

EAA / AirVenture process

During every AirVenture, we begin a "List" of returning guests and new guests for the next event.

We contact all current guests and give them the chance to return to their current site.

In October, we confirm the returning guest's intention.

By the end of October, we have a pretty good idea of how many open sites / new guests that we will have for the next year's Convention.

Then the process of filling those open sites begins.

Our sites are not uniform in size and we try to match unit sizes from the wait list to the open sites.

We do everything we can to satisfy as many guests as possible.

Deposits of 1/2 of total are due in November with no exceptions.

Balances are due July 1st, 2026
