

## **Nomination for Governance Officer – Australian Ultra and Trail Running Association (AUTRA)**

**Kev Muller**

I am writing to nominate for the position of Governance Officer for the AUTRA Committee.

I have been a member of AURA/AUTRA since 2011 and completed over 140 ultras during this time. I have enjoyed running and occasionally winning road, track and trail events. I have represented Australia at the 24 hour world championships on 4 occasions and was selected to represent the Australian Defence Force at the Marine Corp Marathon in Washington. My running highlight was to be selected as captain and flag bearer for the AUTRA 24 hour team in Taiwan 2023.

My involvement with athletic clubs dates back to 1975, progressing from little athletics through to senior athletics and committee roles. My committee experience is in athletics, various sporting clubs and professional committees. Positions include team manager, secretary, treasurer, vice president and president and I have volunteered on various sub-committees.

I am currently employed with as 2IC of the Australian Army's largest museum at Bandiana. This role is varied but primarily involves corporate governance. My experience with governance dates back to 1992 and includes creating, implementing, evaluating and auditing management systems for food safety, water quality, environmental management, WHS, personnel management, quality assurance and training systems.

The governance officer role is relatively new within AUTRA and I wish to use my time as an athlete, committee member and my professional experience to build on the work led by David Martin. If elected I intend to work inclusively and cohesively with the AUTRA committee and AUTRA members to help further develop AUTRA's governance policies to ensure they are fair, clear and easy to understand.

Thank you for considering my application
