AS TECHNOLOGY EVOLVES, SO DO WE

From inception, we have since kept pace with the rapid technological developments. Our unique team of talented technicians are uniquely qualified to deliver you the very best in Home Cinema, Home Control and Multi-Room Audio Systems.

TAILORED SOLUTIONS

Whether your project is a brand new build, a refurbishment or an upgrade to existing equipment, we are fully committed to turning your ideas into reality. Our partnerships with a range of established and innovative companies allow us meet a wide range of needs and budgets.

DESIGNED AROUND YOU

We begin by fully understanding your requirements and then work with you to deliver a bespoke solution for your home. Be it Multi-Room Systems, Home Cinemas or Home Automation, we source only the best Audio and Visual equipment to match your grand design.

BUILT ON TRUST

We have built our reputation on delivering a high quality service and always aim to exceed our clients' expectations. It's why so many of our customers recommend and retain us for overseas projects as well as domestic. You can trust us to deliver comfort, convenience and security management to your world - and always at the touch of a button.

OUR EXPERIENCE STUDIO

WHAT WE DO

SMART HOME

A Smart Home puts more capabilities, features, and benefits at your fingertips. With touch screen, keypad, voice, and app access, you can create a smart home that's uniquely yours.

HOME CINEMA

Experience the magic of home cinema. Watch a movie in a truly immersive and magical experience, just the way the director intended.

SHADE CONTROL

Our automated shades can follow the direction of the sun and open and close automatically when needed.

AUDIO SYSTEM

A multi-room audio system integrates seamlessly into your home, allowing you to access and stream millions of songs in high-resolution to one room or every room.

Listen to your favourite playlist in the lounge while the kids listen to theirs in the snug,

NETWORK & WIFI

Our high-performance networks are designed to be fast, reliable, and customisable so that every inch of your home receives a strong and consistent signal capable of handling even the most sophisticated types of network traffic, such as audio and video data and home automation systems.

SECURITY

Keep your home and the important things in it, safe and secure at all times. An automated smart home provides access to security cameras, controls your security system and even simulates occupancy.

High-Resolution MULTI-ROOM AUDIO

Listen here, listen there

Every member of your family can listen to and control the tunes they want, from wherever they are in the home. Play the same playlist throughout the entire house or let family members choose their own music in their own rooms, using their own smartphones or tablets. Even manage the volume and start, stop, or skip music, quickly and easily with a single press on a configurable keypad.

Discover the difference

Anyone with an affinity for music will appreciate the premium clarity and immersiveness of Triad multi-room audio. High-resolution audio comes standard on every new system, so you can indulge in the greatest of sound just as the artist intended.

Press a button to access your favorite playlist with just one touch.

HOME CINEMA

Home Cinema

The Emotional Experience

Home Cinemas offer the Ultimate entertainment at home to enjoy with your family and friends.

THE PINNACLE OF ENTERTAINMENT IN YOUR OWN HOME

Home Cinemas add the glitz and glamour of a traditional theatre in the comfort of your own home.

A dedicated cinema is a room like no other space, with different dynamics and considerations and its own unique interior than the rest of your house.

You can really have fun at the concept stage where we carry out full design and 3D Images of the cinema, with lighting plans that will show you exactly how this room will look and function.

TURN-KEY CONSTRUCTION

If you are building a new property or remodelling a room, we will work alongside your building team to design and install all of the electronics required.

We construct the room with our bespoke specialist room acoustic treatments. Acoustic wall treatments, fabrics and furniture all play a huge part in creating the perfect design, lighting, video projection and immersive sound quality.

With our years of experience, we will guide and advise you through the whole process.

WHAT OUR CLIENTS SAY

“The CPD team (Chris, Goncalo, Carlos, etc.) are incredibly professional. They installed a Control4 Home Automation system, a Home Cinema, and an outdoor audio system in my villa, and created a recording room. Whatever they did met or even exceeded expectations. A great advantage is to understand what you can have in your home by simply going to their showroom, or through some magnificent renderings. One of the few serious companies in a sea of companies that promise and don't keep their promises!”

LUDO

“Great company in Algarve. Been their fan since I bought a house in Portugal. They initially set up all the music system. Since then I have worked with them to do a complete rehaul of our the house to become a Smart Home using Control 4 for lighting, shading and Security, and upgraded the music system with brand new speakers and integrated the audio visual experience with Control4. Throughout the project, I have had a very smooth experience. Chris has kept within budget he quoted, and above all delivered a service which was exemplary. He continues to help with any user problems, and sends his people over whenever we request them. All in all 5 star service.”

KRISHNA RAO

“CPD installed a state of the art cinema in our home in the Algarve, having very successfully installed a fully interactive sound system throughout the house. They succeeded in every stage of the process by being transparent, objective, friendly, helpful and professional. Starting with arriving at the "right" specification for our needs, by not pushing the most expensive solution all the way through building the installation and commissioning the cinema on time and without any nasty surprises. Their after sales service has been remarkable as well. They have a unique ability to simplify complex decisions and choices. I have immense confidence in their CEO and his staff and would highly recommend consulting them for any sound or video equipment.”

EDV PILGRIM

“CPD were one of five AV companies selected to tender for a cinema room in a new super-villa. Their price was the lowest, they were the most comprehensive, having in-house fitters to install the room infrastructure of padded walls, inset speakers, plush carpets and leather reclining cinema chairs etc. The technical equipment was great quality even though modestly priced, and the final experience (including Dolby Atmos) is sensational. From start to finish CPD were contactable (very rare in Portugal), responsible, and efficient. This is the only AV firm I could recommend in the Algarve, they really are the best value for money and the most efficient creator of cinema rooms.”
