

Year 3 Curriculum

Summer Term

Geography – Our planet

This term, we will be looking in detail at maps of the world and using key vocabulary to describe the lines of the earth. We will also be looking at coasts, finding out about erosion and land use. Finally, we will be finding out about climate change and the impact of this on our planet.

Art and Design

During this summer term, we will be focusing on art deco. We are going to study the style art deco and then using this, create our own printing blocks to make a final print.

Our Planet

Maths

Using White Rose Maths, we will be focusing on:
Mass and capacity, fractions, money, time, shape and statistics.

PE – Athletics, Cricket and tag rugby.

We will be focusing on athletics and cricket in our PE lessons. We are also fortunate enough to have the Saints coaches to teach us tag rugby.

Jigsaw RHE – Relationships, Changing Me

We will be finding out about different types of relationship, including being a global citizen. Finally, we will be addressing different changes that can happen to a person at different stages of their life.

Music – Kapow music –

–Jazz
–Traditional instruments and improvisation (theme India)

English

We will continue using talk for writing in English. We will be looking at a few texts, which include a rags to riches tale (Cinderella) and a recount (Jungle Jog). As well as this, we will also be focusing on poetry. We will be learning about onomatopoeia rhyming (the sound collector) and syllables in poetry (Haiku poetry).

History

As our main focus will be Geography this term, we will be briefly finding out about the history of climate change, thinking about how life was life in the past and the impact this has had on our planet.

Science

- Finish learning about light
- Plants
- Forces and magnets

RE

- Why do Jews learn about Passover? What special things do they do? (experience and behaviour)
- How do beliefs and ideas about land shape the way human beings live (respecting places and the world).
