- YAB Retention + Recruiting
- Data Lab for YAB
- Forming the CQI Team
- YAB Guest Speaker
Introductions
Ryan Hall, ICF, Ryan.Hall@icf.com

Danielle Humes, dhumes@partnershipcenter.net
Community Intros

- What Community are you with?
- What are you hoping to learn through this CQI Cohort?
Continuous Quality Improvement (CQI)
What is CQI?

- **Continuous Quality Improvement** (CQI) is the process of making data informed decisions that will bring about meaningful change in your homeless system, and then continuing to learn from and further develop those decisions over time.

- A CQI process is already used by many communities, even if they do not use the name “CQI” or the other terms presented here. In these cases, the following resources should be thought of as a potential means to strengthen or improve what your community already does rather than add on an entirely new process.
YAB Retention + Recruiting
Data Lab for YAB
Forming the CQI Team
YAB Guest Speaker
Next Steps for Your Community:

1. Add Next Steps Here.
