

Aging Reimagined: Creating Communities for All Generations

September 16, 2025
9:30 am - 2:30 pm

Cambridge Public Library - Great Northern Room
111 Dellwood Street N
Cambridge, MN 55008

As we age, we are reshaping what it means to live fully in our communities. However, outdated ageist narratives persist, maintaining outdated policies and practices. Research from the National Center to Reframe Aging shows that expanding public understanding of aging can improve societal attitudes, value people at all ages, and support systems change.

Facilitator: Rajean Moone, PhD

Training Objectives:

- Understand the impact of ageism on individuals and communities.
- Learn about age-friendly initiatives that promote inclusivity.
- Explore strategies for reframing aging and eliminating ageism.

All are Welcome.

This free event includes lunch with registration by September 8
