RE: COMMUNIQUE ON THE PLANNED ALL AMBAZONIA CONFERENCE

In a meeting on Sunday March 12, 2023, members of the Southern Cameroons Stakeholders Platform (SCSP) deliberated on issues related to the advancement of collaboration and unity of purpose in line with the spirit of the Toronto resolutions and the Memorandum of Understanding signed by the platform members emphasizing on the need to harness efforts aimed at enhancing collaboration among Southern Cameroons (Ambazonia) groups.

The platform acknowledges the demonstration of unity of purpose exercised by groups during the Canada exploratory talks facilitated by the Canadian Government, and regular briefings received by the platform. It also reviewed meetings held with the Mother of the Southern Cameroons (February, 15, 2023) and the Ambazonia Coalition Team (ACT) on February 18, 2023, underlying the need to harness efforts and work towards a single unifying goal.

It appreciates the announcement and objective of the Conference as elaborated in meeting with the groups that announced and the alignment with the desire of the majority of all Southern Cameroonians (Ambazonians), to have all leaders, groups, and stakeholders work together in a sustainable manner, consistent with the believe that only through collaboration can we collectively achieve our aspirations for homeland.

The SCSP therefore communicates as follows:

This Platform, constituting of twenty-six (26) stakeholder groups, welcomes the Conference of July 6 to July 10 2023, as presented and will engage at every stage of the conference to ensure inclusion and success.

As co-conveners of this conference, we call on all platform member groups and their leaders to mobilize internally and externally to attend the conference and to actively engage in the preparatory stages including engagement in committees.

The Platform calls on all other stakeholder groups to actively engage in the preparation of this conference and to share suggestions to any group(s) involved in the organization of the conference.
