

Dear Members,

First, I would like to congratulate **Dave Miley, our 2026 Club Champion**. Dave continues to prove that age is just a number. I'm not sure exactly how many times he has won the Club Championship over the years, but I know it is a bunch. Congratulations, Dave, on another great accomplishment.

I would also like to congratulate **Jessica Wilson, our 2026 Women's Club Champion**. Jessica played some great golf on her way to capturing this year's title. Congratulations to Jessica on a well-deserved championship and to both of our Club Champions on their outstanding play.

As of August 31, the Club's golf cart loan has officially been paid off. We will soon begin the process of ordering our next fleet, with delivery planned for the spring of 2027. In the meantime, for approximately the next six months, the Club will no longer have the \$18,000 monthly loan payment associated with the current fleet.

Financially, the Club continues to perform very well. That said, the challenges we face are real and there are many. Labor and material costs continue to increase, creating challenges both in our day-to-day operations and as we plan for the future. The 2027 budgeting process is currently underway, and accurately projecting these costs remains one of the more difficult parts of that process.

We also continue to move forward with **Vision 2030**. Our next Town Hall meeting remains on track for October, with the exact date expected to be announced next week. At this point, we anticipate holding the meeting during the final week of the month.

On October 7, we expect to receive preliminary cost estimates for the clubhouse portion of Vision 2030. This will be an important step in the process, as it will give us a much better understanding of the potential cost of the proposed clubhouse improvements and allow us to begin evaluating the project with more complete information.

October will be an important month for the future of the Club. As we receive the preliminary costs and continue the planning process, we will have a clearer picture of the opportunities in front of us and the decisions that will need to be made as we move Vision 2030 forward.

Very Truly Yours,

Don DeSelms
