What to Expect at Newton Neuro

NEWTON NEURO
Brain & Behavioral Health

When you visit Newton Neuro, the goal is to learn more about how your brain works: what comes easily for you, and what might be more challenging. The clinicians use various activities to help determine this, such as problem-solving tasks, memory games, and puzzles. It's not a test you can pass or fail. It's just a way to better understand how you think and learn.

NEWTON NEURO
Brain & Behavioral Health

When you pull into the parking lot, you'll see the building and then walk into the main lobby.

NEWTON NEURO
Brain & Behavioral Health

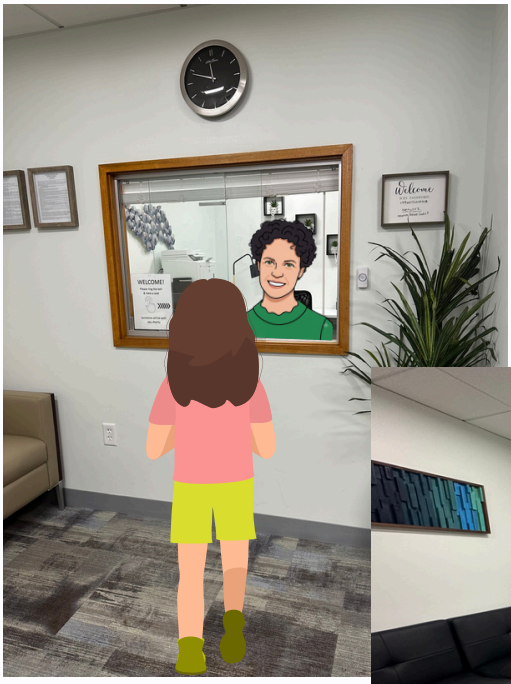

Once inside, you'll walk down a hallway to the office.

NEWTON NEURO
Brain & Behavioral Health

When you get there, you'll check in and might wait for a few minutes in the waiting room. A staff member will come get you when they're ready.

NEWTON NEURO
Brain & Behavioral Health

Everyone is very friendly and there to help you have a positive experience.

NEWTON NEURO
Brain & Behavioral Health

You'll head to a room with a clinician. You might spend a few hours engaging in various activities. Some might feel like games, and some might feel more like schoolwork. These activities help the clinician learn more about you and how you learn.

NEWTON NEURO
Brain & Behavioral Health

You'll get plenty of breaks! You can bring your own snacks or choose from what they have there. If you're there during lunch, you'll also get a lunch break. You can use the bathroom or get water whenever you need.
