December 15, 2020

Dear Parents or Guardians:

Earlier this school year, to accommodate families during the stress and difficulties experienced during the COVID-19 virus, your child received a second chance to maintain full time virtual learning status.

Currently, our school records indicate that your child is still having difficulty completing his/her assignments using Monarch Academy's Live Streaming or Paper Packet Option learning system.

Regretfully, considering your child's continued difficulties, Monarch Academy will be removing him/her from the eLearning platform. We believe that the best alternative for your child is to return to in class learning at the facility.

Failure to accept this option is considered non-compliant with the State of Florida Compulsory Education Statues, thus having your child withdrawn from Monarch Academy.

Please contact the office immediately to discuss his/her education and which options works best for your family.

Respectfully,

Sincerely,

Valerie Bourbour

Principal
