

AVIATION FUEL STORAGE AND BLENDING FACILITY

CATEGORY	Industrial
PROJECT	Wellcamp Aviation Fuel Storage and Blending Facility
CLIENT	Wagner Fuel Services Pty Ltd
LOCATION	Airport and International Dr, Wellcamp QLD
PROJECT YEAR	2025

PRECINCT'S ROLE

Precinct Urban Planning assisted Wagner Fuel Services Pty Ltd with town planning services associated with the development of an Aviation Fuel Storage and Blending Facility with an associated Environmentally Relevant Activity (ERA). The development, will be associated with the operations of the Wellcamp Airport and will supply other airports

The project involved the intensification and re-purposing of the existing Fuel Storage Facility to blend jet fuel and additives in order to manufacture Sustainable Aviation Fuel (SAF). The proposed facility will be developed over 2 stages and will operate 24 hours a day, 7 days a week

KEY TASKS

- Provision of Strategic and Statutory Planning Advice
- Development Application Preparation
- Environmentally Relevant Activity Application Preparation
- DA Process Management
- Development Facilitation
