

Approved Builder List for Legacy Bend

Submission Process

Thank you for applying to become an approved builder for Legacy Bend. Please read the directions below and submit documents to begin the process.

Builder Approval Process:

- 1) Submit a builder's resume that outlines your building experience, size of properties built, price points and approximate year of construction for the last 10 years.
- 2) Submit a sample set of plans (front elevation and floor plan is sufficient) of what you intend to build in Legacy Bend with an interior features sheet OR a sample plan of a home comparable to what you intend to build in Legacy Bend with the interior features sheet.

Send resume, plans and feature sheet to Natalie@genecov.com. This process is in place to make sure any builder coming into Legacy Bend will build a quality custom home. If you have any questions, please feel free to reach out by calling or email. I'm happy to help.

Kindly,

Natalie
