

# SYSTEMS ELEVATE AVERAGES

Every role plays a part in building routines that run  
See how your position connects to the system

*From PLCs to classrooms: align people, actions, and timing so every student gets the right support.*

## District Leader

*Executive Directors, Assistant Superintendents*

- **Strategic Visibility**  
See weekly progress across schools without waiting for monthly reports. Identify which buildings need support before gaps widen.
- **Resource Allocation**  
Deploy coaches and interventions where data shows highest need. Track ROI on initiatives in real time.
- **System Consistency**  
Ensure all schools run the same core routines. Reduce variance between buildings while honoring local context.

## Principal

*Building Leaders, Assistant Principals*

- **Leadership Cadence**  
Weekly visibility on student growth; guide targeted moves without micromanaging. Know which teams need your attention.
- **Teacher Support**  
See which teachers are hitting cycles consistently and who needs coaching. Celebrate wins, address drift early.
- **Progress Monitoring**  
Track attendance, behavior, and academics in one view. Spot patterns across classrooms before they become crises.

## Instructional Coach

*PLCs Facilitators, Content Specialists*

- **PLC Cycles**  
Paste/upload data; platform routes to the right instructional routine and small-group plan. No more starting from scratch.
- **Intervention Playbooks**  
Grade-level standards baked in; teams execute the same reliable move set. Codify what works.
- **Coaching Documentation**  
Log coaching moves, track teacher implementation, see growth over time. Evidence for every conversation.

## Teacher / Team Lead

*Classroom Teachers, Grade-Level Leads*

- **Small-Group Planning**  
Get data-driven groupings and targeted lesson moves. Spend less time planning, more time teaching.
- **Progress Loops**  
Quick wins logged, gaps flagged, next steps assigned—momentum stays visible. See your impact weekly.
- **Collaboration**  
Share what's working with your team. Access shared playbooks and routines that compound over time.

## THE CONNECTING THREAD

Every role feeds the same system: data flows up, support flows down, students feel the difference.

## SEE IT IN ACTION

Take a test drive: run one weekly cycle with your team's data.  
Watch how roles connect and routines lock in.
