Breeding Information

All of the bred females have been ultra-sound
 pregnancy checked by our veterinarian. We have
 listed all the information we know in the catalog but
 cannot 100% guarantee the accuracy; sexed semen
 is only 90% accurate. We do guarantee that all bred
 females are bred and that they will calve within a
 tight window to the vets diagnosis.

Herd Health

Health papers for interstate travel will be available.
 Bred females have been pregnancy checked safe
 by a licensed Veterinarian. The buyer has within 21
 days following the sale to re-pregnancy test their
 purchases. If any animals are found open within
 those 21 days you must notify Ferguson's at once
 for an adjustment to be made. Updated breeding
 information will be available on a supplement
 sheet sale day, this sheet will take precedence over
 statements in the sale catalog. Bred heifers were
 ultrasounded on 8/6/26 and will be preg checked
 again on 10/1/26. See our herd health protocols on
 page 64.

Online Bidding

Bid online and watch the sale live, CCI.live
 Call/Text, 405-400-9505 • schedule@cci.live

Air Travel

Sale site is located about an hour from Cleveland,
 Ohio. Airport services all major airlines.

Video Auction

This is a video auction, please come to the sale
 sight early to view all of the cattle in the flesh.
 Online videos will be posted prior to sale week at:
www.fergusonshowcattle.com and
www.dwycattle.com

Terms & Conditions

Cattle sell per the terms & conditions of their re-
 spective breed associations. Announcements from
 the auction block on sale day regarding the cattle
 selling in this sale will take precedence over the
 information printed in this catalog.

No cattle will be loaded until paid for. Terms are
 cash, check with proper ID (i.e. driver's license), or
 Master Card/Visa will be accepted with a 3% fee.
 For example, if you are the successful bidder at
 \$1,000 and you charge your purchase using your
 credit card. Your credit card statement will show a
 payment of \$1,030.

Registration Transfers

Please leave your transfer information and/or breed
 association member number with the sale clerks at
 the completion of the sale.

Sight Unseen Buyer Guarantee

If you can't attend the sale, contact one of the own-
 ers, sale managers, or consultants for information
 regarding our sight unseen buyer guarantee. We
 will arrange for a member of the sale staff to discuss
 the cattle with you. Bidding can be done via phone
 or by a confidential bid prior to the sale. Please call
 between October 11th-October 17th to obtain a
 bidder number. We will arrange to have someone
 call you when the lot(s) you are interested in, enters
 the sale ring. Please note that our sale will start on
 time and will move quickly, so be prepared to make
 your bids promptly.

Welcome

It's sale time! Hard to believe another year has passed; time is our most precious and irreplaceable resource. It can't be banked and treats everyone equally. Our aim is managing it wisely to achieve our goals. We strive to produce phenotypically pleasing cattle that work in a real-world environment while not chasing EPD's. A term used by the Japanese, "Kaizen" which translates to a change for the better. Consistent small steps for the better, not major overhauls.

We are very proud of our offering this year, coming off a record selling 2025 sale. Highlighted by Donna 1316 selling eight head and averaging \$23,950 per head. FSCI Donna L332 topped the sale at a \$60,000 valuation to Brad Wiseman. FSCI Lynchburg brought \$54,000 to Andy Mast then partnered with ST Genetics. FSCI Donna L333 commanded \$28,000 for ½ interest to Scott Werning of Werning Cattle Company. A Bet On Red by Gemstone brings \$22,000 to Steve Watson. The consistent genetics of 990G x Countertime brings \$19,000 to Nick Tkaczyk, to name a few.

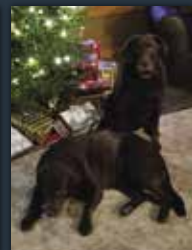

Customer success is the backbone of any business. Brad Wiseman turns around and has the high selling flush in Denver at \$10,000 to Nathan Alpers, who then sells two pregnancies for \$15,000. Andy Mast quickly gets a handsome return on semen sales. Slater Farms purchased 1316 x Victory embryos and sold a spring heifer for \$21,000 in the Foundation sale a few weeks ago. Kaytee Reed scoops up the BOSC Summer M367, \$20,000 high selling cow-calf pair at the Expo, winning Grand Champion cow-calf pair at the Eastern Regionals and the Reserve cow-calf pair at the Sweepstakes. Dalton Lundy purchases a high selling open out of Donna 1142 by On The Run and is a class winner at the Sweepstakes, Ohio State Fair, and many other shows. Chris Cottrill has consistently sold valuable calves from his many FCC dams and SO many more. Our offering this year is so consistent from top to bottom, highlighting the Donna genetics along with the time-tested genetics of Erica, Gemstone, Summer, Sweet Emotion, and Sazerac genetics. We Firmly believe our success in the cattle industry is a direct reflection of our customers success. Seeing our genetics thrive across the county gives us great satisfaction.

Our team did a fantastic job of bringing these genetics to the offering. Lindsey does an amazing job organizing the crew and the cattle records. Scott manages the cattle and getting animals bred. Pat is again busy making hay and developing pastures. Eric Montgomery is our winter and spring specialist. Garrett manages the show barn and some breeding. Gina the all-around superstar showing and calving specialist.

On the family front, John's company Top Gun Roofing is successful and growing fast. Holly is a committed teacher raising two beauty queens. Noli is an award-winning dancer, cheerleader, and baseball player, how does she find the time?! Poppy, well second child extraordinaire. I say it every year, but Lindsey and Ryan have reached a new level of dedication and hard work, Lindsey took up golf and with the guidance of Ryan, can knock the cover off a Pro-V1. Hudson just turned four. All boy, go fast, take no prisoners. Christen joined a new marketing team, and Jess got a huge promotion. Debbie and her family are doing fantastic, with her grandchildren, Ettie being baptized and Hank making his first communion. My mother turned 87 years young, if there is music she will drag you to the dance floor. I lost a good friend and Lindsey an uncle, Don Braat, way too early. A big smile, quick wit, always lending a helping hand. We had some great family times. Don will be missed by all. Lastly, I lost two life partners, Marley and Maggie. They never judged or asked anything of me. I didn't realize how much they meant until their time was up!

Once again, we are humbled at the continued interest in our program and the many successes our customers have and continue to have. We thank you for taking the time to evaluate our genetics.

God Bless America,
John Ferguson

Widely considered to be one of the most elite and dominant Simmental donors, generating over 2.5 million dollars. She recently sold a flush into Canada for \$51,000 at the Farm Gate Timed Auction and \$40,000 in the Denver One Sale.

Producing deep-bodied, structurally correct, and highly efficient cattle that excel in the show ring and pasture, we picked four open heifers out of a group of sixteen embryo calves to establish generational genetics in your herd.

Donna 8302 Family

Lot 1

Full Sister to Lot 1

Sold in Sandeen's 2026 Building A Brand Sale for \$215,000

We saw Red Bird sell at Werning's and thought he was a very good bull. Then, I started seeing calves and breds out of him, and my perception changed: he is a great bull- a real world type of bull, unfortunately lost in his prime. Breeding him to 8302 was certainly not speculative. When I saw Lot 1 at Sandeen's in his 2025 offering, I was giddy, to say the least. At the end of the day she brought \$215,000 from astute cattlemen. Lindsey and I have been doing this for a long time, and this one gives us a lot of satisfaction. I don't know if I could do her justice with a flavorful word salad of genetic adjectives and adverbs; Scott Sandeen is the master at describing the great ones. That being said, in my humble opinion, this is a great one! Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show.

FSCI Donna N5060 - Lot 2

When putting together a mating that combines some of an entire breed's most influential cows in Sandeen Donna 8302 and JS Black Satin 9B or "Boots," this is exactly the outcome that you expect. 5060 is not only a genetic powerhouse, but an incredibly impressive female on hoof. From the side the Genoa daughter offers a knockout silhouette with a beautiful head and neck, a smooth shoulder that ties back into a big rib and balanced underline, and stands on four comfortable legs with the right kind of angles and claw shape. A favorite of Lindsey's and the kids, tie into this one if your looking for one to compete in the ring then turn around and build a program. **Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show. Entered in the NAILE junior and open shows.**

A Donna with a little different twist. She is a unique creature that brings the best of two breeds together. She is yak haired with ample bone work, a monster top, and a belly and rib configuration that doesn't quit. To balance out all that mass and power, she offers a tiny head and is clean choked. This female is going to be incredibly fun to work off of, offering the progressive cattlemen infinite breeding options. Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show. Entered in the NAILE junior and open shows.

Sold in Sandeen's Building A Brand Sale for \$81,000

Let's talk consistency. Quantum Leap x 8302 has been one of the most consistent matings in the Sandeen gene pool over the past five years. Not only has the mating proven consistent, but the offspring have continued to deliver the kind of cattle that work. We currently have two Quantum Leap x 8302 daughters in our donor pen, and they flat-out work. That says a lot about the value of this pedigree and, more importantly, its ability to generate cattle that can contribute to a program for the long haul. When evaluating pedigrees, return on investment matters. As you work your way through the rest of this catalog, keep your eyes on the Quantum Leap x 8302 pedigree and take a close look at what it continues to do. **Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show.**

Sandeen Donna 1316 - Dam of Lot 6

Yes Queen! From the moment 5050 hit the ground, we knew she was special. After last year's sale, we already knew the Sandeen Donna 1316 cow family was a force to be reckoned with and then 5050 came along and raised the bar. Extension, smoothness, power, femininity, bone, structure, you name it, she has it. She combines all the pieces we look for in a great one, and she does it with the kind of balance and presence that makes you stop and take notice. Just like the maternal sisters that came before her, 5050 has a bright future ahead. We believe she is destined to make a significant impact on your program and the Sandeen cow family for years to come. Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show. Entered in the NAILE junior and open shows.

BOSC Summer M367 - Full Sister to Lot 7
Sold to Kaytee Reed

One of our most consistent matings of the past few years, Tecumseh x 31H "Dixie" daughters have been no stranger to success and 5082 is more of the same. Already a division winner at the AJSA National Classic and The Ohio State fair, she possesses some of the most intriguing pieces of any sister yet. A high tying neck that works back into a massive sweeping belly and a hind leg that is as comfortable on the go as any, 5082 fits the bill of an elite half-blood show piece. Full sisters include BOSC Summer M367, the \$20,000 valued Champion Percentage Cow Calf Pair at Eastern Regionals, and BOSC Summer M428, who commanded \$10,000 at The One and Only Simmental Sale in Denver. Power in the blood here. **Terms announced on sale day. We would like to possibly entertain showing in the NWSS Denver heifer pen show. Entered in the NAILE junior and open shows.**

We all know of the genetic potency Sandeen Donna 8302 passes on, but 1142 is a lady. Phenotypically she is in a different class and as evidence, like all great ones, she passes that on. Her first progeny are being rolled out and we are elated to say the least. To this point we have used her in conjunction with a handful of bulls and have not yet been disappointed. Just this past winter 2/3 spots of our Pen of 3 at Denver were held down by 1142 daughters, with a Broker daughter also finding Champion Division honors in the junior show. Just months later we sold an open heifer by On The Run at the Ohio Beef Expo where she went on to win her class and have continued success in the ring since. We feel 1142 is a female that is just finding stride and will continue to elevate not only our program but the breed itself, and we are honored to offer the opportunity to tie into some of her best progeny to date.

The headliner of our first bred offering of the \$200,000 Sandeen Donna 1142, 477 who we affectionately call "Dragon" has been a true standout since birth. The anchor of our Denver pen of three and division winner at NWSS, Dragon was quick to draw the attention of many elite cattlemen, receiving admiration as "the best damn heifer in the whole pen show". Stout made and ideal bodied, this Broker daughter not only stacks a lucrative pedigree, but comes with the phenotype of an elite producer. Bred up to FSCI Wingman, and primed for a run at winter majors, get in early on this program altering female. Selling 1/2 embryo interest.

If you liked her full sister 512, you'll want to take a hard look at 514. Another daughter of Dimensional out of the cornerstone Sandeen Donna 1142, this female carries the same feminine, attractive look and proven genetic backing that has made this mating click. Maybe not carrying as much depth as her sister but still offers plenty of quality with a clean front end and balanced build to go home and be productive. Bred to Satisfied, she's carrying a mating we're awfully excited to see hit the ground.

BOSCS Donna L327 - Maternal Sister to Lot 25
Sold in 2025 to Josiah Lapp for \$10,000

Another testament of the generational production of the great Sandeen Donna 8302. 545 was the calf portion of our 2025 Champion Cow-Calf pair at The Ohio State Fair. Moderate, yet stout and capacious in her build, this KCC1 Countertime daughter gets better every day and will be easy to find in the pens come sale day. Bred up early to W/C Red Bird.

Donna Family

Lot 26

Lot 26: Feona F836 has been a proven producer for our program year in and year out, with notable daughters commanding \$14,000 and \$7,500 in years past, however this will be the last year to purchase female progeny from the great Sandeen Donna 8386 daughter as recently passed on. The result of an Executive Order mating that we have looked forward to for years, 495 is a densely made, three dimensional female that reads with all the cow power we expect from the Donna line. Called safe to the great Epic.

Lot 27: Ground floor Donna genetics. Embryos purchased directly from Coleman Angus, and everyone has stuck. Full sibs were purchased by astute cattle breeders, L333 sold 1/2 interest for \$28,000 to Werning Cattle, L343 for \$8,500 to Chad Lucci, and L334 for \$7,500 to Paula Bussard. Highly maternal, absolutely perfect udder and teat structure. 448 can get a little nervous in tight spots. Bred up first time for a New Years Woodford calf.

Sold in 2025 Rare Vintage sale for \$19,000 to Nick Tkaczylk

I hear everybody say there is not a perfect cow in describing a very good bovine that has one or two faults but looks or reads on paper a top tier prospect, so the challenge I give you is to describe M467's fault or faults. Because it can't be her wide pinset or the length of hip on the perfectly proportioned lower third. Not that ultra smooth shoulder with perfect neck attachment. Or the belly swoop. Not the effortless glide she possesses traveling across the pasture. What would make her perfect would be your name on her paper. Full sib last year was our covergirl and brought \$19,000 to Nick in Michigan. Woodford calf will be a banger.

Bridle Bit Recharge K256 - Service Sire of Lot 31

87H was our pick from the Lazy C Diamond Ranch, she goes back to the Geneva x 200 cow, she always brings a stellar prospect to the sale. I feel they always get overlooked. Usually when one is this good on paper, they don't fit together this well. 507 is a massive beast that's highly functional with the proper muscling yet still feminine. Astute cattlemen will find her, like Brad Wiseman who bought an 87H x Fort Knox for \$6,000 or David Studer who purchased a full sib for \$6,250. 507 has five EPD traits in the top 5% and seven in the top 15%. Bred to Bridle Bit Recharge, bull or heifer will provide many dead presidents, find this one!

This massive beast is evidence that Gemstone has all the inheritable traits that we strive to pass on. H045 was a Rare Vintage highlight, bringing a \$40,000 valuation. 469M has the body and mass to make any sire a good choice. She is easy doing with Gemstone's bone work. Bred up to sexed Lynchburg. Very exciting genetics, Donna and Gemstone!

CKCC Ms Profit 9729G - Dam of Lot 33

A little history here starting with Erica's Lutton 54s, our Famous Purebred Angus that helped put us on the map. Flushed her to Dominique which produced donors in many prominent herds, one being FSC2 Bella, purchased by CK cattle where she has produced many herd sires and AI sires AND a Denver Grand Champion bull.

Lindsey and I traveled to South Dakota to view Bella's progeny. I will say it was memorable getting into the car that morning, the dash showed -20 degrees and it soon warmed up to -5 degrees. We purchased a Bella daughter, CKCC Ms Profit 9729 Et. True to form 54s genetics prevail and 9729G always brings a sale feature. A purebred Angus that is producing purebred Simmentals! Big time donor prospect. Power cow. Bred up to Bet On Red for Purple passion.

WEIS All Me 10F - Service Sire of Lot 35

Lots 35 & 36: Twins! The results of an embryo split on a genetic purchase from JS Simmentals, 472 and 473 are twin sisters out of none other than the great WHF Summer 365C. One of the true matriarchs of the Simmental breed, there isn't much the triple crown winning 365C hasn't accomplished, from producing Champions at various majors to some of the most popular AI sires in the country in Woodford and Double Up. Nearly identical in markings and phenotype, each sister stands on a massive foot and possesses all of the rib shape and lower 1/3 that you could ask for. With 472 bred up early to Weis All Me and 473 safe to Satisfied, we'll let you determine which future producer more aptly suits you.

W/C Miss Werning 6026D Family

Lot 37: 6026D has been a real staple around here. Her consistency has been unparalleled. Producing bulls and females that have topped sales across the country including The Ohio Beef Expo to the Werning Cattle Company. We have always strived to produce cattle with good feet, structural integrity that excel in the pasture, and passing on these traits. Matching her with Quantum Leap exceeded our expectations. Take the baldy to the next level. A Woodford calf will set the world on fire!

Lot 38: Lining up these genetics is valuable in itself. As you evaluate these two sisters you will quickly see the consistency 6026D passes on. M459 may be a little more feminine. An exciting Satisfied calf will round out this package.

JWC Free Bird 1415N - Service Sire of Lot 41

We absolutely love these Satisfied cattle. He produces sound, functional cattle. Where feet and legs are sometimes not taken into account, he corrects that. He stamps them with a no holes, easy doing package that excels on paper also win, win. Bred up to the exciting new herd sire Free Bird.

CAJS Sweet Emotion 24Z Family

Lots 42 & 43: The Sweet Emotion lineage has had many highlights across the country, from state fair winners to Denver Champion Bulls and Females. Both of these Foresight's are very feminine, long spined, and choke necked. I tend to lean toward the N546 while Lindsey's pick is the N555. We put a little different spin on these as I have always wanted to try some Maine genetics on Sweet Emotion.

Out of a Chippewa BlackBird Angus cow we purchased and sure glad we did. Shown by Gina with great success. This Payroll son by Bankroll sure can add pounds and still give you the look. That long hip and soft pasterns will promote longevity. A baldy with a sweet disposition. OH! Bred to Satisfied, a ground pounder in the future. Cow-calf pair on a halter with a junior!

Firefly Z227 & Ms Personality B421 Family

Lot 46

Lot 46: One of the younger females in the offering but loaded with quality and genetics. 8302 genetics that have hit that lifetime sales of over 2.5 million. Appreciate this moderate, choke frame for years of advanced genetics going back to Hudon Pines Firefly. When you stack this many generations of reliable genetics, you can't go wrong. Bridle Bit Recharge will only add value.

Lot 47

Lot 47: B421 Ms Personality has brought one to every Rare Vintage sale since inception; that should tell you something. B421 passed this spring but her legacy will continue because good cattle don't go out of style. They tend to be a little bigger framed, outcross genetics that will put the pounds on. A full sib brought \$11,000 to Jason Schultz. A Red Bird calf will make you look smart.

A moderate-framed, densely designed member of the original Ellie tribe, this time a First N Goal. A little older genetics but nevertheless ones that are still making waves, as First N Goal daughters continue to prove themselves to be among the best producers in the breed. Look for this one's Insight calf to turn heads for you in the Angus division.

KR Casino 6243 - Sire of Lots 51 and 52

Lots 51 & 52: A little background on these Angus heifers- I was at Vince Collison's flushing some cows and saw Ellie 939-634, the original Ellie. I begged to buy her and got a big FAT NO! A couple years later Vince called and asked if I wanted to purchase her and I of course did. flushed her to Meyer 734 and sold the heck out of them, going from \$7,500 to \$20,000. That's good money now but that was ringing the bell then. Flushed her to Simmental bulls and used those claves as a percentage pen heifers and won. Finally got smart and flushed her to Saugahatchee and got five, sold two and showed three and stood second, third, and fourth behind Express in Louisville and Denver. Sullivans and Udell's, I presume flushed her at Collison's and made history. These Y3'S exemplify that typical ultra smooth shoulder with proper high neck attachment and excellent extension to provide show ring approval. KR Casino semen is crazy high right now!

Angus Bred Heifers

Lot 53

Lot 53: We purchased C&C Winnie 0217 straight from the Callahan Ranch in Oklahoma, bred her to Hill Valley Reckoning and produced a power cow. These Winnies have a long history of winning National shows. Partner that with a power bull with numbers. Set your sail cause the wind is going to push you in the right direction. Bred up early to PVF Insight, Rock the roll!

Lot 54: To say 418 is easy doing is an understatement. She needs to have a calf to find the real countess. A real-world cow that could survive in any environment. I can tell you when she was younger, she was quite stunning, giraffe necked, wide topped with a cool belly swoop. Bred to sexed Full Deck 118 semen. Combining two Donna's in the sire's bloodlines.

Rarely do we offer up Angus bulls but this boy is neat with a pedigree we love! A majority base of our herd goes back to the late great Erica Lutton 54S. G089 is generating the momentum to fill her shoes. New Heights puts a stamp on all the calves we've had thus far with this 494 bull being no exception. Smooth, clean, attractive with a great disposition. He's one you'll love to look at in your pasture while making very cool calves.

Unlock Genetic Progress

WELCOME to the 9th Annual Rare Vintage Sale at Ferguson Cattle! We look forward to welcoming back past customers and meeting new customers in the coming weeks as sale day fast approaches. The entire crew at Ferguson Cattle has stayed diligent in their approach to putting the customer first and that mentality shows as you look throughout the offering.

Each and every year John & Lindsey sit down to figure out how to make the customer experience a better and this approach to the business has enabled their rapid growth over the last few seasons. This view has moved their program down the direction of selecting only the most dominant donor females to drive their program forward. As you look through the offering you'll note that each of the females being offered are backed by stacked pedigrees tracing back decades of proven donors. This added predictability enables each of you the opportunity to tie into seed stock that are sure to add to your bottom line. One of the big things that not everyone knows is the calm gentle attitude this group presents. The team at Ferguson Cattle is very big on culling for disposition and you won't find any issues when it comes to that regard in this offering.

It's no secret that short cuts don't exist in this industry and success is earned and that's the sort of approach the crew at Ferguson Cattle take towards building their program in the right direction. As you look through this deep and diverse offering you'll find females and herd sires with the phenotype, cow power, and

three dimensional design needed to survive all the trends that may lie ahead in the cattle industry.

As we lead into the coming weeks up until sale day we strongly encourage each of you to make the time to get out to North East Ohio early to look through this impressive cow herd and take the time to study the cow families and the program you are investing into. The entire team at Ferguson Cattle is geared towards placing the right female into the right home to ensure the very best customer experience possible.

Consider this your invitation to join us for the 9th Annual Rare Vintage Sale at Ferguson Cattle. The team knows how to welcome a crowd with first-class hospitality and a family centered atmosphere. If you would like to view the offering early please contact John or Lindsey to schedule a time that works for you. If you need any guidance or have any questions feel free to reach out to any members of the sales staff we are here to make the process as easy and comfortable as possible. We truly appreciate your interest and look forward to earning your business.

Thank you,

Dwyer Cattle

Watch the Sale on CCI.live!

*The best, the fastest and most
comprehensive marketing & bidding tool!*

How to Bid Online...

- **As a buyer**, you DO NOT need to login to watch the sale but you must have a validated account to bid.

To BID ONLINE go to www.CCI.live in your Chrome, Firefox, Safari or other modern browser:

- 1) Click on the sale schedule page.
- 2) Click on the sale of interest.
- 3) Click on Bid Online- Register and then Get Buyer Number

- After you are logged in, you must proceed to the sale page for your auction and click Bid Online - Register, then **"Get Buyer Number."** Some auctions require valid credit card number on file to obtain a buyer number to bid.

- CCI.live will operate with ease on a modern **cellular device, laptop, desktop or tablet.**

- A **current browser** is important and will always make your experience better.

- **For successful bidding you must have good Internet service!** It is very important to be stationary if bidding. If you are driving and bidding, expect to have some service issues. If you are stationary on a good device, with healthy Internet, expect a very successful bidding environment. If you have slow Internet watch the "asking price" on the screen, it is real time, and refresh your browser if you feel like you have some lag.

- **Support line open during all sales. TEXT 405-400-9505** - Please alert the ranch for your hauling preferences.

Embryo implanted on 3/24/26, approx. due date 12/27/26

“Rocket” L332 was the lead-off female in last year’s Rare Vintage Sale. When the boys and I saw her, we knew immediately that she needed to be on our team. After the sale, she went on to the North American International Livestock Expo, where she was a division winner in both the junior and open shows. John and I then decided to offer the first flush on her in Denver—and boy, did that work out for everyone! Her first flush sold for \$10,000 to Nathan Alpers, who ended up with more than 15 embryos. Most recently, Alpers sold two pregnancies by “Rocket” in Dwyer’s Next Generation Foundation Female Sale for \$8,000 and \$7,000, respectively. Talk about a return on investment in just seven months! I wouldn’t sleep on this opportunity. “Rocket” continues to generate everything you could ask for, and these Donna females are a hot commodity. I don’t see that changing anytime soon! Consigned by Brad Wiseman.

Once again we are beyond thrilled to offer the opportunity to tie into some of the most proven and highest generating donors that our program has to offer. This year we are offering the exclusive opportunity to purchase a flush on two out of four of these highly distinguished individuals. While we could go on and on detailing the extensive accolades of each donor, we instead provided a QR code to each respective donor's page on our website that provides the background and accomplishments for each. cont. on next page...

Past 7 flushes averages • 16 RFS IVF embryos

We encourage everybody interested to take advantage of this opportunity to learn more about these remarkable individuals and their impact on our operation. With purchase, we guarantee 6 freezable embryos (grade 1&2) and reserve the right to cap the flush at 10 embryos splitting the remainder. Donors are currently open and ready to flush and must be flushed within three months of purchase unless previously discussed before the sale. We guarantee 2 viable 90 day pregnancies if set by a certified embryologist. To clarify, once one donor is chosen on sale day, that female no longer is an option to choose to flush, rather the remaining three are the only viable options to choose.

MAKE YOUR NEXT GENERATION YOUR BEST GENERATION.

Producers wanting to propel their genetics are using advanced reproductive technologies and IVF.
No one has better, more consistent results than Boviteq.

WHAT OTHERS DON'T TELL YOU

YOU CAN DO BETTER THAN 4-5 EMBRYOS/DONOR
WHEN YOU DON'T STIMULATE DONORS, YOU DON'T
GET THE SAME RESULTS
FRESH AND FROZEN EMBRYOS CAN GIVE SIMILAR RESULTS
YOU'RE ON YOUR OWN IDENTIFYING DONORS & RECIPIENTS

YOUR YOUNGEST ANIMALS CAN BE YOUR MOST
PRODUCTIVE DONORS
THEY DON'T TREAT DONORS/SIRES INDIVIDUALLY
YOU WON'T GET THE RESULT FEEDBACK YOU NEED

BOVITEQ®
GIVES YOU

- The most embryos/donor
- Industry's highest frozen embryo conception rates
- Customized donor/sire solutions
- Experts give timely feedback that matters
- Our latest R&D to give you the best results
- The Semex Team helps you identify donors/recipients, simplifies genomics, and makes sure you raise the right heifers

Junior Incentives

Bring your junior exhibitors with you sale weekend! Every junior, ages 8-18, who has a female purchased in this sale, transferred into their name, will be given a sale credit. One credit per junior.

\$2,000 OR LOWER = \$100 CREDIT

\$2,000 OR HIGHER = \$200 CREDIT

Buckeye
Breeder's Series

Juniors Show to Win Cash!

All of the open heifers in the Rare Vintage sale are eligible for the Buckeye Breeder's Series, which recognizes the top placing Ohio born and raised calves in each breed division at the Clark County Cattle Battle and Ohio Beef Expo. BBS calves may be exhibited at all BEST shows and the Ohio Beef Expo. This is a separate program from the OCA BEST Program, however, BEST participants may earn points alongside their BEST points. BBS Premiums are paid at Ohio Beef Expo.
