

May 1, 2024

Dear Oaks Members,

As the days grow longer and the temperature begin to rise, it brings me great pleasure to welcome you to another exciting month at The Oaks Country Club as the new President. May brings with it a sense of renewal and energy as the Oaks comes to life, let's cherish the time spent in the company of friends, family and fellow members at the Oaks.

During our annual meeting in April three new board members were announced: Scott Blosser, Mark Morley and Brad Nelligan, Sr. The officers this year include myself, Curtis Dinan, Vice President & Treasurer and Wink Kopczynski, Secretary. I am excited to serve alongside these gentlemen and the rest of our talented board members. I would like to recognize our past president, Scott DeGeer. Scott's commitment and dedication to the club over the past three years has left us in a great position to continue to thrive. From all of us, thank you for your service, Scott.

As we prepare for summer, you will continue to see Dan and his crew getting our course ready for the golfing season. I have been a member at the club since 2009, and I think this is the best our golf course has looked coming out of spring into summer. The course is in impeccable shape. The pool has undergone its spring maintenance and is ready for its opening on Friday, May 24th, in conjunction with Memorial Day festivities.

I am happy to announce that we received the "Focus Group Report" from the McMahon Group late last week. This important information will enable management and the board, alongside the McMahon group to craft a survey that will be tailored around the important feedback we received. The survey will be going out to the membership in the middle of May, and I strongly encourage every member to participate in the process. This is a great platform for every member's voice to be heard. Your feedback will help shape the future of the Oaks.

As a reminder, please be mindful of the club's policies on guests, dress code, pace of play, parking, etc. If we all do our part on the simple things, we can ensure a wonderful membership experience for all. Also, with an increase in club activity, please remember to lock your vehicles when arriving at the club. We are not immune to theft because we are behind gates.

In closing, thank you for your continued support of the Oaks. Together, we are writing the next chapter of our club's storied legacy, and I am excited to see what the future holds.

Sincerely,

Zach A. Malchi

President
