INTRODUCING ABC FLEX

The Future of Flexible Lineslip Solutions

We're thrilled to unveil ABC FLEX, the dynamic new sister lineslip to the flagship ABC program — engineered specifically to support part orders following a U.S. Warranty Company. This is more than an extension of the ABC platform; it's a powerful new way to unlock opportunities, streamline placements, and deliver even greater value to your clients.

What Makes ABC FLEX Exceptional

- **Aligned & Ready** — Fully in sync with the main ABC master program, ensuring seamless integration and consistent underwriting appetite.
- **Warranty Company Wordings** — All placements follow the Warranty Company's own forms for clarity and continuity.
- **Efficient Claims Handling** — Claims are managed directly by the Warranty Company under the protocols of a NACHA (North American Claims Handling Agreement) ensuring speed and efficiency.
- **Leader-Driven Pricing** — ABC leaders will quote for the ABC participation. Their 40% share binds at their quoted terms, with the remaining 60% placed at just a 5% differential.

Strong Market Support — With New Partners Onboard

We're delighted to confirm that **most of the existing Master Lineslip security panel** has committed to ABC FLEX. Even better, we're excited to welcome **Everest** and **elseco** as new markets joining the ABC platform. This expanded market strength means broader capacity, deeper expertise, and more confidence for your clients.

Unlock New Possibilities for Your Clients

We strongly encourage you to explore the advantages ABC FLEX brings to your placements. Whether you're looking to enhance flexibility, expand options, or deliver tailored solutions, ABC FLEX is built to help you do more.

ABC FLEX IS LIVE

Start Using it Today

**ABC FLEX is officially
live and ready
for immediate use.**
