A Better World

# ABOUT US

TABW supports development initiatives low- to middle-income countries in partnership with local organisations, working alongside communities to implement practical solutions that create lasting change. Our programs prioritise community ownership, sustainability, and the development of skills that enable people to improve their own lives.

Our philosophy is grounded in the belief that lasting change can only occur when initiatives are shaped by the needs, priorities, and aspirations of the communities they serve.

Towards a Better World (TABW) is an Australian-registered charitable organisation committed to supporting community development that is economically, socially, and environmentally sustainable.

In Namibia, our work is delivered through our sister organisation, Towards a Better World Charities (TABWC), which implements our programs on the ground.

## Our Mission

To equip individuals and their communities with the skills, knowledge, and resources necessary to achieve long-term self-sufficiency.

# OUR CURRENT PROGRAMS

TABW focuses on practical Programs that strengthen food security, health and nutrition, skills development, and income generation.

## Farm Ubuntu – Namibia

A working farm and agricultural training centre using sustainable agriculture to build food security, skills, and income generation.

## MI-CARE Maternal & Infant Support – Namibia

Coordination of funding and strategic support to strengthen the availability of maternal and infant care services, particularly following premature or traumatic births.

## Sustainable Schools – Malawi

A permaculture-based school development initiative operated by Empower Malawi to support nutrition, environmental education, and community resilience.
