Granite Memorials

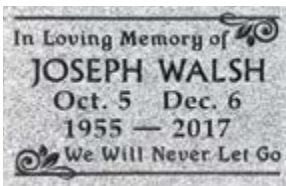

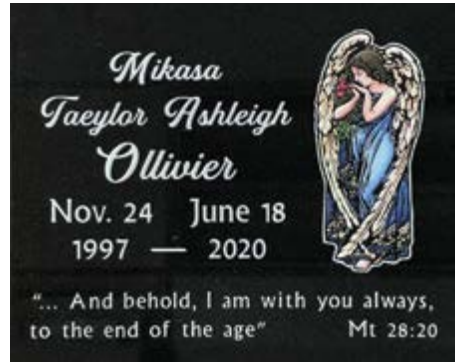

Selecting a memorial is a very emotional experience for some, especially with all the undertaking that comes with a loved one's passing. Our designers are highly skilled and knowledgeable at producing memorials that capture the personal essence of your loved one.

Cremation Niche Plates

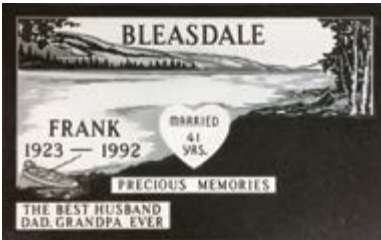

Cremation Niche Plates for use in a Columbarium can be very personalized to provide a meaningful way to celebrate and remember your loved one.

Marker Restoration

Cleaning, repainting and inscription. Surrey Monuments offers maintenance and refurbishing of markers. We understand that removing a marker is a delicate process for our customers. Our staff is highly trained in handling and transporting existing grave markers.

Before & After Photos

While proper maintenance will go a long way towards preserving memorials or headstones, deterioration can still occur. Natural forces such as wind, rain, floods, earthquakes, and sadly acts of vandalism can cause breakage that will require extensive work to restore your loved-ones memorial.

Upright Monuments

An advantage of an upright monument is that it can be significantly larger than one flush with grass. Choosing an upright monument will allow your family to create any style desired. The tablet and base of an upright monument can be customized with various, shapes, colours, and textures.
