

The Stitchin' Rag

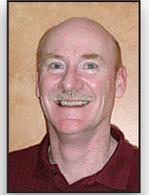

Machine Store Buzz 2nd Quarter 2026

By Jeff Vogel

I have been at it again. The newest gadget we developed is a LASER light guide that attaches to the front of your sewing machine that gives you a red line to follow as you sew. This is ideal for half square triangles and stitch in the ditch or following a plaid. It can be adjusted to shine to the left or right of the needle and be removed very easily. I collaborated with a local 3D printer

and we combined our ideas to come up with a very functional tool. The laser light guide will slide on the Bernina machines and attach with a magnet to most all other brands. Watch your emails for the release date.

Hi Fashion's Quilters Quarter Inch...

By Trista Pike

Hello sewing friends! This year, a recurring theme has been nurturing our future sewists. Jeff continues to accept donated machines, ensures they are in good working order, and gifts them to children 16 and under who show an interest in sewing. In that spirit, we have added a special "Thread it!" session to our classes—a dedicated hour to answer any questions about your machine. If you can bring it in, we'll do our best to help you and keep you sewing. Class welcomes all ages. Color therapy... Many of us say that fabric shopping is our own form of color therapy. While chromotherapy

has a rich history across cultures and eras, what does it mean to me? Being creative with colors is our opportunity to escape from any troubles that may be on our minds and create something beautiful. As a quilter, the added bonus is focusing on following a pattern one instruction at a time. I am now in the present moment, when often my mind wanders to other times and places. What a gift, to be here right now. We love show and tell, so thank you all for the inspiration in all your colors! Happy Sewing All.

TECH CORNER

By Jeff Vogel

It's time to adjust the rates we charge for machine service. Last time was in 2020 so it has been 6 years.

The increase is about 5% that will take effect on May 1st, so if you get your machine in before then you can save some money. Samples are very important to bring with your machine when it is acting up. Also keep it threaded and include your bobbin and bobbin case and foot control. All these clues will help diagnose your sewing issues and avoid having to bring it back in for the "same problem" because it worked for the technician.

Keep on Sewing,
Jeff

My Bernina 1 & 2

Ruler Quilting a Panel

RQP

Amanda Murphy created some quilting ruler design printed panels that work like connecting the dots. Very easy and fun to do. If you haven't used your rulers in awhile this could be a great time to get them out and give it a go. Good Measure rulers are faster moving that most brands because of the size and nature of stitching on the outside of the ruler. Some quilting experience is helpful.
