Subject: RE: [EXT] FW: "Regarding the candidacy for the position of Director-General of WHO

Dear Ms Guðjónsdóttir,

Sorry for the late reply - your comments and suggestions below are well noted.

I agree that the strive for curative approaches to certain neurological conditions deserves increased intention and investment, I would like to reassure you of my attention to this issue.

The lead responsibility for such specialized expertise rests with our headquarters, and I will keep this in mind in my interactions.

Thank you for your continued advocacy and best regards,

Hans Kluge
