

Dear Friends,

We want to praise God for his protection and provision during a busy travel season. During August, September, and October, our travels took us to Alaska, Tennessee, Ohio, Virginia, and Quebec, Canada.

In our last letter, we shared that I (Nathan) would take one more trip to Alaska to finish filming our missions documentary. The day I arrived in Alaska, I learned that our trip schedule would be rearranged due to the death of a faithful saint in Stevens Village. I had travelled to this village on my previous trips, and we had not planned to revisit the village; however, God's plan was perfect and evident. This trip to the village gave me the unique opportunity to get a more personal look at native culture in Alaska. Here are a few unique experiences and blessings of this trip.

- Transporting the casket from Fairbanks back to the village on the Dalton Highway and then the Yukon River.
- Talking to a village Chief who treated me with kindness and shared the native culture.
- Watching Mr. Pinnix preach to a much larger group of people at the funeral than in any previous service.
- Filming a young family who traveled with us on this trip, who are committed to serving in Remote Alaska in the coming years, and will need a deputation video in the near future.

Funeral in Stevens Village

Craig, Alaska - Prince of Wales Island

After returning from Stevens Village, Mr. Pinnix and I packed our bags and flew from Anchorage to Ketchikan, Alaska. From there, we boarded a Ferry for the 3-hour trip to Prince of Wales Island. Our goal for this trip was to capture video footage that would highlight an area of Alaska that is geographically much different than the rest of Alaska, and yet, much like the rest of Alaska, is in desperate need of more Gospel laborers.

Please continue to pray for this Alaska documentary. While there is still much work to be done, we are making good progress and are asking for the Lord's guidance as we get closer to completing this project.

Upon my return from Alaska, we spent a week in Tennessee filming a promotional video for Mount Pisgah Christian Academy. We have produced videos for the ministries of Mount Pisah Baptist Church in the past and enjoyed working with these friends once again.

Much of September was spent in Cleveland, Ohio, as we participated in another Hope for America Crusade led by Evangelist Chris Miller. We led the live stream ministry, produced videos for social media, created a recap of the event, and helped in other areas of the ministry as needed.

It was a joy to see God work in the lives of Christians, and many lost received Christ.

After the crusade, we enjoyed a few days at home before heading to Virginia, where we assisted the Kelley family with their furlough video.

You can view several of our recent videos by visiting [YouTube.com/lensoftheharvest](https://www.youtube.com/lensoftheharvest)

In a previous letter, we shared that we visited the Pate family in Montreal to help with a video for their ministry. During that trip, Josh asked me to take a look at their sound system to make some suggestions for improvements. I made some suggestions, and shortly after that trip, Josh asked if I would be willing to come back and make some upgrades to their sound system. We went back in October and spent 3 days upgrading several components of the church sound system and livestream. While this type of ministry is certainly not a regular part of what we do, it was a great opportunity to make sure the Gospel could be clearly seen and heard through the means of technology.

Thank you for your part in helping us to come alongside missionaries, churches, evangelists, and Christian Schools to advance of the cause of the Gospel around the world.

Thank you,
Nathan, Hannah, Grace, and Micah.
