Aloha! I'm Allison, founder and CEO of Allison Shipping Containers, Inc., Hawaii's leading supplier of shipping containers and mobile shipping container offices. I will make sure we understand exactly what you want and personally manage your project to be certain we execute your vision and meet your timeline within your budget.

Sales@AllisonShippingContainers.com

www.allisonshippingcontainers.com

We're Hawaii's leading shipping container supplier and portable building manufacturer.

Our commitment to customer service is why Allison Shipping Containers is trusted by leading companies across all the Hawaiian islands--including construction companies, schools, rental car agencies, farms, renewable energy companies, non-profits, medical supply companies, and government agencies.

WHAT WE OFFER

Our commitment to excellence is why we've been chosen by government departments such as FEMA, the City and County of Honolulu Maintenance Division, Hawaii State Department of Transportation, Department of Education, Department of Public Safety; commercial businesses such as Hertz Rental Car agency and Solid Steel Metalworks; Construction companies such as Pitzer Built Hawaii and Hensel Phelps; renewable energy companies such as AES and Pacific Biodiesel; and schools and non-profit organizations like Kalani High School and Go Farm Hawaii.

CONSTRUCTION

Our construction clients use container offices to establish safe, secure workspaces right on their jobsites. These spaces are perfect for tackling administrative tasks, vendor meetings, and simply taking an air-conditioned break. Once a job is finished, just move it to the next site.

GOVERNMENT

Government agencies use our container offices as temporary offices, information centers, and public service hubs.

EDUCATION

Schools use our container offices to provide temporary classroom space during lengthy renovations, computer labs, and faculty rooms; offering schools an opportunity to safely accommodate growing population

LOGISTICS

Transportation companies, distribution centers, and warehouses use our shipping container offices to store administrative spaces for logistics and inventory management

RETAIL

Shipping containers offer a cost-effective and customizable solution that can be quickly adapted to different retail concepts. Their compact, modular design allows for easy mobility, making them ideal for pop-up shops, outdoor markets, and temporary retail locations.

WE SERVE ALL ISLANDS

MOBILE OFFICES

A shipping container office is the perfect solution to allow your business to meet tight deadlines, adapt, and expand. Choose from one of our prefab off-the-shelf mobile office trailers for sale, or let us build a shipping container office customized to fit your exact needs. We ship mobile offices to all islands and work closely with you to take the stress out of logistics.

CUSTOMIZED

Get exactly what you need by having us design and build a customized container office with the specs you want. All builds begin with a new container; you select the features and colors.
