

12 Gauge Regular Steel

\$2,495

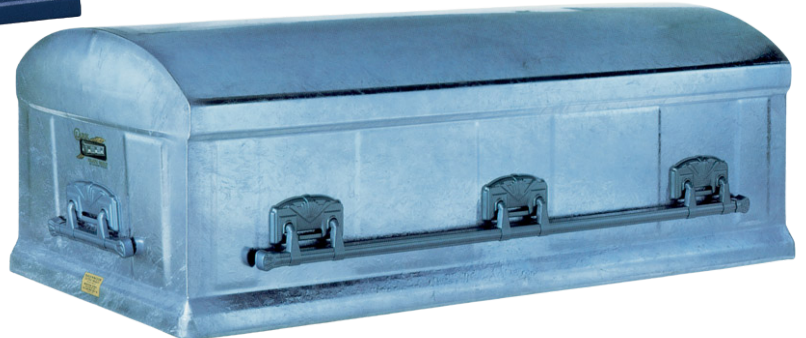

ALL STANDARD SERIES VAULTS OFFER:

- Long lasting protection at a lower price.
- Choice of two non-porous metal thicknesses: 10 gauge and 12 gauge.
- Long-term strength is evident in such long-standing structures as the John Hancock Building in Chicago and the US Steel Building in Pittsburgh.

12 Gauge Galvanized Steel

\$2,695

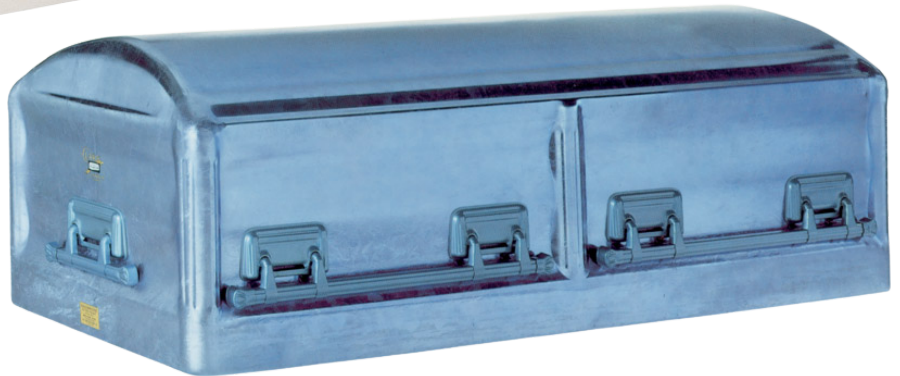

ALL ENHANCED SERIES VAULTS OFFER:

- An extra measure of protection with a choice of two metals: Aluminum and Galvanized Steel.
- Galvanized steel, available in three non-porous metal thicknesses - 7 gauge, 10 gauge and 12 gauge - doubles the life of the vaults.
- You find this type of more durable galvanizing in guardrails, highway sign frames and posts, and light posts.
- The natural properties of premium quality aluminum protects caskets from the elements for generations.
- Available in 1/8 inch thickness, series 5052 aluminum is commonly used in boat hulls, hydraulic tubing and appliances.

10 Gauge Galvanized Steel

\$2,795

ALL ENHANCED SERIES VAULTS OFFER:

- An extra measure of protection with a choice of two metals: Aluminum and Galvanized Steel.
- Galvanized steel, available in three non-porous metal thicknesses - 7 gauge, 10 gauge and 12 gauge - doubles the life of the vaults.
- You find this type of more durable galvanizing in guardrails, highway sign frames and posts, and light posts.
- The natural properties of premium quality aluminum protects caskets from the elements for generations.
- Available in 1/8 inch thickness, series 5052 aluminum is commonly used in boat hulls, hydraulic tubing and appliances.

7 Gauge Galvanized Steel

\$3,195

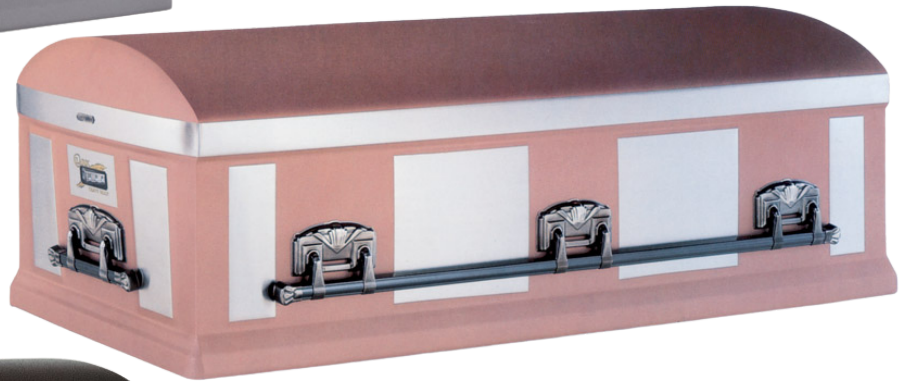

ALL ENHANCED SERIES VAULTS OFFER:

- An extra measure of protection with a choice of two metals: Aluminum and Galvanized Steel.
- Galvanized steel, available in three non-porous metal thicknesses - 7 gauge, 10 gauge and 12 gauge - doubles the life of the vaults.
- You find this type of more durable galvanizing in guardrails, highway sign frames and posts, and light posts.
- The natural properties of premium quality aluminum protects caskets from the elements for generations.
- Available in 1/8 inch thickness, series 5052 aluminum is commonly used in boat hulls, hydraulic tubing and appliances.

12 Gauge Stainless Steel

\$5,995

ALL PREMIUM SERIES VAULTS OFFER:

- Unequaled eternal protection.
- Choice of two metals: copper and stainless steel.
- Copper offers the ultimate in underground durability. Archeological digs often recover items made of pure copper in superb condition after 8,000 years.
- Stainless steel is an alloy of iron, carbon, chromium, and nickel. The stainless steel used in Clark vaults is a premium grade alloy with high chromium and nickel content. The Gateway Arch in St. Louis is made of the same high quality alloy used to manufacture stainless Clark Vaults. Many common kitchen accessories are available in stainless steel such as cookware, flatware and sinks.

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

Bronze Triune® - \$5,095

- Double-reinforced burial vault
- High-strength concrete with copper and high-impact plastic
- Rich copper carapace

Copper Triune® - \$4,995

- Double-reinforced burial vault
- High-strength concrete with copper and high-impact plastic
- Rich copper carapace

Veteran Triune® - \$3,995

- Cover and base double-reinforced with strong, corrosion-resistant stainless steel and high-impact plastic
- Brushed stainless steel carapace
- Includes branch-specific military emblems and customized U.S. flag nameplate

Stainless Steel Triune® - \$3,695

- Cover and base double-reinforced with strong, corrosion-resistant stainless steel and high-impact plastic
- Brilliant stainless steel carapace

Cameo Rose Triune® - \$3,695

- Mid-line burial vault
- Cover and base double-reinforced with strong, corrosion-resistant stainless steel and high-impact plastic
- Brushed stainless steel carapace
- Soft white finish with pink accents and sculpted pink rose

Venetian® - \$2,695

- High-strength concrete with high-impact plastic and a reinforced cover and base
- Rich look of polished marble on top (marble look on liners may be available-ask your funeral professional)

Continental® - \$2,295.00

- Single-reinforced burial vault
- Durable concrete exterior with a plastic-reinforced cover and base

Monticello® - \$2,095.00

- Single-reinforced burial vault
- Concrete exterior with a plastic-reinforced cover and base

Concrete Box - \$1,495

A standard grave liner made of 5000
PSI concrete.

PolyGuard Grave Liner - \$995

- **Lightweight, easy to handle and is structurally sound**
- **Echo friendly product**
- **Molded of Non-Biodegradable, Non-Porous Polypropylene**
- **Box and lid join seamlessly with no taps or clips**
- **Color: Black only**
- **Interior dimensions: 86.5"x31.5"x25"**
- **Exterior dimensions: 90.75"x34.25"x27.25"**
