support the 2nd Annual Fort Frances Men's Mental Health Basketball Tournament.** This event is about more than basketball—it is an opportunity to come together as a community to raise awareness, foster meaningful connections, and support the ongoing conversation surrounding men's mental health. The event raised $20,000.00.
- The Team **organized a "Walking in Balance" Lunch & Learn at Mikinaak Onigaming School** for grade 7 to 12 students. The presentation focused on Inspiring Mino Ayawin (Good Health) through physical, mental, emotional & spiritual wellness.
- The Team **partnered with Gizhewaadiziwin Health Access Centre to make an anti-bullying presentation in Musk-kosiminiziibing First Nation** at Pegamigaabo School. Three presentations were given to nine Grade 3/4 children, 10 kindergarteners, and six Grade 7/8 children. The presentation addressed types of bullying, why people bully, how it affects others, and how to stop it.
- **Two-day training on Mental Health First Aid** on April 15 to April 16, 2026 and on June 10 to June 11, 2026.
- **Partook in Trauma Informed Care course** online on April 21, 2026.
- Took an **online course on harm reduction** on May 5, 2026.
- Took a **two-day training on First Aid, CPR & AED** on May 6 to May 7, 2026 .
- Took a **one-day virtual course on Motivational Interview** to equip them with the necessary skill and training needed to be successful.
- Took a **three-day virtual community crisis response course** to equip them with how to handle crisis and how to identity crisis in our communities.

LAND BASED COUNSELLOR PROGRAM

Highlights:

- **Evening Beading Circle:** This quarter the Land Based Program has created space for individuals to learn different beading styles and projects such as beaded earrings, medallions, regalia accessories (cuffs & barrette's). This **enhances their spiritual grounding and overall wellbeing by reconnecting to their roots through crafting.** Through beading it helps to calm the body and creates a different avenue for their mental health.
- **Strawberry Teachings & Women Wellness Sweat:** This quarter the Land Based Program has created an opportunity for communities to come together to learn about strawberry teachings, cycle of life, and women's medicines followed by a sweatlodge ceremony to center and empower woman while sitting in lodge together. This provided an opportunity for personal healing and growth.
- **Gill Net Setting** – This event **brought the community members together to work as a team.** This is a great teamwork activity and is a process which teaches patience and communication. Catching fish in a gill net gets people involved physically; from setting the net to pulling the net when the fish are coming out of the water.
- **Birch Bark Making/Medicine Picking** – The **Elder taught community members how to harvest birch bark from the birch trees along with the traditional protocols that need to be taken care of prior to harvesting anything from the land.** He shared teachings on and pointed out different medicines in the bush and their uses. Individuals were shown how to identify trees and were taught how to harvest them by taking them out by the roots.
