### Q3-2020

Buyers and sellers came back into the market in Q3 2020, with buyer activity up substantially from a year earlier. While seller activity has improved from last quarter, sellers are not listing enough homes to meet the increased demand seen from buyers. Fast sales, multiple offers, and low inventory are likely to continue into what is normally a slower time of year.

- Single-Family Closed Sales were up 8.7 percent to 351.
- Condos Closed Sales were up 28.2 percent to 50.
- Co-ops Closed Sales finished the month at 1.
- Single-Family Median Sales Price increased 9.9 percent to \$412,000.
- Condos Median Sales Price decreased 2.5 percent to \$248,500.
- Co-ops Median Sales Price ended the month at \$75,000.

While the housing market cools with the changing of the seasons, all signs point to buyer activity remaining elevated as compared to the same period a year ago. The fundamentals of the housing market remain strong and indications point to a healthy and active Q4 to end the year.
