

DUCTILE IRON THREADED FITTINGS

SPECIFICATIONS

TSP DUCTILE IRON FITTINGS

Mechanical properties of Ductile iron in accordance with ASTM A536
(Grade 65 - 45 - 12)
Hardness: 131-222 BHN

Fittings are manufactured in accordance with ASME B16.3 & ASME B 16.4
Threads NPT per ASME B 1.20.1

Fittings are 100% air tested

Hydrostatic Design Test Pressure 500 PSI

Product Certificated by UL, FM
