**COMING SOON**

### Radio Remote Control

**Truck Driver Never Has To  
Leave The Cab!**

- Compact design with Honda engine driven hydraulic power pack
  - (2) Hydraulic Valves
  - (8) Gallon Gas Tank
- Watchdog Controls allows for customization
  - Up to (4) presets
  - Drip delay
- Optional Krohne Flow Meter
  - Set Volume-Based Fill Cycles
  - Track Total Gallons Filled
- Labor saver, no need for someone to sit in the tractor to cycle the pump
- Reduce the risk of expensive fines from being over weight when tankers are transporting to farther field sites
- Load tanks in a more convenient location
  - Increase safety by reducing traffic on the farm
  - Decrease travel time
- Consistent fill cycles improve transport timing
