## IMPORTANT ANNOUNCEMENT

New Flea/Tick Policies: We require that your pet be on a flea and tick prevention when visiting the resort. Prior to your check-in, a staff member will review the materials, vaccination records and flea and tick records. You will sign our contracts, and they will be available for you on your Paw Partner dashboard. All dogs must be current on flea preventive treatments as prescribed by manufacturer's recommended frequency. We will check to ensure that they do not have any evidence of fleas on them. To avoid spreading fleas to your pet, any pet checking in with fleas must immediately be given a Capstar at the charge of The Orrville Veterinary Clinic's discretion.

Even though we do take every precaution to keep a flea-free facility, we cannot make any guarantees and rarely have a problem. To minimize the possibilities, we would recommend that your pet be on flea and tick preventive for their stay.
