12th JULY 2026

15th Sunday in Ordinary Time (YEAR A)

If we put our trust in ourselves, it would be the end of us! However, we can rely on the tender love of God to such an extent that we can even expect from Him a change of our heart. He will lead us to respond to His grace by giving us courage and strength, and all that is required to make a generous and full commitment. Do we desire such change of heart? This desire is already a guarantee that God wants to do great works in us; since even the desire for what is good is His gift.

'A sower went out to sow. And as he sowed, some seeds fell along the path... Other seeds fell on rocky ground... Other seeds fell among thorns... Other seeds fell on good soil and produced grain, some a hundredfold, some sixty, some thirty. He who has ears, let him hear.' (Matthew 13:3-9)

Sea Sunday 12 July 2026

Every year churches around the world celebrate Sea Sunday. It is a day for people to come together to pray for seafarers and fishers, and thank them for the vital role they play in all of our lives.

But seafarers often work in difficult and dangerous conditions. Conflicts around the world are increasing risks to their safety, especially for crews travelling through regions such as the Strait of Hormuz. Many also face abandonment by employers, long separations from family, stress, and poor mental health. Since a typical contract for those who call the ocean their workplace lasts several months, often with limited internet access, while working in shifts around the clock. Isolation, exhaustion, anxiety, and uncertainty can weigh heavily on those who work far from home and community.

This is why the work of Stella Maris is so important. Stella Maris (formerly known as Apostleship of the Sea) is the maritime charity of the Catholic Church. Through chaplains and ship visitors, Stella Maris offers pastoral, practical and spiritual support, friendship, and a listening ear to seafarers and fishers in ports of the UK and around the world. A simple visit can remind someone that they are not forgotten. A conversation, a prayer, or help contacting family can become a source of hope in difficult times.

Your support will make a big difference to seafarers and fishers in need. You can donate in church, by visiting www.stellamaris.org.uk/donate, or by texting 'SEA' to 70460 to donate £5. This collection is vital to enable Stella Maris to continue its important work, so please give generously.

There is a 2nd Collection for Stella Maris this weekend

O God, who show the light of your truth to those who go astray, so that they may return to the right path, give all who for the faith they profess are accounted Christians the grace to reject whatever is contrary to the name of Christ and to strive after all that does it honor. Through our Lord Jesus Christ, your Son, who lives and reigns with you in the unity of the Holy Spirit, God, for ever and ever. Amen.

God's Love for You

Eucharistic Miracles of Buenos Aires, Argentina (Part 2 of 3)

It was inflamed human heart tissue due to a
compromised blood supply. I realised that
when the heart suffers trauma, it looks very
different from standard textbook images of
normal heart tissue. The scientists that I had
engaged thus far were not experts in heart
trauma. The next step was to find a world
expert who was not only a forensic
pathologist, but also a cardiologist. I found
him in New York: Dr Frederick Zugibe.
On 20 April 2004, a leading Australian
investigative journalist, Mike Willesee,
accompanied me to New York to present
Dr Zugibe with my case samples.
Dr Zugibe had been told nothing of the
history of the sample or my research. In our
presence, as I filmed, he microscopically
examined the samples. The only true
statements made by Dr Zugibe are
contained in what I recorded and
documented at that original meeting.
They have since become historic:

*"I am an expert on the heart. The heart is
my business. This is flesh. This flesh is
heart muscle tissue, myocardium, from the
left ventricle wall not far from a valvular
area. It is the muscle that gives the heart its
beat and the body its life. This heart muscle
is inflamed. It has lost its striations and is
infiltrated with white blood cells. White
blood cells are not normally found in heart
tissue. These cells are produced by the body
and they escape from blood and infiltrate
the tissue to address trauma or injury.
The presence of those white blood cells in
the tissue tell me two things: Firstly. This
heart has suffered traumatic injury. There
has been a compromising of the blood
supply to the heart. This is not unlike what I
have seen when someone has been beaten
severely over the chest in the region of the
heart. Secondly. This heart was alive.
This heart is from a living person not a
dead person. I am looking at a snapshot of
a living heart. I can date the injury. I can
date when the compromising of the blood
supply occurred. It happened 3 days before
the snapshot in time captured in the
microscopic slide."*

Adoremus Art Competition

Christian Art are delighted to launch a
national Catholic schools Art Competition in
the lead-up to Adoremus this October,
organised by the Bishops' Conference of
England and Wales. Young people are
invited to reflect creatively on themes such
as the Blessed Sacrament, the presence of
Jesus, and the beauty of our cathedrals.
Entries will be judged by a professional
panel of art experts, with categories for
ages 6-8, 9-12, 13-15, and 16-18.

A winner will be selected in each category,
along with one overall winner. Archbishop
Richard Moth will host a reception for all the
runners-up and winners on Thursday
1 October at 2pm at Archbishop's House.
Entries to be submitted by simply sending a
photo of the artwork

to artcompetition@christian.art

Deadline for entries: 15 September 2026

For any queries, please email
