**Maria Telkes Quiz - v2**

Total questions: 9

Worksheet time: 5mins

Instructor name: Mrs. Iro Koliakou

1. Which one social effect pursue or Mary You pull with them efforts her for her solar energy?

- |  |   |
|--|---|
| a) B) Reduction her consumption household energy | b) C) Independence in energy and environmental sustainability |
| c) D) Promotion methods industrial production    | d) A) Improvement of systems transportation                   |

2. Which one stand out or loyalty her Maria You pull beyond from her research;

- |   |  |
|---|--|
| a) A) Patents for solar mobile                                    | b) b) Collaboratively laboratories                   |
| c) c) Innovative inventions such as the solar desalination system | d) d) Academic publications in helium energy studies |

3. Which one basic crumple it was critical for the Mary You pull on efforts her?

- |  |                                    |
|--|------------------------------------|
| a) C) Competition with others scientists | b) B) Collaborative collaborations |
| c) D) Private research and development   | d) A) Individual innovation        |

4. Which ones collaborations it was important for the Mary You pull at projects her about with solar energy?

- |  |  |
|--|--|
| a) A) Partnerships with world governments        | b) c) Partnerships with architects such as Eleanor Raymond and sponsors such as Amelia Peabody |
| c) b) Partnerships with multinationals companies | d) d) Alliances with academically institutions   |

5. Which one it was or lady vision her Maria You pull about with her solar energy;
- a) D) A temporary solution for environmental issues      b) A) A limited resource for specific applications
- c) C) A additional source energy for selected areas      d) B) A unlimited source untapped potential to transform lives
6. What did the Mary You pull to think with vision in solar energy;
- a) A) Wish for personal identification      b) C) Sense responsibility for a viability future
- c) B) Economics incentives from her government      d) D) Fear exhaustion of conventional sources energy
7. Which one it was the sir target of initiatives her Maria You pull for her solar energy;
- a) B) Promotion renewable energy sources in urban areas      b) D) Promotion of energy independence and her environmental sustainability
- c) A) Improvement of agricultural of minutes      d) C) Provision affordable electricity in rural communities
8. How they contributed the collaborations her Maria You pull at projects her solar energy?
- a) B) With her integration of innovative technologies in solar solutions      b) C) With her utilization varied experience for complete solutions
- c) D) With her focus exclusively in academic collaborations      d) A) With her insurance government funding for research
9. Which one inheritance left or Mary You pull to domain her solar energy?
- a) B) Creation one foundation for solar energy transfer      b) A) Pioneering developments in efficiency of solar panel
- c) C) Inspiring future generations to follow viable solutions energy      d) D) Development one global network of solar energy advocates
