

Specially designed spray tip allows for pin-point application onto grout joints, giving up to 4x more coverage per can and no messy residue to clean up compared to competitors.

Coverage: 800-1000 LF per can

Very wide spray pattern that covers tiles with excess sealer that needs to be cleaned up.

Less linear feet per can due to waste.

ADVANCED SEALERS & CLEANERS - FROM RS TECHNOLOGIES, LLC

ULTIMATE FAST SPRAY-ON GROUT SEAL

- Can be applied to damp/uncured grout immediately after grouting.
- The **COLOR HOLD TECHNOLOGY** will keep the color from fading while drying.
- Leaves no hard-to-remove residue.
- Can also be used with clean, existing grout.
- Will not change surface appearance.
- Gives the same protection on fresh grout as it does on cured.
- No need to wait hours or days to finish the job.
- Penetrates to protect grout, stone and masonry surfaces against oil and water-based stains, allowing the treated surface to breathe, while providing protection for up to 25 years!
- Solvent-based formula.
- VOC Compliant.
- Keeps the grout color from fading while drying.

INSTANT GROUT SEALANT- Can be applied right after grouting or on existing grout-Just Spray & Walk Away

INVERTED TIP- Specially designed tip allows for precise application onto tile grout joints without mess

COLOR HOLD TECHNOLOGY- Keeps grout color from fading. Won't change appearance when dry-LASTS 25 YEARS
