As of June 30, 2026 | NASDAQ: ACTG

## **Forward-Looking Statements**

*This presentation contains forward-looking statements within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. These statements are based upon the current expectations of Acacia Research Corporation (“Acacia” or the “Company”) and speak only as of the date hereof. All statements other than statements of historical fact are forward-looking statements and include statements related to estimates and projections with respect to, among other things, the Company’s anticipated financial condition, operating performance, the value of the Company’s assets, general economic and market conditions and other future circumstances and events. This presentation attempts to identify forward-looking statements by using words such as “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “forecast,” “future,” “guidance,” “intend,” “may,” “outlook,” “plan,” “potential,” “predict,” “project,” “seek,” “should,” “target” and “will” and similar words and expressions; however, the absence of these words does not mean that the statements are not forward-looking. While the Company believes its assumptions concerning future events are reasonable, a number of factors could cause actual results to differ materially and adversely from those expressed or implied in any forward-looking statements, including, but not limited to: the Company’s ability to successfully identify, diligence, complete, and integrate strategic acquisitions of businesses, divisions, and/or assets, the performance of the Company’s businesses, divisions, and/or assets, disruptions or uncertainty caused by an inability to retain or changes to the employees or management teams of the Company’s businesses, changes to the Company’s relationship and arrangements with Starboard Value LP, any inability of the Company’s operating businesses to execute on their business and, with respect to Benchmark, hedging strategy, risks related to price and other fluctuations in the oil and gas market, inflationary pressures, supply chain disruptions or labor shortages, the impact of tariffs and trade policy, non-performance by third parties of contractual or legal obligations, changes in the Company’s credit ratings or the credit ratings of the Company’s businesses, security threats, including cybersecurity threats and disruptions to the Company’s business and operations from breaches of information technology systems, or breaches of information technology systems, facilities and infrastructure of third parties with which the Company transacts business, oil or natural gas production becoming uneconomic, causing write downs or adversely affecting Benchmark’s ability to borrow, Benchmark’s ability to replace reserves and efficiently develop current reserves, risks, operational hazards, unforeseen interruptions and other difficulties involved in the production of oil and natural gas, the impact of any seismic events, environmental liability risk, regulatory changes related to the oil and gas industry, the ability to successfully develop licensing programs and attract new business, changes in demand for current and future intellectual property rights, legislative, regulatory and competitive developments addressing licensing and enforcement of patents and/or intellectual property in general, the decrease in demand for Printronix’ products, changes in safety, health, environmental, tax and other regulations, requirements or initiatives, hazards such as weather conditions, a health pandemic (similar to COVID-19), acts of war or terrorist acts and the government or military response thereto, general economic conditions, and the success of the Company’s investments. For further discussions of risks and uncertainties, you should refer to the Company’s filings with the Securities and Exchange Commission, including the “Risk Factors” section of the Company’s most recent Annual Report on Form 10-K and any subsequent Quarterly Reports on Form 10-Q. In addition, actual results may differ materially as a result of additional risks and uncertainties of which the Company is currently unaware or which the Company does not currently view as material. Except as otherwise required by applicable law, the Company undertakes no obligation to revise or update publicly any forward-looking statements for any reason.*

## **Industry and Market Data**

*This presentation has been prepared by the Company and includes market data and other statistical information from third-party sources, including independent industry publications, government publications or other published independent sources. Sources for market data and other statistical information are available through Investor Relations upon request. Although the Company believes the third-party sources are reliable as of their respective dates, the Company has not independently verified the accuracy or completeness of this information. It is possible that data and assumptions underlying such third-party information may have changed materially since the date it was published. Accordingly, the Company does not assume any responsibility for and cannot provide assurance regarding the accuracy or completeness of such information, and you should be aware that such information and any estimates and beliefs based on such information may not be accurate and is not guaranteed to be free from error, omission or misstatement. You should not rely on such third-party information as predictions of future results.*

# Use of Non-GAAP Financial Information

GAAP or U.S. GAAP refer to generally accepted accounting principles in the United States. From time to time the Company may include certain “non-GAAP” financial measures in its investor presentations, earnings releases, earnings conference calls or other disclosures. A non-GAAP financial measure is a numerical measure of historical or future performance, financial position or cash flow that includes or excludes amounts that are excluded or included, respectively, in the most directly comparable measure calculated and presented in accordance with GAAP in the Company’s financial statements.

Non-GAAP financial measures are provided as alternative methods for assessing the Company’s financial condition and operating results. These measures are not intended to replace the presentation of financial results in accordance with U.S. GAAP and may be different from or otherwise inconsistent with non-GAAP financial measures used by other companies. The presentation of these non-GAAP financial measures supplements other metrics the Company uses to internally evaluate subsidiary businesses and facilitate the comparison of past and present operations. These measures should not be considered in isolation or as a substitute for measures calculated and presented in accordance with GAAP.

The tables on the following pages reconcile the most directly comparable GAAP financial measures to Adjusted Net Income / (Loss) for the Company, Adjusted Diluted Earnings Per Share (“EPS”) for the Company, Adjusted Earnings before Interest, Income Taxes, Depreciation and Amortization (“Adjusted EBITDA”) for each of the Company and its subsidiaries, and Free Cash Flow (“FCF”) for each of the Company and its subsidiaries.

## **Cash, Equity Securities & Loans Receivable**

Cash, Equity Securities & Loans Receivable is calculated as Cash & Cash Equivalents plus Equity Securities measured at fair value plus Loans Receivable. Cash, Equity Securities & Loans Receivable is a non-GAAP financial measure used by the Company to measure our liquidity.

## **Adjusted Net Income / (Loss)**

Adjusted Net Income (Loss) is defined as GAAP Net Income (Loss) attributable to Acacia Research Corporation excluding costs related to certain legacy matters, stock-based compensation, transaction-related costs, amortization of acquired intangibles, severance costs, impairment of equity method investment (net of the portion attributable to noncontrolling interests), restructuring expense, any unrealized (gain) / loss on securities, any unrealized (gain) / loss on hedges, any (gain) / loss on non-cash derivatives, and any (gain) / loss on non-cash derivatives. The Company is providing Adjusted Net Income (Loss), a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Adjusted Diluted Earnings Per Share (EPS)**

Adjusted Diluted EPS is defined as Adjusted Net Income (Loss) divided by the Company’s weighted average diluted share count as of the relevant period end date. The Company is providing its Adjusted Diluted EPS, a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Total Company Adjusted EBITDA**

Total Company Adjusted EBITDA is defined as net income / (loss) attributable to Acacia Research Corporation before net income / (loss) attributable to noncontrolling interests, income tax (benefit) / expense, interest expense, interest income and other, net, loss / (gain) on foreign currency exchange, net realized and unrealized (gain) / loss on derivatives, net realized and unrealized loss / (gain) on investments, legacy legal expenses, depreciation, depletion and amortization, stock-based compensation, transaction-related costs, severance costs, restructuring expense, impairment of equity method investment, and costs related to the legacy items, and includes realized hedge gain / (loss) and service provider settlement income.

## **Operated Segment Adjusted EBITDA**

Operated Segment Adjusted EBITDA is the aggregate of Energy Operations Adjusted EBITDA, Manufacturing Operations Adjusted EBITDA, Industrial Operations Adjusted EBITDA, and Intellectual Property Operations Adjusted EBITDA. See below for the definition of each of those measures. The Company is providing Total Company Adjusted EBITDA and Operated Segment Adjusted EBITDA, non-GAAP financial measures, because management believes these metrics provide investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance. These measures are not intended to replace the presentation of financial results in accordance with GAAP and may be different from or otherwise inconsistent with similar non-GAAP financial measures used by other companies. The presentation of these non-GAAP financial measures supplements other metrics the Company uses to internally evaluate its subsidiary businesses and facilitate the comparison of past and present operating performance. These measures should not be considered in isolation or as a substitute for measures calculated and presented in accordance with GAAP.

## **Free Cash Flow (FCF)**

Free Cash Flow is defined as net cash provided by (used in) operating activities, less net purchases of property and equipment, and patent acquisitions (“Capital Expenditures”). The Company is providing Free Cash Flow, a non-GAAP financial measure, because it believes free cash flow gives investors a good sense of how much cash flows are available to be used for de-levering, making acquisitions, repurchasing shares or similar uses of cash.

## **Energy Operations Adjusted EBITDA**

Energy Operations Adjusted EBITDA is defined as operating income / (loss) for Acacia’s Energy Operations before depreciation, depletion and amortization expense and transaction-related costs, and including realized hedge gain / (loss). The Company is providing its Energy Operations Adjusted EBITDA, a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Industrial Operations Adjusted EBITDA**

Industrial Operations Adjusted EBITDA is defined as operating income / (loss) for Acacia’s Industrial Operations before amortization of acquired intangibles, depreciation and amortization expense, and severance costs. The Company is providing its Industrial Operations Adjusted EBITDA, a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Intellectual Property Operations Adjusted EBITDA**

Intellectual Property Operations Adjusted EBITDA is defined as operating income / (loss) for Acacia’s Intellectual Property Operations before patent amortization, depreciation expense and stock-based compensation, and including service provider settlement income. The Company is providing Intellectual Property Operations Adjusted EBITDA, a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Manufacturing Operations Adjusted EBITDA**

Manufacturing Operations Adjusted EBITDA is defined as operating income / loss for Acacia’s Manufacturing Operations before amortization of acquired intangibles, depreciation and amortization expense, severance costs, restructuring expense, and transaction-related costs. The Company is providing its Manufacturing Operations Adjusted EBITDA, a non-GAAP financial measure, because the metric provides investors with useful supplemental information in comparing the operating results across reporting periods by excluding items that are not considered indicative of core operating performance.

## **Parent Costs**

Parent Costs are defined as operating income / (loss) attributable to Parent before depreciation and amortization expense, stock-based compensation, transaction-related costs, and costs related to certain legacy matters attributable to the Parent organization. The Company is providing Parent Costs, a non-GAAP financial measure, because it believes it gives investors a clear picture of normalized Parent-level expenses.
