

Year 3 Homework Menu

	Prime	Advancing	Deep
Writing	Create a poster showing ways that we can limit the damage to our planet.	Write a short story about a character who changes their ways to protect the planet.	Write a speech about why we need to protect our planet. Think about persuasive words to use to get your point across.
Reading	Draw and label the setting of a story that you are reading.	Write 5-10 retrieval questions about a story of your choice.	Choose a challenging book. Identify 10 words that you are unfamiliar with and find the definitions.
Maths	Weigh some objects around your house. What is the heaviest and the lightest?	Find out the lengths of five rivers around the world. Can you order them from shortest to longest?	Create a poster showing a younger person how to tell the time. Use both analogue and digital times.
Doodle maths	Stay in the green zone for 10 days	Stay in the green zone for 20 days	Stay in the green zone for 30 days
Science	<u>Forces and magnets</u> Find out which objects in your house are magnetic.	<u>Light</u> Draw and label a diagram to show how a person can see an object (reflection)	<u>Plants</u> Sow some seeds in a pot and make some observations about what happens.
PE/ healthy lifestyle	Walk, bike or scooter to school for a week (park down the road if you drive).	Draw your dinner and label the different food groups and their purpose.	Practice skipping with a rope for 5 minutes every day for a week.
Theme	Produce a piece of work relating to the topic – Our Planet. You can present this work any way you like e.g. a model, PowerPoint presentation, fact cards, drama or a board game.		

Homework expectations: 6 pieces of homework are expected to be completed by the end of Summer term. As the pupils learn more about our topic in class, this will help provide more ideas for the 'Theme' and 'Create/Design' homework.
