Catholic

- Develop an outreach attitude
- Learn to listen well and find another's story
- Reflect on your own faith story and practice sharing it in a way that is relevant to others

This fun, interactive workshop is for all of us beginners who sense we're supposed to share our faith with others but don't quite know how to start. Walk away with real tools to share your experience of Jesus in simple, natural ways. Grow in attentive listening skills, understand the power of personal stories, discover your own story of faith, and practice sharing your story in this relaxed, low-stress environment.
