

CLINICAL MEASURE RESULTS

As part of our Patient Centered Medical Home Transition, the following quality measures were assessed for a representative sample of patients.

Tender Care Pediatrics Exceeds the practice goal in HPV Vaccination completion of series by scoring 80% by the practice and also by the individual clinicians.

Practice also exceeds the practice goal in Testing for children with pharyngitis by scoring 84% by the practice.

Practice did not meet our Preventive care Well visits 15 months goal due to COVID restrictions.

Tender Care Pediatrics will continue setting up goals to all other evidence based pediatric guidelines to improve the quality of heath care.
