Where there is any inconsistency, the 3.1 International Team Selection Policy and AUTRA Rules prevail, except where AUTRA has expressly approved a variation for this Championship.

#### 5.4 Qualifying Period

**5.4.1** Unless varied by AUTRA due to changes in the event date or LOC requirements:

**5.4.1.1** Performances must be achieved within **24 months** of the Championship start date, i.e. from **23 May 2024** to the final nomination/entry cut-off for the 2026 Championship.

### 7. Team Size and Composition

- 7.1** Final team size is subject to IAU/LOC limits as set out in the official GIS for the 2026 Championship.
- 7.2** AUTRA anticipates selecting up to 12 men and 12 women, with the top 3 contributing to the team classification in accordance with IAU rules.
- 7.3** AUTRA may, at its discretion, select a smaller team than the maximum allowed number of athletes, based on available qualifiers, performance depth and budgetary or logistical considerations.
- 7.4** An athlete will only be considered for selection in the event(s) they have nominated in their application.
- 7.5** Subject to LOC rules on team size, the Selection Committee may exercise discretion to add further athletes to the team, provided those athletes meet the qualifying criteria or clearly demonstrate the capacity to perform at the required standard.

### 8. Selection Criteria – 24-Hour Emphasis

**8.1** Achievement of a qualifying standard does not entitle an athlete to automatic selection.

**8.2** In considering athletes for selection, the Selection Committee and AUTRA Committee will take into account (without limitation):

**8.2.1** Quality of qualifying performance(s) relative to A/B/C standards.

**8.2.2** Recent performance trajectory and consistency in 24-hour or similar events.
