

ULTIMATE NANO FLOOR FINISH

WITH **NANO FORMULATION TECHNOLOGY**

FAST CURING FINISH SEALER FOR ALL PORCELAIN & CERAMIC TILES, LVT, LAMINATE, GLASS, METAL AND MORE.

A medium sheen penetrating topical. A protective nano thin coating that creates a durable, crystal clear finish specifically designed to bond to the micro-pores of today's porcelain tiles and more.

This new **AC Technology** has the easiest, safest and fastest application in the industry, is self-leveling and penetrates micro pores of tile, stone, glass, metal and more to protect against spills and stains.

It is non-yellowing and won't crack or peel, it also enhances the beauty of any porcelain tiles colors and patterns while leaving a desirable medium sheen finish. This will also seal the grout joints and make for easy, fast and effortless maintenance of the floor.

**RESTORES OLD TILES TO BETTER THAN NEW LOOK!
APPLY BEFORE AND AFTER GROUTING
PROTECTS & BEAUTIFIES**

DO NOT DILUTE. USE AS IS
KEEP OUT OF REACH OF CHILDREN AND PETS
DO NOT GET INTO EYES, NOSE OR MOUTH

EASIER MAINTENCE FOR BEAUTIFUL TILES

DIRECTIONS

READ BEFORE USING

SHAKE WELL

Always test product in an inconspicuous area first to determine suitability. Suitability is always the responsibility of the user. Make sure surface is free from all dirt, grease, oil and waxes.

1. Work in small areas at a time and wipe/spray-on Nano Floor Finish not completely covering the porcelain tiles surface.
2. With a deck pad on a mop handle immediately evenly distribute the Nano Floor Finish over the floor and grout, and then continue this step throughout the entire floor.
3. A second coat can be applied 10-20 minutes after first coat to achieve desired look.
4. Allow last coat to dry for 30-60 minutes before walking on, fully cured in 24 hours. When applying in showers allow 72 hours to cure before use.

FIRST AID FOR EYES AND SKIN: RINSE EYES AND SKIN WITH WATER FOR 15 MINUTES. CALL A PHYSICIAN IF ANY IRRITATIONS CONTINUE.
INHALATION: REMOVE PERSON TO FRESH AIR. CALL A PHYSICIAN IF SYMPTOMS PERSIST.
FIRST AID IF INGESTED: IF SWALLOWED DRINK A LOT OF WATER FOR 15MINUTES. DO NOT INDUCE VOMITING. SEEK MEDICAL ATTENTION IF STOMACH IRRITATIONS CONTINUE.
