

Bockrath & Associates History & Resources

Firm History

Headquartered in Ottawa, Ohio, owner and managing partner Gregory A. Bockrath, P.E., P.S. is a graduate of The Ohio State University and currently holds professional registration as an engineer and surveyor in Ohio.

Currently, Bockrath & Associates is providing professional engineering and surveying services throughout Northwest and West Central Ohio. In 2014, Bockrath & Associates acquired Westhoven Surveying based in Napoleon, Ohio, strengthening our presence in Northwest Ohio.

Employing civil engineers, surveyors, technical staff and construction administration staff, Bockrath & Associates has compiled a notable portfolio of successful projects. Our success is a result of developing solid working relationships with our clients and delivering quality products which contribute to our clients' long term success.

Financial Stability

Bockrath & Associates financial stability has been achieved by offering a wide range of services to the residential, commercial, industrial and municipal markets. Our diversity and the investments made in staff, equipment and hardware has allowed us to grow and prosper in even the most difficult economic times.

Resources and Availability

Utilizing a comprehensive range of in-house computer hardware, software and equipment, Bockrath & Associates is well equipped to meet the needs of your project. This technology includes a full range of graphics, design and survey software, such as AutoCAD Civil 3D, OpenRoads Designer, OpenBridge Designer, SiteComp, AASHTOWare BrR, and AutoTurn. In addition to our technical design software, we have a full array of administrative software such as Microsoft Word, Excel, Project, Access, Publisher and Power Point for preparing project work scopes, technical reports, specifications, budgets and schedules.

Our work load will allow our staff to complete your project in a timely and efficient manner.

Work Quality and Cost Control Policies

Our vision is to work closely with our clients, building a solid relationship and working together as a team to successfully meet their goals. In working towards these goals, we intend on understanding our clients' needs, providing innovative and creative solutions, producing excellent work and providing a service which exceeds our clients' expectations.

Experience Statement

Bockrath & Associates has developed experience covering a wide spectrum of services. This past experience, on similar projects, will facilitate in achieving the projects' objectives while meeting the schedule, containing costs and fostering public support. A list of these projects and detailed project information has been provided in a table later in this statement of qualifications.

Civil Engineering

Our Project Managers, Engineer and Technicians work seamlessly and utilize current technologies to complete projects. Our team continually stays abreast of overall project goals and strives to provide economical and practical solutions to your engineering needs. Our civil engineering capabilities include:

- ◆ Roadway Design
- ◆ Bridge Design
- ◆ Bridge Inspection
- ◆ Bridge Load Rating Analysis
- ◆ Streetscape/Enhancement Planning/Design
- ◆ Commercial Development Planning/Design
- ◆ Industrial Development Planning/Design
- ◆ Railroad Design
- ◆ Residential Subdivision Planning/Design
- ◆ Storm Sewer Design & Analysis
- ◆ Storm Water Pollution Prevention Design
- ◆ Sanitary Sewer Design & Analysis
- ◆ Water Main Design & Analysis
- ◆ Reinforced Concrete Design
- ◆ Structural Steel Design
- ◆ Traffic Studies
- ◆ Rural Sanitary Sewerage Septic Design (Commercial & Industrial)
- ◆ Bike Path Design
- ◆ Wind Turbine Foundation Design
- ◆ Ohio Environmental Protection Agency Air & Industrial Stormwater Permitting.

Experience Statement

Grant Procurement & Administration

Bockrath & Associates has worked with many past clients with writing and securing grants from the Ohio Dept. of Development, Ohio Public Works Commission, the Ohio Department of Natural Resources and the Ohio Department of Transportation. We have written and successfully obtained grants for the following clients:

- ◆ Village of Kalida, Ohio
 - ◆ Ohio Department of Transportation Enhancement Project
 - ◆ Ohio Department of Development
 - ◆ Community Development Block Grant
- ◆ Village of Ottawa, Ohio
 - ◆ Ohio Department of Development
 - ◆ Community Development Block Grant
 - ◆ Ohio Public Works Commission
- ◆ Putnam County Commissioners
 - ◆ Community Development Block Grant
 - ◆ Ohio Public Works Commission
 - ◆ Building Demolition & Site Revitalization Grant
- ◆ Village of Pandora, Ohio
 - ◆ Ohio Public Works Commission
 - ◆ Community Development Block Grant
 - ◆ Water and Wastewater Infrastructure Grant

Construction Management

Bockrath & Associates offers construction management services to assist our clients with construction projects from pre-construction meetings through processing pay applications.

Construction Inspection

Bockrath & Associates offers construction inspection services utilizing our engineers and inspectors. Our staff which are available for inspections include engineers, a former Ohio Department of Transportation Construction Manager & a former Construction Inspector, as well as technicians with 20+ years of experience in the industry.

Engineering and Surveying, LLC

Experience Statement

Land Survey

Bockrath & Associates offers quality professional surveying services. Our team of Professional Surveyors and supporting staff of survey chiefs and technicians utilize state of the art surveying and CAD equipment providing a quality and accurate level of service to you. Our professional

surveying services include:

- ◆ Topographic Surveys
- ◆ Boundary/Lot Surveys
- ◆ ALTA/ASCM Land Title Surveys
- ◆ Construction Staking Layout
- ◆ Right-of-Way Surveying
- ◆ As-Built/Quality Assurance Surveys

Engineering and Surveying, LLC

Personnel

Gregory Bockrath, P.E., P.S. **Project Manager/Chief Engineer**

Gregory Bockrath is the founder and owner of Bockrath & Associates Engineering and Surveying, LLC and possesses almost 22 years of project management, civil engineering including bridge engineering, surveying and inspection experience. Mr. Bockrath's experience qualifies him to ensure Bockrath & Associates performance meets your expectations and is compliant with all applicable local, state and federal requirements.

As lead design engineer/surveyor and project manager of over 30 roadway reconstruction projects for various communities in Northwest Ohio, Greg has managed all aspects of the project inclusive of Preliminary Design, Grant and Funding strategies, Final Design, Bidding, Construction Management, and Inspection. Additionally, Greg's has experience in Bridge / Culvert - Hydraulic, Structural, & Geometric Design & Modeling, Digital Terrain Model Generation & Adjustment, Plan design, production, and management of various ODOT & county government Roadway, Bridge, Culvert, Right-of-Way, & Utility Projects

Mr. Bockrath always takes personal pride in the quality of service his firm provides. While serving as the project manager and chief engineer for your projects, he will be personally responsible for assuring the project garners the attention, quality of work and level of service you and your project needs.

Mr. Bockrath's "common sense" approach to identifying, addressing and resolving project issues makes sure nothing is left to "slip through the cracks". Mr. Bockrath also has a great deal of experience in facilitating and presenting at public meetings and village/city councils/commissions.

Charles Schroeder, P.E., P.S.

Charles Schroeder brings to Bockrath & Associates 30+ years of experience working as a Transportation Engineer at the Ohio Department of Transportation. Mr. Schroeder's experience includes project management & administration and inspection of construction projects. These responsibilities include leading progress meetings, assuring materials are from approved suppliers/sources, reviewing force account submittals, writing change orders, supervising (14) employees and performing general HR functions for the construction team.

Working as a project engineer on your project Mr. Schroeder experience brings a unique perspective as to the overall constructability of your project. Identifying and working to resolve potential problems which could be encountered prior to your project moving into construction.

Seth Schroeder, P.E., P.S.

Seth Schroeder has over 11 years practical experience as a project engineer in construction and design. Mr. Schroeder began with the Ohio Department of Transportation where he worked as an Assistant Project Engineer and Project Engineer on various reconstruction, safety improvement, paving and culvert replacement projects. Mr. Schroeder has since expanded his experience from Project Engineer to Project Surveyor with Bockrath and Associates. He has been overseeing an array of surveys including boundary location, detailed topographic surveys to be used for plan preparation, and easement and legal description preparation.

Brice Little, P.S. (Kentucky) **Survey Department Manager**

Brice Little has 20+ years of experience as a surveyor both in the public sector (Wood County, Ohio) and private sector. Mr. Little's expertise includes boundary surveys, section corner restoration, construction and topographic surveys in Ohio and surrounding states. Mr. Little's extensive research on ODOT Right-of-Way projects, courthouse research, digital leveling and off-shore surveying (in support of the petroleum industry) makes him a key asset on every project he works on.

James Kersh **Survey Crew Chief**

James Kersh brings 20+ years of surveying experience to your project. Utilizing current technologies and his vast experience to efficiently and accurately provide survey information for your project.

Cody Horstman
Survey Design Technician

Cody brings experience from the Ohio Department of Transportation as an Intern in project inspection concrete testing, surveying and is proficient in AutoCAD and SiteComp software.

Troy Recker

Troy Recker's many years with the Putnam County Engineer's Office brings experience in all aspects of construction management including construction planning, development and inspection as well as estimating, bid and contract document preparation, property records research, surveying, roadway and bridge design plans and specifications, mapping equipment, cost calculations and drainage calculations. In addition, grant writing, advertising and reporting.

Kathryn Bartlett, EIT

Katey has over a year of experience in areas of site grading, water line and sanitary sewer design, water tower design, and has created numerous surface models for contractors to use during construction. She is proficient with Auto CAD, Site Comp and Microstation.

Personnel Resumés

Gregory Bockrath, P.E., P.S.
Project Manager/Chief Engineer

Licensure & Education:

- Licensed Professional Engineer, State of Ohio
- Licensed Professional Surveyor, State Of Ohio
- Land Surveying Certificate – Cincinnati State Technical & Community College – Cincinnati, Ohio – 2001
- Bachelor of Science in Civil Engineering – The Ohio State University – Columbus, Ohio – 1999

Work History and Select Project Experience:

Bockrath & Associates Engineering and Surveying, LLC – Owner & Manager - August 2002 - Present

- Village of Kalida Broad Street Reconstruction / Streetscape
- Village of Ottawa State Route 65 / Williamstown Road Intersection Widening / New Turn Lanes
- Unverferth Manufacturing US Route 224 Widening / New Turn Lane.
- Various New Residential / Commercial / Industrial Development Design projects in Putnam, Hancock, Henry, Defiance, Allen, Van Wert, Paulding, Wood, Wyandot, Auglaize, Hardin, Williams and Lucas Counties including, roadway/site layout design / planning, comprehensive stormwater design, sanitary sewer design including lift station design and waterline distribution design and planning including Ohio EPA permitting.
- Village of Kalida—15+ Road Reconstruction Projects consisting of widening and converting to curb and gutter.
- Village of Ottawa—10+ Road Reconstruction Projects consisting of widening and converting to curb and gutter.
- Four Weathering Steel Pedestrian Bridges - Kalida, Ohio
- Potter Road Widening / Reconstruction & Widening Henry Township, Wood County
- ALL-Beaverdam Lighting - Design of new decorative street lighting along Main Street of Beaverdam, OH
- Hancock & Putnam County Flood Mitigation Projects
- Putnam Parkway Commercial Development—Ottawa Ohio

Palmer Engineering, Middletown, OH – Project Engineer - June 1999 to August, 2002

- BUT-C.R. 209-4.31 - Bridge replacement over Dry Fork with reconstruction of approach roadway.
- MIA-75-6.23 - Bridge replacement of twin structures on I-75 over Stanley Rench Ditch.
- ATB-20-12.14 - Bridge deck replacement of S.R. 20 over Norfolk Southern Railroad.
- MIA-C.R. 133-1.53 - Bridge replacement over I-75 with reconstruction of approach roadway

Personnel Resumés

Charles Schroeder, P.E., P.S.

Licensure & Education:

- Licensed Professional Engineer, State of Ohio
- Licensed Professional Surveyor, State Of Ohio
- CPESC Certification # 8165 obtain May of 2015
- Bachelor of Science in Civil Engineering – The Ohio State University – Columbus, Ohio – 1983

Work History and Select Project Experience:

Bockrath & Associates Engineering and Surveying, LLC, April 2014 – Present

- *LPA Project for Putnam County Old StR12 over Ottawa River*
Served as project manager for the administration , construction inspection and documentation, for the replacement and construction of a new 3 span bridge over the Ottawa River .
Construction Budget: \$1.17 MM Construction Season: 2015
- *LPA Project for Putnam County CR 19 over Blanchard River*
Served as project manager for the administration, construction , inspection and documentation, for the replacement and construction of a new 3 span Bridge over the Blanchard River.
Construction Budget: \$ 1.66 MM Construction Season: 2019
- *Flood Mitigation Project: Diversion Channel for Ottawa, Ohio*
Served as project manager for the administration, construction inspection and documentation, for the construction of a 4,000 foot long diversion channel with an inlet structure to bypass an oxbow in the Blanchard River as part of 2 phase flood mitigation project. Construction Budget: \$ 3.45 MM, Construction Season: 2020
- *Multiple Pedestrian Bridges with an elevated walk path.*
Served as project manager for the administration, construction inspection and documentation, for the construction of 2 pedestrian bridges joined by a elevated walk path as part of master nature walk path for the Village of Kalida. Construction Budget: \$ 0.75 MM, Construction Season: 20201
- *Developed and Designed Multiple Storm Water Pollution Prevention Plans*
Developed numerous SW3P plans for various construction projects and performed numerous SW3P inspections.

Ohio Department of Transportation, District 1 – Transportation Engineer III - 1984-March 2014

- *New Highway Construction - Northwest Ohio*
Served as project manager for the construction and completion of a brand new 12.5 mile long 4-lane highway built from the Indiana-Ohio border to U.S. 127
Construction Budget: \$70MM | Duration of project: 3 years spanning April of 2007 to March of 2009
- *New Highway Construction—Northwest Ohio*
Served as project manager for the construction and completion of a brand new 10.5 mile long 4-lane highway built from U.S. 127 to Defiance Ohio | Construction Budget: \$70MM | Duration of project: 3 years spanning April of 2007 to March of 2009
