Have a question about a product, part, or accessory?

Phone: 717-354-5691

Give us a call or stop in and visit our service counter during business hours, Mon.-Fri. 7:00am to 5:00pm and Sat. 7am to 11:30am.

Closed Saturdays in May, June and July

NOLTS PROPANE CONNECTIONS, LLC With thanks to God and all the honor and glory to our King, Nolt's Propane Connections has been a family-owned business for the last 59 years. In 1965 Grandpa John Z. Nolt saw the need for propane hookup fittings and started selling parts (to the neighbors and friends) from the tobacco shed. He later started filling propane cylinders. The second generation John H. Nolt and Sons took it to the next level and started offering products to the general Public. Today, the third generation is now in charge of daily operations along with the fourth generation helping out.

New Holland, PA

We have a team of friendly and knowledgeable guys. If you have a minor propane question or hookup need, get your answer and parts at the sales counter. We have many years of combined experience.

Thanking **GOD**
for over **61 Years**
of Propane Safety

"Since 1965"

Propane tanks are the main part of what we do. We educate you on the type and size of tank that is the most practical to fit your needs. We are equipped to install all sizes of propane tanks. Get a free estimate before you start. Please note that we do not deliver propane or fuels. We also repair most propane and natural gas systems. Diesel and gasoline tanks are also sold, and Highland skid tanks are very popular in the 300, 500 and 1,000 gallon sizes.

Nolt's Propane, LLC is located at 676 North Shirk Road, New Holland. If you have any concerns regarding propane tanks, hookup fitting or parts, please call 717-354-5691. You may also email us or fax 717-354-5693. Hours are Monday through Friday, 7:00 a.m. to 5:00 p.m. Saturday, 7:00 a.m. to 11:00 a.m., closed on Sunday.

Ordering Methods

Mail: Nolts Propane Connections, LLC
676 N Shirk Road
New Holland, PA 17557

Phone: 717-354-5691
Email: info@noltspc.com
Fax: 717-354-5693

Store Hours:

Mon.-Fri. 7am-5pm
Sat. 7-11:00am
Closed Saturdays: May, June, July

Mail: Nolts Premier Connections, LLC
2912 320th St.
Orchard, IA 50460

Phone: 641-942-4800
Email: sales@noltspc.com

Store Hours:

Mon. Tue. Thu. Fri. 7:30am-5pm
Sat 7:30-11:00am
Closed Wed. & Sun.

Payment: Cash, Check or Credit card.

- Items over \$500. Add 2% credit card fee.
- 6% PA Sales tax will be added unless exempt or out of state. (If out of state you are required to pay your own state use tax)
- As a resident of a given state, it is your responsibility to report your purchases and pay your own use tax for the purchases you have made from another state. If you do not accurately report your purchases and the taxes owed, you will have to pay penalties.

Shipping: We ship with local delivery services, UPS and USPS. Most items (that can be shipped with UPS) are shipped same day if ordered by 1 pm.

Terms: All offers, terms, prices, etc are subject to change without notice, based on market conditions and/or availability. We are not responsible for misprints in this catalog.

Your Satisfaction: If you receive merchandise that is damaged or defective, please let us know right away, so that we can make it right with you. If you are not satisfied with your purchase, or want to return an item, please let us know within 30 days.

Returns: Product must be returned in its original condition within 30 days and will be subject Up to 15% restocking fee.

Our Values: Commitment to Excellence - Humility - Innovation - Integrity - Stewardship

Anode Bag (for replacement)

Item#	Description	Price
511337	17lb Anode	\$150.00
511381	9lb Anode	\$130.00

Riser and Lid

Item#	Description	Price
02-338	Green Composite (Tall Riser) 24" Tall + 3" Top	\$239.00
02-339	Green Composite 20" x 24" Lid Only	\$116.50

What Causes Underground Tanks to Corrode?

In a word... soil. When soil meets the steel of an underground tank an electrochemical reaction occurs. This reaction is DC current flowing between the tank and the soil. When the current is flowing from the tank to the soil corrosion occurs. When the current flows in the opposite direction, from the soil to the tank, corrosion doesn't take place.

How To Avoid Underground Tank Corrosion?

There are two ways to protect the steel of an underground tank from corroding. The first way is through an external coating using an epoxy powder paint. This paint will protect over 99% of the tank. The second way to protect the steel of an underground tank is cathodic protection. Both of these methods should be used as a combined shield against corrosion because no coat of paint is perfect. Paint can be damaged by construction, or soil can create tiny defects in the paint.

How Does Cathodic Protection Work?

Easy. By creating a galvanic connection between two different metals. Ok, let's explain that. A galvanic connection is when there is an actual electrical contact with the ground. This is done by connecting an anode bag to the underground tank. Anode Bags are usually made of magnesium because magnesium has a really low electrode potential. In other words, magnesium is a metal that will corrode before most other metals, and because it will corrode faster than steel it will create a DC current that will flow away from the underground tank which as we learned in the first paragraph is the direction we want the current to flow to keep the underground tank from corroding.

Fill Check (Underground Tank)

Item#	Description	Price
ME574EXT	Mec 1-3/4" Male Acme x 1-3/4" Female Acme w/Vent in Brass Underground Tank Fill Check	\$179.00

Underground Propane Tank Installation

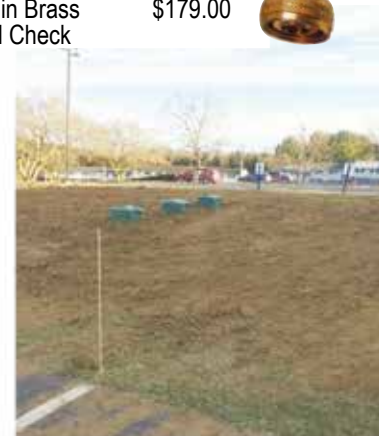

See pages 65-69 for Underground Propane placement guides.

Place 6" of sand on bottom of hole.

Backfill tanks ensuring 6" of sand around tanks.

Completed installation of 3 = 1,000 gal. Underground Propane Tank

Rego Relief Valve

Item#	Description	Price
7583GT	Rego 3/4" relief valve for 120 - 325 gallon ASME tank	\$85.80
8684G	Rego 1" relief valve for 500 gallon ASME tank	\$96.90
8685G	Rego 1-1/4" relief valve for 1000 gallon ASME tank	\$100.20

Rego Relief Valve (ASME & Motor Fuel)

Item#	Description	Price
8544GT	1" relief valve for ASME & motor fuel tanks 250 psi	\$40.00
8544T	1" relief valve for ASME & motor fuel tanks 312 psi	\$40.00

Rain Cap (Relief Valve)

Item#	Description	Price
8684-40	rain cap for 500 gal ag relief valve	\$6.50
7585-40X	rain cap, for Rego 1-1/4" relief valve (1000 gallon)	\$10.10
7583-40X	rain cap, for (120-325AG relief valve)	\$5.25

Rego Tank Valve (No Bleeder or Relief)

Item#	Description	Price
9101R10	Rego tank valve NO BLEEDER - NO RELIEF 3/4" mnpt, inlet x fpol outlet	\$42.00

Rego Service Valve Repair Kit

Item#	Description	Price
19104-50	Rego service valve repair kit w/ dual (replaceable under pressure) bonnet	\$40.50

Rego Chek-Lock Valve

Item#	Description	Price
7590U	Rego 3/4" new style chek-lock valve	\$57.60
7591U	Rego 1-1/4" Liquid with draw chek-lock valve	\$91.70

3/4" Rego Tank Valve (Multi-Service ASME)

Item#	Description	Price
7556R12.0	Rego 3/4" Multi service valve w/vapor return & bleeder for ASME tanks	\$132.00

1" Rego Tank Valve (Multi-Service ASME)

Item#	Description	Price
6542R12.0	Rego 1" Multi service valve, 250 psi relief, vapor & 12" bleeder for 420lb ASME tanks	\$219.25

Rego 1-1/4" Quick-Fill Valve rebuild Kit

Item#	Description	Price
L7579-517	Rego 1-1/4" Quick-fill valve rebuild kit, w/ nylon seal, for new style low emission model	\$25.80

Rego Vapor Valve Stem Repair Kit

Item#	Description	Price
903-51	Rego vapor valve stem repair kit	\$14.30

Rego Service Valve Stem Repair Kit

Item#	Description	Price
19100-50B3	Rego service valve stem repair kit	\$35.60

ACME Quick Fill Cap

Item#	Description	Price
511555	1 -3/4" ACME Quick Fill Yellow Plastic Cap	\$4.65

Rego Filler Valve

Item#	Description	Price
L7579	Rego 1-1/4" Filler valve	\$70.60

B Swivel - Fill Valve Adapter 1-3/4 Acme

Item#	Description	Price
3179	2nd Chance filler adapter. The one the bobtail truckers leave on the 1-1/4" Acme if the tank does not stop off entirely.	\$55.00

Rego 3/4" Multi-Valve

Item#	Description	Price
8555D	11.6 Rego 3/4" multi-valve, 100lb, vapor service, (replaceable pressurized stem seal)	\$108.45

1" Screw-in Float Gauge

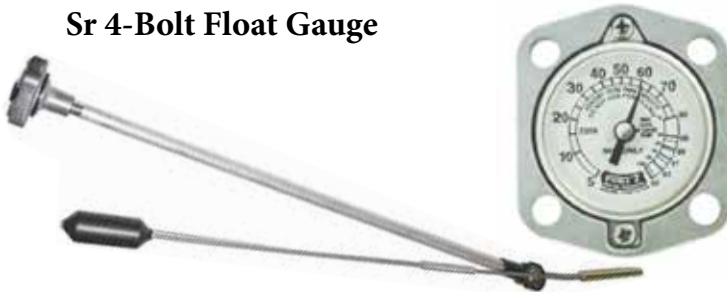

Item#	Description	Price
HA254J	120 Gallon Vertical - 2" Hex Head	\$81.00
HA130A	120 Gallon Horizontal	\$92.25
HA160A	250-325 Gallon Horizontal	\$65.00
HA194A	500 Gallon	\$62.00
HA210A	1000 Gallon	\$57.00
HA224A	1000 Gallon (for 45" tanks) (Metsa)	\$78.00

1-1/4" Screw-In Float Gauge

Item#	Description	Price
TA130A	120 Gallon Horizontal	\$58.00
TA160A	250-325 Gallon Horizontal	\$49.50
TA194A	500 Gallon	\$71.00
TA210A	1000 Gallon	\$70.00

Sr 4-Bolt Float Gauge

Item#	Description	Price
SA194A	500 Gallon	\$85.00
SA214A	41" dia. Float Gauge 1000 gal.	\$88.00

Snap-On Gauge Dial

Item#	Description	Price
5-1951	420 lb. Vertical Tank Jr. Snap-on Gauge Dial	\$14.70
5-004353	Senior Float Gauge Replacement Dial for 420lb Vertical Cyl.	\$15.00
5909S02772	Dial for vertical 420lb tank Jr w/ 2 screws remote ready	\$16.00
2700C	Taylor dial for underground tanks only Jr./Sr.	\$12.00
2701C	Taylor dial for horiz. aboveground tank only Jr./Sr.	\$12.00

Bolt (Hex Socket Head)

Item#	Description	Price
SCC14X1S	1/4" x 1" SS Bolt (3/6 hex) Jr. Gauge	\$1.00
SCC516X1S	5/16" x 1" SS Bolt (1/4 hex) Sr. Gauge	\$1.25

Jr 4-Bolt Float Gauge

Item#	Description	Price
JA250J	120 Gallon Vertical	\$62.00
JA1541	250-325 Gallon	\$61.00
JA192J	500 Gallon	\$65.00
JA206I	1000 Gallon	\$64.00

Float Gauge for Quality Steel Underground

Item#	Description	Price
JB302AP	120 Gallon Vertical	\$89.00
JB332AP	250-325 Gallon	\$89.00
JB370GP	500 Gallon	\$89.00
JB382BP-1	1000 Gallon	\$89.00

Gauge Dial

Item#	Description	Price
5-01749	Dial for Horiz. Ag Tank Jr. w/ (2) Screws Remote Ready	\$12.00
5-01813	Dial for UG tank Jr. w/ (2) Screws Remote Ready	\$13.00

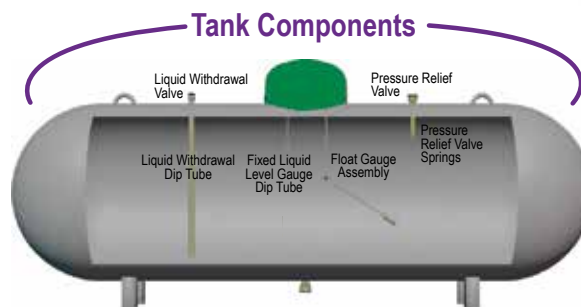

Senior Float Gauge

Item#	Description	Price
3181-01749	Jr. Universal Gauge Dial Kit	\$18.95
5-00001	Senior Float Gauge Replacement Dial	\$36.35

Replacement Gasket

Item#	Description	Price
501630	Jr. Gauge Replacement Gasket	\$2.20
501631	O-ring for Sr. Gauge	\$2.50

Copper Pigtail 20" Pigtail for Propane Tank to 1" Stage Regulator

Item#	Description	Price
912JS20	1/4" mpt x P.O.L. 20" pigtail	\$10.75

Copper Pigtail 20"

Item#	Description	Price
912PS20	P.O.L x P.O.L 20" pigtail	\$10.75

Copper Pigtail 48"

Use to connect (2) gal. propane tanks.

Item#	Description	Price
912PS48	P.O.L x P.O.L 48" pigtail	\$22.50

Tee Block

Use to connect (2) gal. propane tanks.

Item#	Description	Price
1701B	P.O.L Tee Block	\$22.00

REGO Regulators

Rego 1st Stage Regulator (Tank PSI Inlet - 10 PSI Outlet)

Item#	Description	Price
LV3403TR	1.5 mil. btu cap - 1/4" fnpt inlet x 1/2" fnpt outlet red compact non-adjustable	\$54.00

Rego 1st Stage Regulator Red FPOL Inlet (Tank PSI Inlet - 10 PSI Outlet)

Item#	Description	Price
LV4403TR9	fpol inlet x 1/2" outlet 2.5 mil btu vent over outlet	\$78.00
LV4403TR96	fpol inlet x 3/4" outlet 2.5 mil btu vent over outlet	\$78.00

Rego Compact Brown 2-Stage Regulator (Tank PSI Inlet - 1/2 PSI Outlet)

Item#	Description	Price
LV404B39	450,000 btu capacity FPOL inlet x 1/2" fnpt outlet	\$72.00
LV404B34	450,000 btu capacity 1/4" fnpt inlet x 1/2" fnpt outlet	\$72.00

Rego Brown 2-Stage Regulator (Tank PSI Inlet - 1/2 PSI Outlet)

Item#	Description	Price
LV404B46	525,000 btu capacity 1/4" fnpt inlet x 3/4" fnpt outlet	\$99.00
LV404B96	525,000 btu capacity FPOL inlet x 3/4" fnpt outlet	\$111.00

Rego Compact Blue 2-Stage Regulator (2 PSI)(Tank PSI Inlet - 2 PSI Outlet)

Item#	Description	Price
LV404Y39	450,000 btu cap. FPOL inlet x 1/2" fnpt outlet	\$79.00
LV404Y9	P.O.L. inlet x 1/2" outlet 800,000 btu cap.	\$99.00

Rego 2nd Stage Regulator (2 PSI) Blue (10 PSI Inlet - 2 PSI Outlet)

Item#	Description	Price
LV4403Y4	1/2" inlet x 1/2" outlet 1.0 mil. btu vent over inlet	\$79.00
LV5503Y6	3/4" inlet x 3/4" outlet 2.2 mil. btu	\$125.00
LV5503Y8	3/4" inlet x 1" outlet 2.2 mil. btu	\$125.00

Rego 2nd Stage (Top Outlet Brown Regulator) (10 PSI Inlet - 1/2" Outlet)

Item#	Description	Price
LV4403B4	1/2" inlet x 1/2" w/935,000 btu capacity	\$76.00
LV4403B46	1/2" inlet x 3/4" w/935,000 btu capacity	\$76.00
LV4403B66	3/4" inlet x 3/4" w/935,000 btu capacity	\$76.00

Rego 2nd Stage Regulator — High BTU Usage (10 PSI Inlet - 1/2 PSI Outlet)

Item#	Description	Price
LV5503B6	3/4" bottom inlet & 3/4" top outlet 1.6 mil. btu	\$100.00
LV5503B8	3/4" inlet x 1" outlet 2.3 mil. btu vent over inlet	\$100.00

Rego 2nd Stage (Rear Outlet Brown Regulator) (10 PSI Inlet - 1/2" PSI Outlet)

Item#	Description	Price
LV4403B46R	1/2" inlet x 3/4" w/935,000 btu capacity	\$76.00
LV4403B66R	3/4" inlet x 3/4" w/935,000 btu capacity	\$76.00

2nd Stage Right Side Outlet w/Bracket Regulator (10 PSI Inlet - 1/2 PSI Outlet)

Item#	Description	Price
LV4403B66RAB	3/4" inlet x 3/4" w/935,000 btu capacity	\$84.00

Rego 2nd Stage (2 PSI) Blue Regulator (10 PSI Inlet - 2 PSI Outlet)

Item#	Description	Price
LV4403Y46R	1/2" x 3/4" rear outlet w/ 1 mil. btu capacity	\$79.00

Regulator Bracket

Item#	Description	Price
3552335	Aluminum Regulator Bracket	\$6.05

Large Regulator Cover

Item#	Description	Price
H200P	Large Regulator Cover 12" h x 8" w x 6" d	\$21.20

Maxitrol Regulator - Compact 3rd Stage Regulator w/ Vent Limiter - (2 psi Inlet, 1/2 psi (11 we) Outlet) Must Face upward.

Item#	Description	Price
325-3	3/8" fpt inlet x outlet pressure, 235,000 BTU	\$53.10
325-3L-1/2	1/2" fpt inlet x outlet pressure, 235,000 BTU	\$55.00
325-5L-3/4	3/4" fpt inlet x outlet pressure, 550,000 BTU	\$103.00
325-5L-1	1" fpt inlet x outlet pressure, 600,000 BTU	\$105.00
325-7L	1 1/4" fpt inlet x outlet pressure, 1,250,000 BTU	\$335.00
325-9L	1-1/2" fpt inlet x outlet pressure, 3,600,000 BTU	\$598.00

Nat gas Maxitrols also in stock. Call for Pricing.

Maxitrol Regulators Cap for Outdoor Use w/ Vent Limiter

Item#	Description	Price
Maxicap-3R	fits 325-3L-1/2 Maxitrol regulators	\$8.50
Maxicap-5R	13A15-5 Vent protector for Maxitrol 5L series 3/8" mpt \$28.50 Maxicap-5R fits 325-5L Maxitrol regulators	\$11.25
Maxicap-7R, Cover, 51/2"	51/2" fits 325-7 & 210D Maxitrol regulators	\$12.65

Norgas 3rd Stage Compact Regulator w/ Vent Limiter

(Factory set 7-11" wc,
per code mount in
upright position.)

Item#	Description	Price
N5A12 1/2"	358,000 btu Natural Gas @ 7" WC or 540,000 btu Propane @ 10" WC	\$30.00
N5B34 3/4"	982,000 btu Natural Gas @ 7" WC or 1,595,000 btu Propane @ 10" WC	\$60.00

Norgas Vent Protector

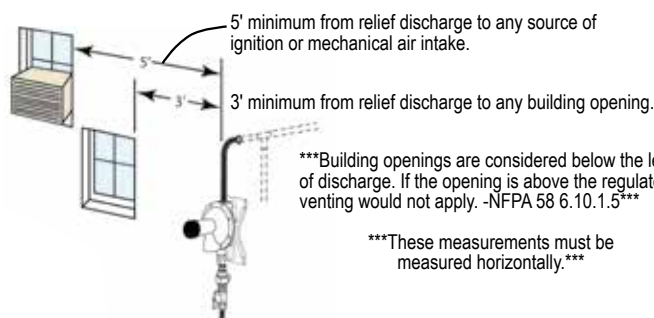

Norgas Regulators
are less expensive and
carry more btu's than
Maxitrol regulators!

- 1) Vent caps should be installed if regulator is used outside.
- 2) Elbows can be used if the regulator gets mounted in a vertical position.

Vent Protector for Maxitrol

Item#	Description	Price
13A15	Vent protector for Maxitrol 3L series 1/8" mpt	\$23.70
13A15-5	Vent protector for Maxitrol 5L series 3/8" mpt	\$32.75
13A25-5	Vent protector for Maxitrol 7AL series	\$99.65

Adjustable Liquid - Tight Non-Metallic Connection (For Venting Regulator)

49-10-6	5/8" flare x 3/8" mpt	\$2.80
49-10-8	5/8" flare x 1/2" mpt	\$4.25
49-10-12	5/8" flare x 3/4" mpt	\$5.95

**Flare 90° Elbow
Reducing**

Item#	Description	Price
55-8-6	1/2" x 3/8"	\$3.65
55-10-8	5/8" x 1/2"	\$3.00

Flare 90° Elbow

Item#	Description	Price
55-6	3/8" flare elbow	\$2.95
55-8	1/2" flare elbow	\$3.15
55-10	5/8" flare elbow	\$6.20

Flare Brass Plug

Item#	Description	Price
57-6	3/8" flare brass plug	\$1.30
57-8	1/2" flare brass plug	\$1.85
57-10	5/8" flare brass plug	\$2.75

Flare Cross

Item#	Description	Price
C1E	3/8" flare cross	\$4.60
C1F	1/2" flare cross	\$8.20

POL x Flare Adapter

Item#	Description	Price
200538	POL x 3/8" flare adapter	\$5.85
200512	POL x 1/2" flare adapter	\$5.85
BG20I	POL x 5/8" flare adapter	\$8.00

Flare Brass Cap

Item#	Description	Price
37-4	1/4" flare brass cap	\$1.00
37-6	3/8" flare brass cap	\$2.00
37-8	1/2" flare brass cap	\$2.00
37-10	5/8" flare brass cap	\$2.00

**Reducing
Flare
Nut**

Item#	Description	Price
38-10-8	5/8" x 1/2"	\$4.20
38-8-6	1/2" x 3/8"	\$2.95

**Reducing
Swivel
Nut Union**

Item#	Description	Price
39-8-6	1/2" f x 3/8"	\$5.00
39-10-8	1/2" f x 5/8"	\$5.00

**Swivel Nut
Union**

Item#	Description	Price
39-4	1/4" swivel nut union	\$2.00
39-6	3/8" swivel nut union	\$3.30
39-8	1/2" swivel nut union	\$4.30
39-10	5/8" swivel nut union	\$5.80

**Brass
Flare
Splice**

Item#	Description	Price
42-6-4	1/4" x 3/8" flare splice	\$1.25
42-8-6	3/8" x 1/2" flare splice	\$2.35
42-10-6	3/8" x 5/8" flare splice	\$3.35
42-10-8	1/2" x 5/8" flare splice	\$3.55

MPT x Flare Dielectric Union w/ Blue Handle Valve

Item#	Description	Price
303409	1/2" mpt x 1/2" flare	\$26.00
101-704DU	3/4" mpt x 5/8" flare	\$40.30

FPT Blue Handle Dielectric Union Hi-Pressure Ball Valve

Item#	Description	Price
283068	1/2" fpt ball valve	\$24.90
303412	3/4" fpt ball valve	\$41.00

FPT x MPT Dielectric Union w/ Blue Handle

Item#	Description	Price
101-803	1/2" fpt x 1/2" mpt ball handle dielectric union	\$27.50
101-804	3/4" fpt x 3/4" mpt ball handle dielectric union	\$52.00

Flare Valve Red Handle Low Pressure

Item#	Description	Price
30-6	3/8" flare valve	\$10.10
30-8	1/2" flare valve	\$12.40
30-10	5/8" flare valve	\$21.00

Flare Blue Handle Hi-Pressure Ball Valve

Item#	Description	Price
303404	3/8" flare x 3/8"	\$18.90
101-601	3/8" flare x 1/2"	\$16.70
303405	1/2" flare x 1/2"	\$17.00
101-604	5/8" flare x 5/8"	\$28.70

Flare x FTP Blue Handle Hi-Pressure Ball Valve

Item#	Description	Price
2464848	3/8" flare x 1/2" fpt	\$22.00
2464849	1/2" flare x 1/2" fpt	\$22.00

Flare x MTP Blue Handle Hi-Pressure Ball Valve

Item#	Description	Price
2464850	3/8" flare x 1/2"	\$22.30
101-703	1/2" flare x 1/2"	\$25.20

Flare x FPT Red Handle Ball Valve Low Pressure

Item#	Description	Price
492011	3/8" x 1/2" fpt	\$10.70
492012	1/2" x 1/2" fpt	\$10.85

Flare x MPT Red Handle Ball Valve Low Pressure

Item#	Description	Price
V20038	3/8" flare x 1/2" mpt	\$18.30
V20012	1/2" flare x 1/2" mpt	\$18.60

FTP x FTP Gas Valve Red Handle Low Pressure

Item#	Description	Price
492008	1/2" FPT x FPT	\$6.30
492009	3/4" FPT x FPT	\$9.40

FPT Blue Handle Hi Pressure Ball Valve

Item#	Description	Price
303406	3/8" FPT	\$19.00
303407	1/2" FPT	\$14.25
303408	3/4" FPT	\$23.60

Pipe Ball Valve Hi Pressure

Item#	Description	Price
251504	1/4" pipe ball valve	\$6.80
251506	3/8" pipe ball valve	\$7.20
251508	1/2" pipe ball valve	\$8.20
251513	3/4" pipe ball valve	\$15.40
251922	1" pipe ball valve	\$24.00
251516	1-1/4" pipe ball valve	\$36.50
251925	2" pipe ball valve	\$60.00
251518	1-1/2" pipe ball valve	\$55.00

Pipe Ball Valve Apollo Hi Pressure

Item#	Description	Price
80-101	1/4" pipe ball valve	\$50.10
80-102	3/8" pipe ball valve	\$49.60
80-103	1/2" pipe ball valve	\$49.60
80-104	3/4" pipe ball valve	\$73.65
80-105	1" pipe ball valve	\$85.50
80-106	1-1/4" pipe ball valve	\$98.00
80-107	1-1/2" pipe ball valve	\$115.00

Brass Pipe Nipple

Item#	Description	Price
112-8	1/8" x close	\$2.25
113-2-24	1/8" x 1-1/2"	\$1.00
113-2-32	1/8" x 2"	\$1.25
113-2-48	1/8" x 3"	\$1.70

1/4" Brass Pipe Nipple

Item#	Description	Price
112-4	1/4" x close	\$1.00
113-4-24	1/4" x 1-1/2"	\$2.00
113-4-32	1/4" x 2"	\$2.45

Empire LP Direct-Vent Room Heater

- Thermostat not included
- Slim, compact cabinet mounts on an outside wall.
- Quiet operation
- Matchless piezo ignition (heats without electricity)
- Optional automatic blower
- Ideal for bedrooms or studies
- Made in USA

Clean and cost-efficient comfort make the DV210 and DV215 the perfect heaters to warm your smaller rooms. The slim, compact design allows the heater to tuck out of the way on an outside wall. Quiet burners, matchless piezo ignition, and all the safety features you expect from Empire Comfort Systems come standard.

Optional automatic blowers install easily for more even heat distribution. Ideal for bedrooms or studies, wall furnaces add comfort and beauty to any decor.

Item#	Description	Price
DV-899	(fits DV-25 & DV-35)	\$21.00

Empire Electrode

Item#	Description	Price
DV772-G	Empire electrode & 20" wire	\$13.05

Vent Cap

Item#	Description	Price
DV-769	(fits DV-25 & DV-35)	\$82.00
TH-334	(fits DV 210 & DV 215)	\$65.00

Heat larger areas with Empire's DV25 and DV35 Direct-Vent wall furnaces. Delivers room-filling warmth; fits against an outside wall. A push of the button ignites the pilot with a matchless piezo system. Add an optional internal blower for even greater air circulation.

Williams (Vented) Room Console Heaters

Williams (Vented) Room Console Heaters deliver maximum efficiency, low fuel consumption and quiet operation. Enjoy instant warmth with this universal heating system. Enclosed front and glass front fireplace-look models available. 20,000, 35,000, 50,000 and 65,000 BTU/hr. sizes.

Design Features:

- No electricity required
- "Matchless" pilot igniter
- Burners engineered for quiet ignition and maximum heat efficiency
- Louvered-top design and front grille for improved heat circulation
- Factory-installed ceramic fiber logs (fireplace models)
- Natural and propane models closed front (Contact us about natural gas models in stock.)
- Automatic temperature and safety controls
- Resettable vent-limit switch
- Thermostat sold separately
- Optional automatic blower available (except 20,000 BTUs)

Empire Vented Heaters

RH-25 RH-35 RH-50C

RH-50B RH-65B

- Includes thermostat Empire vented heaters
- Heats without electricity
- Optional blower on RH25, RH35
- Matchless Piezo Ignition
- Made in USA

Maximum air flow and heating are the strong points of the RH25 and RH35 Console Vented Room Heaters. Delivering warmth to your medium-size rooms, each unit is designed for style and efficiency. Add the optional Internal blower for added circulation. Quiet burners, a vent safety switch, "matchless" Piezo ignition, and all the safety features you expect from Empire Comfort Systems® are standard equipment. Plus, for total reliability, these room heaters include a hydraulic thermostat (needing no electricity to operate). Ideal for medium to large rooms, each unit can be installed anywhere there is access to a vent. They're housed in a durable powder-coated/textured beige cabinet, these room heaters look as good as they work.

Log Kit for RH-50B and RH-65B

Heater Troubleshooting Tips

Before calling for troubleshooting support, here are a few easy & simple things to check

#1 What color is your flame?

- All **blue** is the IDEAL FLAME.
- **Yellow/Orange** TIPS are signs of a LACK OF OXYGEN
- PILOT & MAIN BURNER FLAMES should be all **blue**.
- BLUE FLAME is hotter than a yellow flame.

ODS Pilot

Pilot Does Not Stay Lit

Step 1:

- 1) Almost always there is dirt or dust in the pilot burner
- 2) To properly clean it; first make sure the gas is turned off and the heater cooled down.
- 3) With the unit off, remove a panel or get access to the pilot burner with an air blow gun, you really need a flexible spout on your air blow gun (sold in this catalog - page 20) to get to where it really counts. You can also use a small soft bristled brush or blow through a drinking straw if compressed air is not available. **Do not use a pin or sharp object to clean out the orifice!**

Do not remove any gas line. Blow air in reverse through the pilot with an air blow gun. In other words, blow air in where the pilot flame usually comes out and also on the pilot burner about 2" from the tip down on the side. You will see a hole where oxygen enters, blow in there, in other words you are cleaning the pilot burner tube (venturi). Fact is you need a proper mixture of gas & oxygen to create a blue flame. Countless times people think they have a bad thermocouple while the only problem is dust in the pilot burner.

Step 2:

- 1) If you have a blue flame and pilot is still not staying on.
- 2) Clean off any carbon that may have built up on thermocouple.
- 3) Make sure the pilot flame is hitting the thermocouple, at least 1/4" or 3/8" of tip is in the flame.

Step 3:

If you have a blue flame and a clean thermocouple tip and its still not staying on, it's time to replace the thermocouple. Thermocouples are like batteries, they may last 3-6 years depending how much it gets used. There are many different ones on the market, so be sure to provide us the name and model number of the heater. Other options are sending us the old thermocouple, laying it on flat bed scanner/fax machine (with a white piece of fabric on top to block light) and fax a copy, or email a picture.

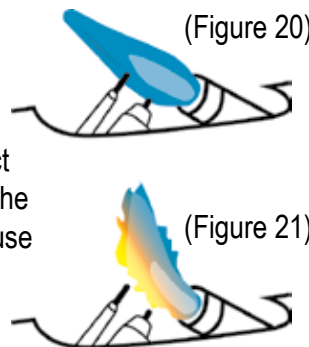

Step 4:

Most unvented wall heaters and fireplaces are equipped with an ODS (oxygen depletion sensor), it is a safety that will shut off the heater and pilot if the oxygen gets too low in the room. Try opening some doors or windows to see if the problem of the heater going out continues. If the ODS is the reason for shutdown, you may have too big a heater in a too small or too tight a room.

Step 5:

While you are using the air blow gun clean the main burner as well. Blow air in and alongside where the orifice feeds the burner, when doing this you may see a cloud of dust lift off the burner. Also, blow air across burner to remove all air borne dust and to remove all lint, pet hair, or any foreign material out of the entire unit.

(Figure 20) shows correct pilot flame pattern. (Figure 21) shows incorrect pilot flame pattern. The incorrect pilot flame is not touching the thermocouple. This will cause the thermocouple to cool, which shuts the heater off.

WARNING: If yellow tipping occurs, your heater could produce increased levels of carbon monoxide.

PLEASE NOTE: In high traffic areas or dusty locations, it's recommended to air-clean before each heating season.

Modine Hot Dawg

Note: Pricing is a guide only. Always call for current pricing.

Power-Vented Gas-Fired Unit Heater

The ideal heating solution for residential garages and workshops, along with light commercial or industrial applications. With versatile installation options, the Hot Dawg® garage heater frees up more workspace by getting rid of space heaters Modine Hot Dawg that clutter up the area. The quiet operation allows your space to be warm without the distraction of a loud machine running in the background. All models can run on propane or natural gas, depending on your needs. Certified for residential, commercial, and industrial use.

LB White Heater Direct-Fired Design

- Minimum Input: 50,000
- Maximum Input: 100,000
- Heater Configuration: hot surface ignition
- Max Fuel Consumption: 4.6 lbs. per hour
- Power Cord: 5' (standard)
- High-Temperature Protection
- Highly efficient (99.9%), direct-fired design
- Cabinet Material: steel with tri-shield coating
- Dimensions: 29.5" L x 14.3" w x 18" h
- Net Weight: 65 lbs.

LB White Heater Direct-Fired Design

- Hot Surface Ignition
- Minimum Input: 160,000
- Maximum Input: 250,000
- Highly efficient (99.9%), direct-fired design
- Manually adjustable variable rate valve (50% to 100%)
- Galvanized finish
- Indoor/outdoor installation
- Reliable, Low Maintenance Design
- Sediment trap
- Plug Connection
- Electrician Installation required to meet local codes
- For use in Poultry, Swine houses and barns

Portable Construction Heater

Reflective radiant heat with the warmth of the sun. That is the MR Heater Portable Radiant Heater in a nutshell. This Radiant 125,000 BTU Portable Liquid Propane Heater requires no electricity and provides 360 degrees of heat, all while operating much quieter than forced air heaters of the same size. With factory installed features, like a tip-over safety switch and a thermoelectric safety valve, the only thing you need to make this heater the most useful tool you own is a 100lb propane tank. Just hook the tank up to the supplied 10ft hose and regulator, then enjoy the quiet warmth of the MH125LP.

- 125,000 BTU per hour
- For use with propane gas
- Heats up to 3,125 sq. ft.
- No electricity required
- 10 ft hose with regulator
- Operates on 100 lb. or larger cylinders
- Quiet and odorless
- Clean burning
- Safety shut-off

Item#	BTUs	Description	Price
MH125LP	125,000	portable construction heater	\$299.00

LB White - Workman Construction Heater

The Workman™ standard-duty portable convection heaters feature adjustable output control to save fuel, and a unique top design for superior heat distribution. Ideal for environments where electrical power is not readily available, the L.B. White's Workman™ 225 Plus delivers highly efficient 225,000 BTU of 360° heat without the need for electricity. With a proven design, reliable piezo pilot light ignition and easy component access, the Workman™ 225 plus is easy to operate and maintain. Supplied with gas regulator and hose. Manufactured in the U.S.A.

What is an Anode Rod?

Positively charged electrode by which the electrons leave a device. The negatively charged electrode of a device supplying current such as a primary cell.

An anode rod is a rod that is in a storage tank style water heater. The anode rod serves a critical purpose for your water heater; it helps to keep it from rusting prematurely. Many anode rods are created with magnesium, or a similar material that is designed to be eaten by the water before other components of your water heater are destroyed, like the elements and the steel tank. The anode rod delivers electrons into the water that helps to create an environment that prevents corrosion.

How Long Does an Anode Rod Last? Anode rods can last several years in most water heaters, but that isn't always the case. There are a lot of factors in play when it comes to the condition and lifespan of an anode rod, and the biggest factor is the quality of the water. The more minerals and hardness in the water the quicker your anode rod will die and the shorter lifespan you will have with your water heater.

Anode Rod

Silicon Nitride Upgrade Kit

Item#	Description	Price
21D64-2	White Rodgers - 120V Silicon Nitride Upgrade Kit for Conversion of silicon carbide (flat or spiral)	\$45.00

Hot Surface Ignitor

Item#	Description	Price
41-401	Polaris WH Part # 100093631)	\$26.00

Manual Gas Control Valve (Commonly used on portable burners.)

Item#	Description	Price
764-742	1/2" White Rodgers 100% Safety Shut-Off (Nat. = 124,000 BTU or LP = 150,000 BTU)	\$167.00

Oven Thermostat FDTH

Item#	Description	Price
4200-503	1/2" Pipe 650F Hi Temp Used On Pretzel Oven	\$345.00
4200-007	550° 150°-550°	\$379.00
5300-401	400° Fryer 200°-500°	\$179.00

On-Off Pilot Knob Replacement

Item#	Description	Price
1751-012	(Beige Dial) Fits 700 Series Gas Controls	\$6.00

Robertshaw Regulator Conversion Plate

Item#	Description	Price
1751-007	Robertshaw Regulator Conversion Plate: For Use With 700 & 710 Series Robertshaw Gas Valves	\$14.00

Aluminum Tubing

Used for Pilot Burners

Item#	Description	Price / per ft.
18AL	1/8" aluminum tubing	\$1.00
316AL	3/16" aluminum tubing	\$1.35
14AL	1/4" aluminum tubing	\$2.30

Threaded Thermopile

Used on some very old valves.

Item#	Description	Price
1951-536	36" Threaded Thermopile 750 MV	\$64.00

Quick Drop Out Thermocouple

Item#	Description	Price
1960-027	27" Quick Drop Out Thermocouple	\$20.00

Pilot Burner (1-1/2" Total Wing Span)

Item#	Description	Price
1830-489	3-Way	\$39.00

Pilot Burner (3-Way)

Item#	Description	Price
1830-491	3-Way	\$32.00

Pilot Burner (25° Left)

Item#	Description	Price
1830-501	25° Left	\$49.00

Pilot Burner (Standard)

Item#	Description	Price
1830-502	Standard	\$49.00

Pilot Burner (25°-Left)

Item#	Description	Price
1830-004	25° Left	\$47.00

Tri Flame Pilot Burner (3-Way)

Item#	Description	Price
1830-005	3-Way	\$49.00

Pilot Burner (25° Left)

Item#	Description	Price
1830-111	25° Left	\$46.00

Pilot Burner (25° Right)

Item#	Description	Price
1830-112	25° Right	\$46.00

Pilot Burner (Standard)

Item#	Description	Price
1830-113	Standard	\$51.00

Pilot Burner (Standard)

Item#	Description	Price
1830-115	Standard	\$31.00

Pilot Burner (3-Way)

Item#	Description	Price
1820-029	3-Way	\$40.00

Pilot Burner (90°) (Fits Modine)

Item#	Description	Price
1830-002	90° Left Fits Modine	\$49.00

Pilot Assembly with Igniter Electrode

Item#	Description	Price
1830-709	Robertshaw Pilot Assembly w/Igniter Electrode	\$52.00

Pilot Assembly with Igniter Electrode

Item#	Description	Price
1830-718	Robertshaw Pilot Assembly w/24" Igniter Electrode - Fits on Piezo Igniter	\$69.00

Pilot Assembly with Igniter

Item#	Description	Price
1830-716	Robertshaw Pilot Assembly w/24" Igniter - Electrode Fits on Piezo Igniter	\$63.00

Pilot Assembly with Igniter

Item#	Description	Price
1830-706	Robertshaw Pilot Assembly w/Igniter Electrode 24" Lead 25 deg. Right	\$55.00

3/4" 24V AC Standing Pilot Control

Item#	Description	Price
700-406	3/4" In x 3/4" Outlet 300,000 BTU Nat. Reg., Reg. Cover Plate for LP Inc.	\$184.00

3/4" 24V AC Intermittent Pilot Control

Item#	Description	Price
720-079	24V 1/2" Inlet x 3/4" Outlet 150,000 BTU Capacity Nat. Gas Valve w/ LP Kit	\$247.00

24V AC Intermittent Pilot

Item#	Description	Price
700-056	24V AC Intermittent Pilot 3/4" Strait-Thru, Gas Valve 350,000 BTU Nat. Gas, Add Cover Plate for LP	\$279.00

24V AC Intermittent Pilot

Item#	Description	Price
700-059	24V AC Intermittent Pilot 1" Gas Valve 720,000 BTU Nat. Gas Capacity & 1,150,000 BTU LP Capacity Slow Opening Feature, 10-30 sec. to Full Flow, Nat. Gas, Add Cover Plate for LP	\$589.00

1/2" 24 VAC Standing Pilot Control

Item#	Description	Price
700-400	Robertshaw 24VAC/12VDC Gas Valve, Standing Pilot 1/2" x 3/4" Out, 240,000 BTU Cap., Nat. Gas Reg., Cover Plate for LP Included	\$203.00

Control

Item#	Description	Price
B4D SIT	70-110 Degree Control Only	\$129.00
B4C SIT	50-90 Degree Control w/Thermocouple Thread M8	\$139.00

1" Millivolt Gas Control

Item#	Description	Price
700-522	Robertshaw 1" Millivolt Gas Control 600,000 BTU Straight Thru, Slow Opening Feature for Soft Ignition	\$265.00

1/2" Millivolt Gas Control

Item#	Description	Price
700-503	Robertshaw 1/2" Millivolt Gas Control 240,000 btu w/ 1-3/4" & 2-1/2" Side Outlets Non-Reg. LP or Natural Gas	\$250.00

3/4" Millivolt Gas Control

Item#	Description	Price
700-515	Robertshaw 3/4" Millivolt Gas Control 485,000 BTU Capacity w/LP Reg.	\$273.00

Gas Valve

Item#	Description	Price
700-402	Robertshaw 24VAC/12VDC Gas Valve, Inlet 1/2" x Outlet 3/4", 240,000 BTU, 1/2" Side Outlets, Nat. Gas	\$212.00

Millivolt Gas Control (Compact)

Item#	Description	Price
710-508	Robertshaw 3/8" Inlet x 3-3/8" Outlets Millivolt Gas Control Compact (112,000 BTU LP, 70,000 BTU Nat.) Nat. Gas Use Thermopile and ThermoCouple	\$300.00

3/4" Millivolt Gas Control

Item#	Description	Price
700-505	Robertshaw 3/4" Millivolt Gas Control 300,000 BTU Capacity Cap. Non-Reg. LP or Nat.	\$235.00

1/2" Millivolt Gas Control Compact

Item#	Description	Price
710-503	Robertshaw 1/2" Inlet x 3-3/8" Outlets Millivolt Gas Control Compact (LP=112,000 BTU - NAT= 70,000 BTU) w/ adj. Non-Reg Requires Thermopile Only	\$250.00

3/8" Millivolt Gas Control Hi-Lo Adjustable

Item#	Description	Price
710-511	Robertshaw 1/2" Millivolt Gas Control Hi-Lo Adjustable Quick Drop Out - Requires Thermocouple and Thermopile	\$240.00

3/4" 110V Gas Control Strait-Thru

Item#	Description	Price
700-453	Robertshaw 110V, Gas Control, 3/4" Strait-Thru, 300,000 BTU LP or Nat. Non-Reg.	\$273.00

1" 24V AC Standing Pilot Control

Item#	Description	Price
700-442	Robertshaw 24 VAC/12VDC Gas Valve High BTU Cup 1" x 1" Outlet 720,000 BTU Nat. Reg. Slow Opening Feature for Soft Ignition	\$433.00

Vented Heater LP Gas Valve (Used with fireplaces.)

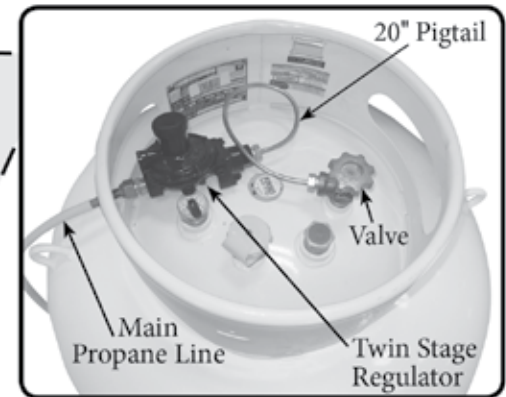

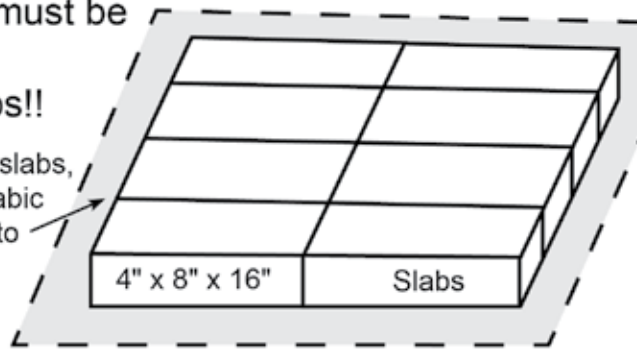

Item#	Description	Price
SIT0820651	USA Thermocouple & Thermopile (Large Thermocouple)	\$193.00
SIT0820642	Vented Heater Gas Valve Uses *SIT Metric Thread (Small Thermocouple)* Thermocouple & Thermopile	\$230.00

200lb & 420lb Vertical Propane A.S.M.E. Cylinders

All cylinders must be set on solid concrete slabs!!

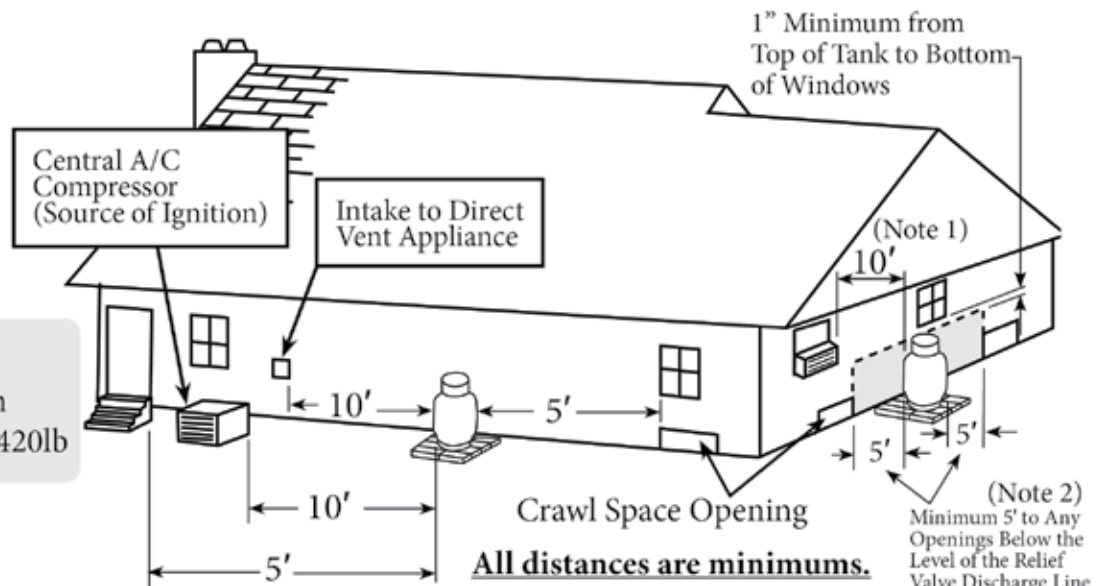

Before positioning slabs, place landscape fabric or similar product to prevent weeds growing against the cylinder.

Location of A.S.M.E. Cylinders
From NFPA 58, Appendix I

Federal, state, and local ordinances and regulations should be observed at all times.

Typical A.S.M.E. Cylinder Filled From Bulk Truck 200lb & 420lb

Notes:

- 1) Regardless of size any ASME container filled on site must be located so that the filling connection filling connection and liquid fixed liquid level gauge vent connection at the container must be at least 10 ft from any exterior source of ignition, openings into direct-vent gas appliances, or mechanical ventilation air intakes.
- 2) The distance is measured horizontally from the point of discharge of the container pressure relief valve to any building opening below the level of the relief valve discharge.

These instructions are intended only for a basic installation guide. Always refer to federal, state, and local ordinances and regulations or NFPA 58. 3-18

Federal, state, and local ordinances and regulations should be observed at all times.

- 1) Regardless of size any ASME container filled on site must be located so that the filling connection filling connection and liquid fixed liquid level gauge vent connection at the container must be at least 10 ft from any exterior source of ignition, openings into direct-vent gas appliances, or mechanical ventilation air intakes.
- 2) The distance is measured horizontally from the point of discharge of the container pressure relief valve to any building opening below the level of the relief valve discharge.

All cylinders must be set on solid concrete slabs and lintels!!

(4) Rows of 4" x 8" x 16" slabs per (2) cylinders base.

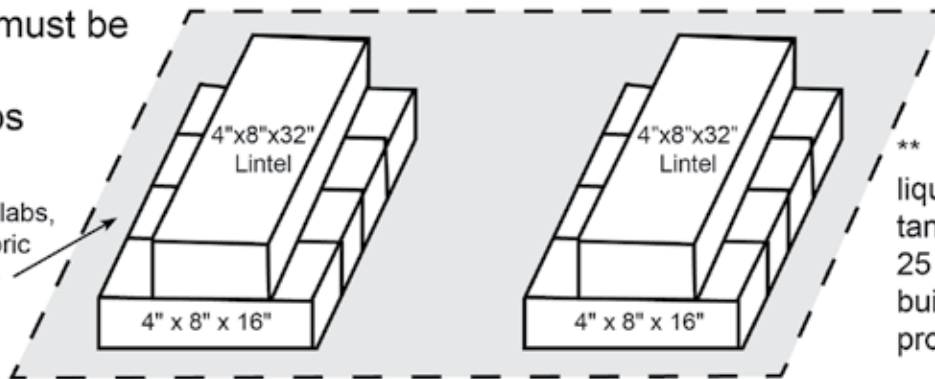

Phone: 717.354.5691
676 N. Shirk Road — New Holland, PA 17557
Hours: Mon. thru Fri. 7a.m. - 5p.m. Sat. 7-11:30 a.m.

250-500 Gallon (Aboveground Installation Guide)

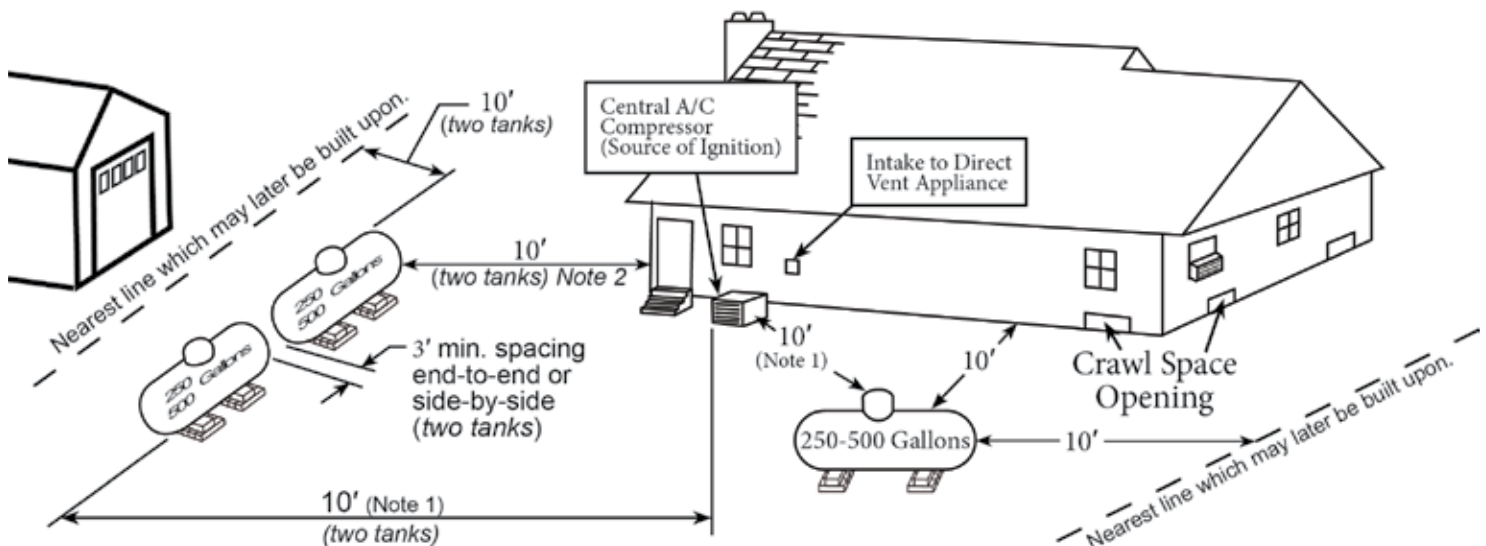

All cylinders must be set on solid concrete slabs and lintels!!

Before positioning slabs, place landscape fabric or similar product to prevent weeds growing against the cylinder.

** If transferring liquid propane, tanks must be 25 ft. from buildings and property lines.

All distances are minimums.

Notes:

- 1) Regardless of its size, any ASME tank filled on-site must be located so that the filling connection and fixed liquid level gauge are at least 10' from external source of ignition (i.e. open flame, window A/C, compressor, etc), intake to direct vented gas appliance or intake to a mechanical ventilation system.
- 2) May be reduced to 10 feet minimum for 1200 gallons water capacity or less if it is located at least 25 feet from any other LP-Gas container of more than 125 gallons water capacity.
- 3) Where the container may be subject to abrasive action or physical damage due to vehicular traffic or other causes, it must be protected against such physical damage.

These instructions are intended only for a basic installation guide. Always refer to federal, state, and local ordinances and regulations or NFPA 58. 5-23

Location of ASME Containers From NFPA 58, Appendix G

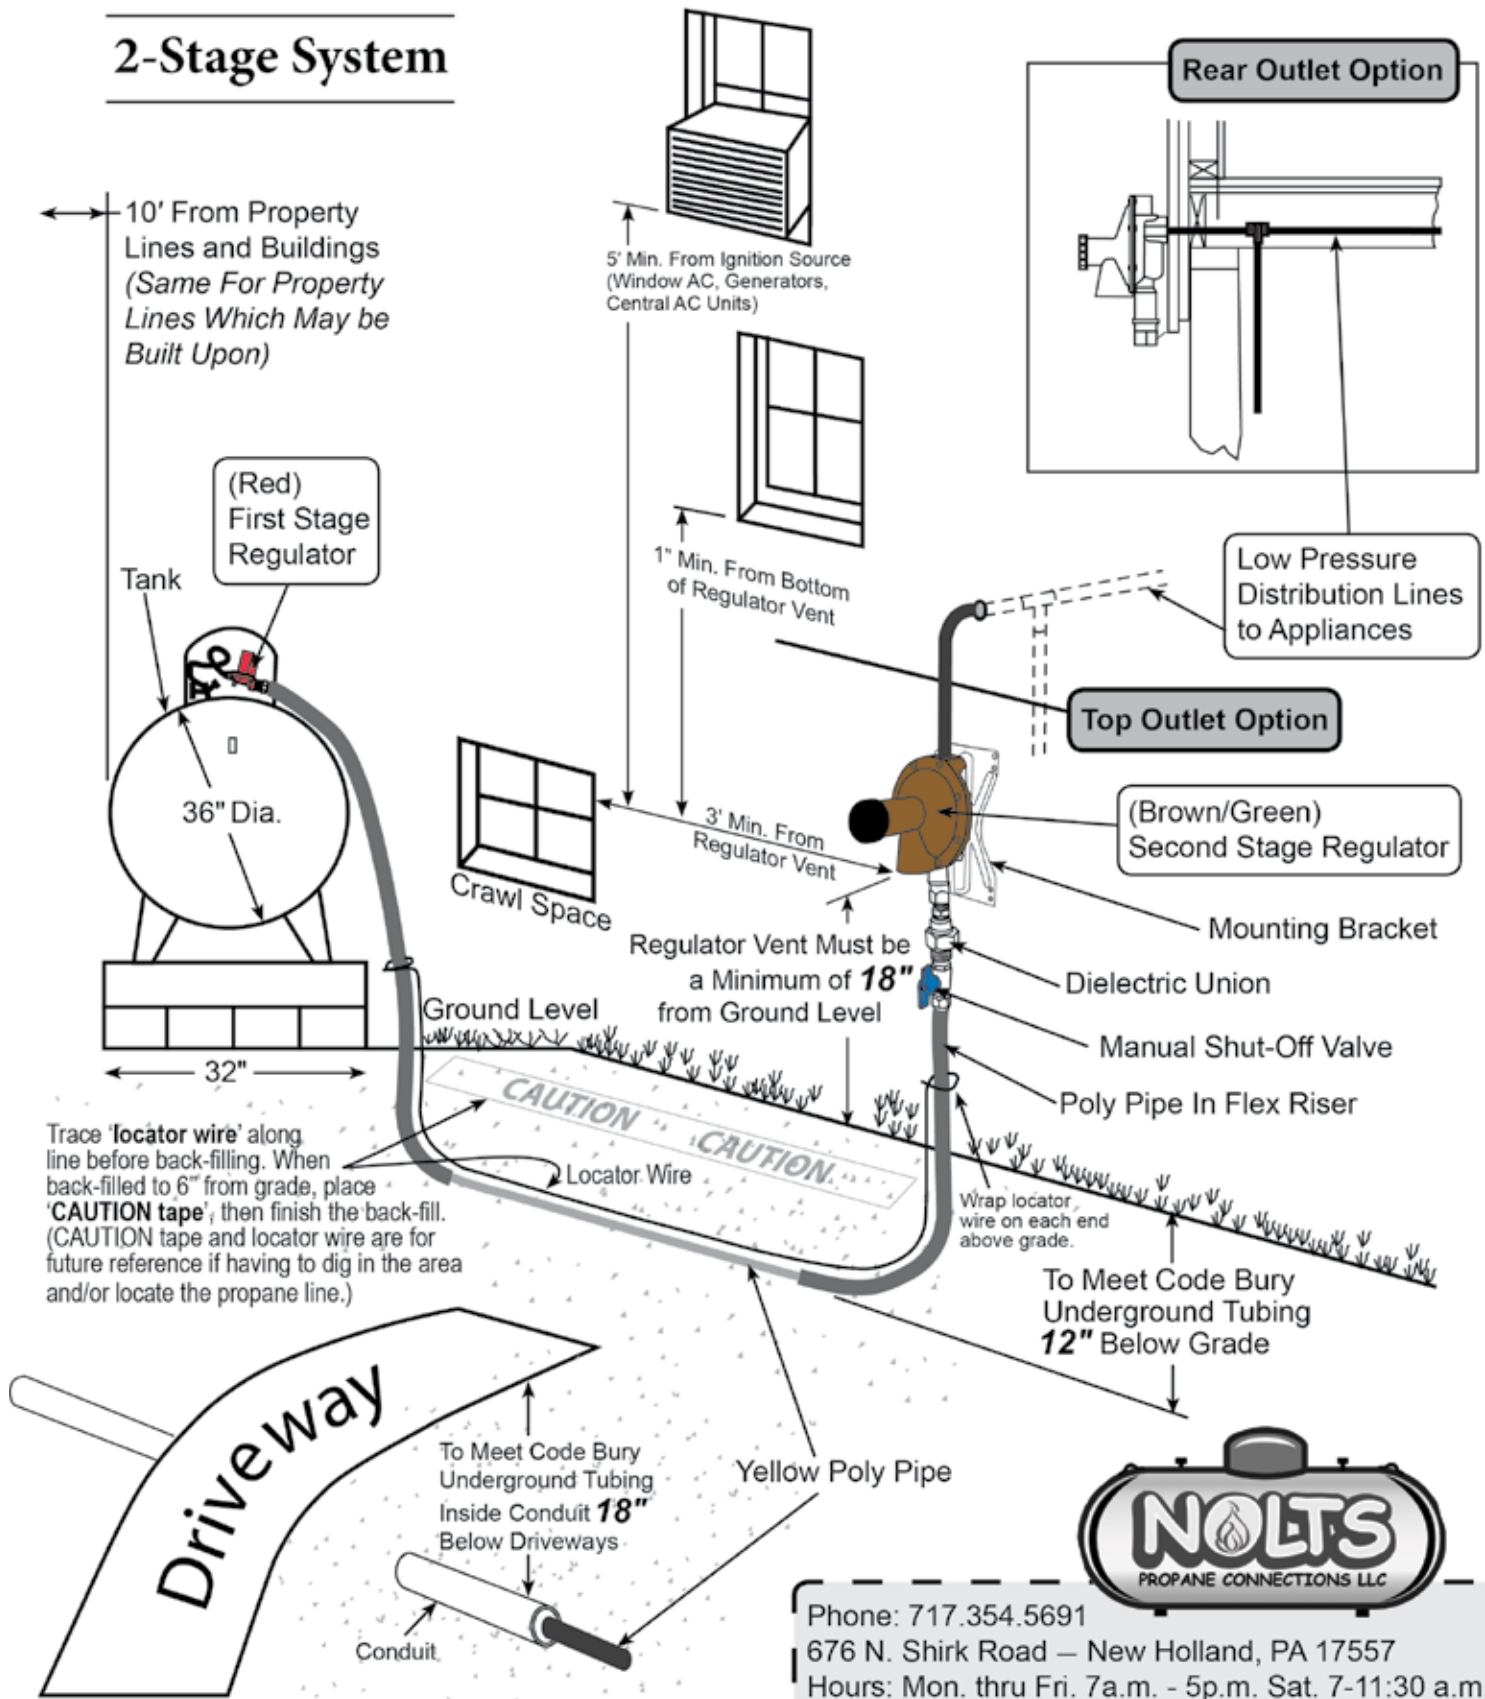

Federal, state, and local ordinances and regulations should be observed at all times.

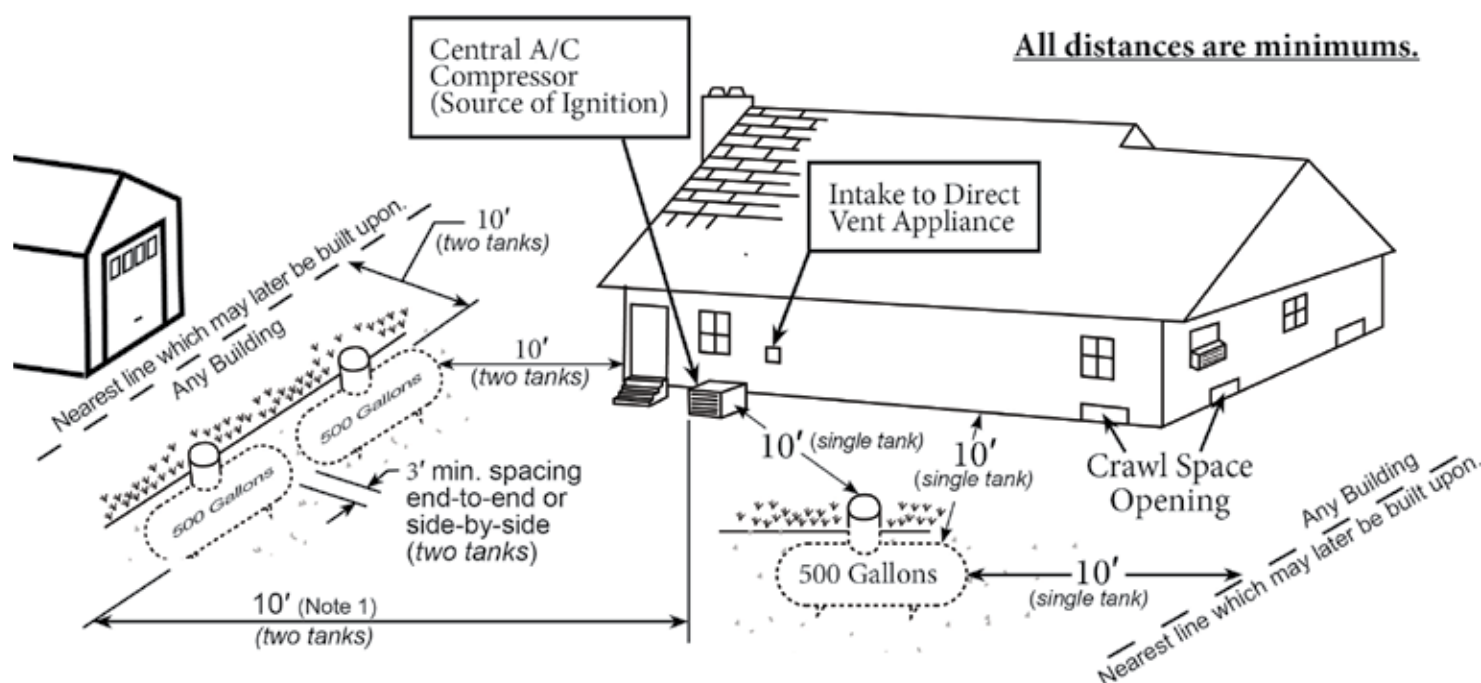

Phone: 717.354.5691
676 N. Shirk Road — New Holland, PA 17557
Hours: Mon. thru Fri. 7a.m. - 5p.m. Sat. 7-11:30 a.m.

250-500 Gallon (Aboveground Installation Guide)

2-Stage System

(Burial Guide) 500 Gallon Underground Installation

Notes:

Propane tank may not be under or against buildings. Bury at least 6" below grade, 18" if under parking lot, add bollards around valve cover if less than 10' from traffic / roadway. Tank valve cover must be at least 10' from exterior sources of ignition, (air conditioner, transformer or generator) openings into direct-vent gas appliances, or mechanical ventilation air intake, no part of underground tank shall be less than 10' from any building (foundation), well, septic system or adjoining property line which may later be built upon.

Wet area? Tie down to 10" thick concrete pad 3' wider and longer than tank, one #4 rebar / foot.

Approx. 3-6 tons of pipe sand needed to get 6" around complete tank, sand is, (Available at New Enterprise, Honey Brook Quarry, PA).

New Enterprise: **Order/Delivery** - 717-335-4503 (option 1)

Picking Up Order - 610-273-2921

Important!!

- 1) Dig hole as shown in diagram (reverse side); Evenly place 6" of pipe sand in bottom of hole then set tank in hole; attach (1) 17lb anode per 500 gallon tank; Remove cardboard box and plastic bag from anode and keep in fabric bag; Lay anode on native soil at bottom of hole; connect copper wire (shipped with anode) to tank; (tank) has a bolt with (2) washers and (2) nuts, strip approximately 4" of copper wire and wrap around stud between washers; tighten nut to ensure a good connection.
- 2) Pour 5 gallons of dirty water onto anode to activate it, inadequate moisture will keep anode from protecting tank, place pipe sand around and over tank until you have 6" of pipe sand on top of tank before backfilling with dirt.
- 3) **Important!! Dirt shall not touch tank! Or excessive pitting will occur!** Keep sloped finished grade to direct water away from tank. An initial cathodic test must be done upon final hook-up, and test it annually by a propane service man with a potential meter to make sure anodes are working properly. Potential meter shall read -.85 volts DC or above. If test fails, tank is not protected. Repair connection or add more anodes.
- 4) **Important!!** Place tall flag next to cover; to alert landscapers, lawnmower, dozer operators and to help locate tank in the snow.
- 5) **Important!!** Fill tank promptly! At least to 40% or more. If excessive rain saturates earth the tank can float up.

These instructions are intended only for a basic installation guide. Always refer to federal, state, and local ordinances and regulations or NFPA 58. 5-23

Location of A.S.M.E. Cylinders From NFPA 58, Appendix G

- Great General Storage
- Great Seed Storage
- Rodent Resistant

Keep YOUR VALUABLES out of the Weather With a Non-Permanent Structure

20' & 40' Long Containers // Various Opening Options // Roll-up Door Options

Portable 20' Containers

Stack Beside Each Other

Exterior - 234" L x 96" W x 96" W
Interior - 231" L x 93" W x 91" H
Swing Door Opening - 68" W x 78" H (free space)
Roll-up Door Opening - 68" W x 69" H (free space)

- Two door openings on side (swing or roll-up)

8'x 8' x 19' - 4-1/2" (Internal 91" W x 19' L) (2) swing doors (68" W x 78" H - opened) on one side w/ removable divider (black base, white sidewalls, doors, door frame, tan corner post and roof) Wt. 3,500 lbs..... \$5,300.00

8'x 8' x 19' - 4-1/2" (Internal 91" W x 19' L) (2) roll-up doors (68" H x 69" H - opened) on one side w/ removable divider, light stone roof & doors, black base, white everything else Wt. 3,500 lbs..... \$5,800.00

Features

- Water, wind, dust and pest proof
- Highest grade and best quality steel
- All hardware is stainless steel, won't rust
- (2) wall vents allow for proper air flow
- Stackable 3-high, fully loaded
- Multiple fixtures for relocating the unit - heavy-duty d-rings, fork pockets, receiver tubes, and rubber pads
- Wall panel thickness: 1.0mm (19ga) galvanized steel painted White
- Roof: 4.0mm (6ga) corrugated steel

When open they create a wide unobstructed opening.

Interior:

- (6) vertical e-track and (20) tie-down rings
- Anti-condensation spray on ceiling
- 19mm marine grade plywood flooring (standard)

Options

* Swing Doors Opening

68" W x 78" H

Pair of swing doors provides the same wide opening with slightly more inside vertical height than the roll-ups.

* Roll-up Doors Opening

68" W x 69" H

Conceals the door into the container's ceiling providing a completely unobstructed opening.

All hardware for both door types is provided. Includes latches and hardware to securely hang and latch doors. Latch sets accept padlocks to secure units.

* **Interior Partitions** to subdivide units - Partitions divide units into individual units. i.e. A unit with four doors and three partitions creates four individualized units.

Rental Income

Have a property and all you're doing is maintaining it and paying taxes... Why not turn it into an income source with portable storage units? When that day comes when you may want to sell the property, up-sell the land with the units in place. Or if you choose, sell the units for some additional cash from the investment that has long since paid you back.

Create an **Income Source** with Portable Storage Units!

They're portable, you can sell them to put additional cash in your pocket if you sell the land.

No foundation required. Place them on grass, dirt, gravel, asphalt, or concrete.

If it's a propane, fuel tank part, or accessory, we most likely have it. If we don't have it on hand, we should be able to get it for you quickly.

When you need assistance, feel free to call 717-354-5691 or stop in and visit our service counter during business hours. Find all the parts you need for your propane, fuel, and diesel tanks with the help of Nolts Propane Connections. Our experts will locate the correct fittings you need for a fully-functional tank. We stock a wide variety of replacement parts, so you can be sure you'll find the right one for your tank. For more information, feel free to contact us today!

OUR FILL STATION

At Nolts, we have a fill station that is available during regular business hours. Bring your cylinders (from 20 lbs to 100 lbs) or recreational vehicles (R.V.) and have them filled while you wait. We offer visual 5-year D.O.T. re-qualification on any cylinder. Call us at 717-354-5691 (option 3) to learn our most recent cylinder fill price.

USED PROPANE TANKS

Is your cylinder showing its age? Replace it with a new one! Nolts Propane Connections sells new cylinders that are available in sizes from 20 lbs to 100 lbs. We can also dispose of your old cylinders for you. Look for our sign that says, "We take any old propane tank!" and place it in the crate. We also sell and re-purpose used propane tanks, so if you're looking for an affordable used propane tank for your smoker or fire pit, call us today at 717-354-5691.

We take any old propane tank!

Tight fit, no problem. We do our best to accommodate YOUR wants as long as it meets code!

We use a track machine for tight areas and it's also easier on YOUR lawn!
