7th SUNDAY of EASTER - World Communications Day (YEAR A)

We must revive our trust in that loving Mother who desires for us only our true good, and nothing false and merely apparent. She will certainly listen to our prayers if we ask her favour; she will obtain for us the grace we need in order to overcome our enemies and to go forward as victors into her presence to thank her for ever for her great goodness to us.

"...I have given them the words that you gave me, and they have received them and have come to know in truth that I came from you; and they have believed that you sent me. I am praying for them..." (John 17:8,9)

Graciously hear our supplications, O Lord, so that we, who believe that the Saviour of the human race is with you in your glory, may experience, as he promised, until the end of the world, his abiding presence among us. Who lives and reigns with you in the unity of the Holy Spirit, God, for ever and ever. Amen.

World Communications Day 2026 17th May

In the message for the 60th World Communications Day 2026, Pope Leo told us: "Our faces and voices are unique, distinctive features of every person; they reveal a person's own unrepeatable identity and are the defining elements of every encounter with others...Faces and voices are sacred. God, who created us in his image and likeness, gave them to us when he called us to life through the Word he addressed to us. This Word resounded down the centuries through the voices of the prophets, and then became flesh in the fullness of time. We too have heard and seen this Word (cf. 1 Jn 1:1-3) — in which God communicates his very self to us — because it has been made known to us in the voice and face of Jesus, the Son of God...Preserving human faces and voices, therefore, means preserving this mark, this indelible reflection of God's love. We are not a species composed of predefined biochemical formulas...If we fail in this task of preservation, digital technology threatens to alter radically some of the fundamental pillars of human civilization that at times are taken for granted...The challenge, therefore, is not technological, but anthropological. Safeguarding faces and voices ultimately means safeguarding ourselves...renouncing creativity and surrendering our mental capacities and imagination to machines would mean burying the talents we have been given to grow as individuals in relation to God and others. It would mean hiding our faces and silencing our voices... The task laid before us is not to stop digital innovation, but rather to guide it and to be aware of its ambivalent nature. It is up to each of us to raise our voice in defense of human persons, so that we can truly assimilate these tools as allies..."

Parish Fundraising

The Parish is facing two repairs. The flat roof over the long corridor has water penetration to the retaining wall capping stones. The tall chimney of the old boiler is blamed for some water penetration and must be removed.

The second repair follows a report of water penetration of the tower. The rain entry threatens electric contacts of the bells. Again work on the capping stones and the lead covering which will call for scaffolding to the top.

Project pictures and information will be displayed in the entrance of the Church shortly.

The weekly collection is not covering our outgoing costs, as we all know in paying our utility bills. We hope to have various fundraising projects to assist this essential work.

If you have any ideas for fundraising please share on the list at the back of Church. Any contributions will be gratefully welcome
