

The Municipality of Bethel Park

Permit Procedure for Rain Conductor and Yard Drain Projects

To Include:

New or replacement Rain Conductors or Yard Drains

The following information, where applicable, is required to be submitted when applying for Zoning Permit for Rain Conductor/Yard Drain:

- The permit application filled out in its entirety
 - Specify pipe size and type
- A certified copy of the property survey or an Aerial View
 - Identify any utilities that fall within the project scope (manholes, clean-outs, drains, etc.)
 - Mark location of drainpipe
 - Mark discharge location:
 - Storm sewer
 - Storm sewer facility, such as a catch basin or storm manhole
 - Running streams or watercourses
 - Sump (dry) which has been approved by the Code Official
- Certificate of Insurance, Workers Comp. or Affidavit of exemption

Inspections:

The permit holder will be responsible for scheduling the following inspections when applicable:

- Completion of the installation, prior to backfill

All inspection requests shall be made 24 hrs. prior to the required inspection by calling the Department of Building Inspections between the hours of 8:00am — 4:30pm.

Costs:

- \$50 – Zoning Certificate

All construction, grading and storm water management shall comply with Bethel Park Municipal Ordinance 7-12-93A as-well-as all other applicable codes, laws and regulations.
