Garden Treasures

There's more than meets the eye in the Womanspace gardens! Tucked among the plants, nestled beside pathways, and hanging in unexpected places are little works of art waiting to be discovered.

Take your time, follow your curiosity, and see how many you can find.

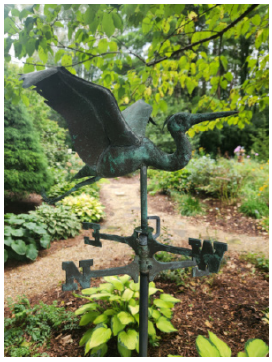

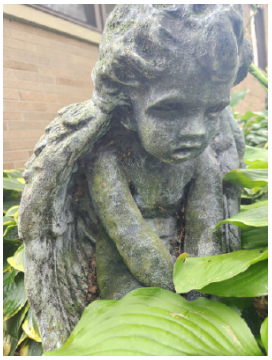

Before you leave...

- Which piece of art was most interesting or inspiring?
- Did you discover something you'd never noticed before?
- What was your favorite part of our grounds?

We hope you had fun!
