Hello from America... Quick Note!!!

1. As many of you know, we have been back in the States for a few months taking care of many things — including **17 VA health appointments** since January.

Many years ago, when I was young, ten feet tall, and nearly bulletproof, I did what many do at that age — **succumbed to the world's pressure to give 110%**.

Well, interestingly enough, we all find out at some point that 110% is about **10% too much**, and it eventually catches up with us in the form of pain later on.

I had a couple of military injuries, including a **TBI**, that we are trying to address now.

The VA system, surprisingly, doesn't work on my timeline — therefore, things are taking longer than I'd like.

However, **the Lord surely has His plan and His timing**.

Since returning, my **father (unsaved)** has been diagnosed with **stage 4 lung cancer** that has metastasized and spread to his spine.

Our time back has allowed us to spend some much-needed time with my parents.

We ask for your **prayers for clarity of mind for my dad**, that he would continue to hear and receive the good news of our Savior.

1. As well, please pray for the ministries in **Asia**.

A) We may be facing some **visa issues** that we'll need to address. Korea has been experiencing several unusual political challenges, and unfortunately, there's conflict — even among Christian factions.

I may need to make a **solo trip back** to Korea to take care of these matters as needed before we all return in **January** (pending my dad's health).

B) Please also pray for our **time in Thailand and Cambodia**.

Next year, we will be **transitioning our ministry efforts fully over to the national pastor in Thailand**, while also **surveying a church plant opportunity in Cambodia**.

Please keep these things in prayer.

As we always say, much of what we do never makes it into the updates. If you have **ANY questions**, I do have clear answers — please feel free to ask!
